Product Description

Home Spray Fragrance With Free Sample Green Bamboo Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30214

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

The Plant brand Green Bamboo Essence Oil is a versatile home spray fragrance that delivers a fresh, natural bamboo scent while standing out for its unique compatibility with both ready-to-use products and DIY fragrance making. Unlike conventional reed diffuser oils, this formula is specifically engineered for cold scenting candles, allowing the crisp, clean character of green bamboo to diffuse beautifully without the need for heat. What truly sets it apart is its dual role as a finished fragrance and a raw material for creative production, making it an excellent choice for anyone who enjoys crafting their own scented candles, reed sticks, or diffuser blends. Whether used directly as a home spray or incorporated into handmade projects, this oil offers flexibility that standard home fragrances lack. Additionally, each order includes a free sample, giving users the opportunity to test the scent and performance before committing to larger volumes.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026
Production Batch No.: 260425529
Shelf Life: 2 years
Specifications: 5kg/drum
Product Standard No.: GB/T22731 Daily Fragrance
Net Weight: 5kg

Application: Daily Fragrance
Usage: Add in appropriate amounts as needed in production
Shake well before use, and use as soon as possible after opening
Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile & Characteristics:

This Green Bamboo Essence Oil opens with a fresh, aqueous, and slightly citrusy top note accord.

Fragrance Notes	Description
Top Notes	The top features crisp green bamboo stems and dewy leaves, often complemented by bright bergamot, a hint of cucumber for a watery freshness, and subtle melon. This creates an immediate "just-cut bamboo" sensation that is clean and revitalizing.
Middle Notes	As the fragrance develops, the middle heart reveals a delicate floral and lightly spicy character. Here, the sharp green notes soften into water lily, jasmine, or a touch of Turkish rose, adding an elegant, serene quality without being overpowering. Some variations also include fern, spice, or a hint of orange blossom to enhance complexity.
Base Notes	The base provides lasting depth and warmth. It rests on a foundation of clean musk, balsam, and soft woods like cedar or bamboo reeds. This dry-down ensures the fragrance remains sophisticated and grounded, leaving a subtle, lingering freshness ideal for home fragrance applications such as reed sticks, cold-scented candles, and DIY diffuser blends.

LDZ-PL31301 Vanilla Lava Fragrance

Product Name: Vanilla Lava Fragrance
Product Code: LDZ-PL31301
Product Volume: 5 Litre
Product Weight: 5.5 kg
Product Colour: Clear
Product Fragrance: Vanilla Lava
Product Scent: Sweet, Warm, Vanilla
Product Notes: This fragrance is a blend of natural vanilla and lavender notes, creating a warm and inviting scent. It is perfect for use in candles, diffusers, and home fragrances.

Caution: This product is for use only in the intended application. Please refer to the MSDS for full safety and handling instructions.

PLAN LDZ-PL31009 Bourbon Vanilla Fragrance

Product Name: Bourbon Vanilla Fragrance
Product Code: LDZ-PL31009
Product Volume: 5 Litre
Product Weight: 5.5 kg
Product Colour: Clear
Product Fragrance: Bourbon Vanilla
Product Scent: Rich, Warm, Vanilla
Product Notes: This fragrance is a blend of natural vanilla and bourbon notes, creating a rich and warm scent. It is perfect for use in candles, diffusers, and home fragrances.

Caution: This product is for use only in the intended application. Please refer to the MSDS for full safety and handling instructions.

PLAN LDZ-PL30007 Vanilla Fragrance

Product Name: Vanilla Fragrance
Product Code: LDZ-PL30007
Product Volume: 5 Litre
Product Weight: 5.5 kg
Product Colour: Clear
Product Fragrance: Vanilla
Product Scent: Sweet, Warm, Vanilla
Product Notes: This fragrance is a blend of natural vanilla notes, creating a sweet and warm scent. It is perfect for use in candles, diffusers, and home fragrances.

Caution: This product is for use only in the intended application. Please refer to the MSDS for full safety and handling instructions.

