Hotel Diffuser Fragrance With Free Sample Orchid Fragrance Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30267

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

The Plant brand Orchid Fragrance Essence Oil is a premium hotel-grade scent solution designed to elevate guest experiences through an elegant, floral aroma. Its primary differentiation lies in its exceptional versatility across three core applications: reed stick diffusers, cold scented candles, and DIY fragrance production. Unlike many single-use fragrances, this oil serves both as a ready-to-use hotel diffuser fragrance and a raw material for custom blending, making it ideal for property managers, boutique hotels, and artisans who want to create signature scents.

Another standout feature is its formulation for cold scented candles. Traditional candles rely on heat to disperse fragrance, which can alter delicate floral notes. This orchid oil is specifically engineered to diffuse beautifully at room temperature, preserving the true, fresh character of orchid petals without burning. This makes it safer for hotel rooms, spas, and lobbies where open flames may be restricted.

Additionally, the oil comes with a free