PLAN LDZ-PL31420 Almond Ice Vanilla

Product Name: Almond Ice Vanilla
Product Code: LDZ-PL31420
Product Volume: 5 Litre
Product Weight: 5.5 kg
Product Colour: Clear
Product Fragrance: Almond Ice Vanilla
Product Scent: Sweet, Warm, Vanilla
Product Notes: This fragrance is a blend of natural vanilla and almond notes, creating a sweet and warm scent. It is perfect for use in candles, diffusers, and home fragrances.

Technical Specifications

Parameter	Specification
Product Name	Green Bamboo Essence Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.880–0.950 g/cm ³ @ 25°C
Refractive Index	1.485–1.510 @ 20°C
Flash Point	93°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Scented Candles: 5% – 10% (Depending on wax type and desired throw). Reed Diffusers: 15% – 25% (Depending on the carrier base and reed absorption). Room Sprays: 2% – 8%. Soap: 0.5%-3%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The Plant Green Bamboo Essence Oil serves multiple core functions that make it a highly practical addition to any home fragrance lineup. Its primary function is air freshening and odor elimination. The clean, crisp green bamboo scent effectively neutralizes unwanted household odors, including those from cooking, pets, tobacco smoke, and stale indoor air, without simply masking them with heavy synthetic fragrances. This creates a naturally fresh and breathable indoor environment.

Another key function is mood enhancement and ambiance creation. The light, watery, and slightly floral green bamboo profile is known for its calming and refreshing properties, helping to reduce stress, improve focus, and evoke a sense of being in a serene natural setting. It

subtly elevates the atmosphere of any room, from living areas to bathrooms.

The oil also functions as a versatile raw material for DIY production. Unlike many single-use fragrances, this oil is specifically designed to be blended into various base mediums, including carrier oils for reed diffusers, cold-process wax for candles, and water-alcohol solutions for room sprays. This allows users to control final fragrance intensity and customize products for personal use or resale. Finally, it functions as a cold scenting agent, meaning it can disperse fragrance effectively in candles that are not lit or warmed, preserving the integrity of the delicate bamboo top notes.

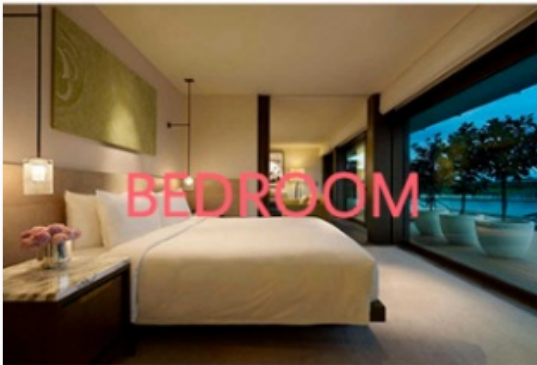

Primary Applications

Thanks to its versatile formulation, this Green Bamboo Essence Oil can be applied across a wide range of home and DIY fragrance products. The most common application is in reed stick diffusers. When mixed with a compatible carrier solvent like DPM (dipropylene glycol methyl) at a recommended concentration of 15% to 25%, the oil is drawn up natural reed sticks, continuously releasing a subtle green bamboo aroma for weeks or months without any heat or electricity.

It is also ideal for cold scented candles. Unlike traditional candles that rely on melted wax pools to release fragrance, cold scented candles are designed to diffuse aroma at room temperature. The oil is blended into the candle wax during production, allowing the candle to perfume a small space even when unlit, making it perfect for desks, bathrooms, or bedside tables.

Another key application is DIY home spray production. The oil can be diluted with distilled water and a solubilizer or alcohol to create a custom room and linen spray. This is especially popular for crafters and small business owners who produce handmade home goods. Additional applications include adding the oil to potpourri, vacuum bags (to freshen carpets during cleaning), unscented laundry detergents, and even diffuser jewelry for personal wear. It is also widely used by small-scale soap and candle makers as a signature scent for their product lines.
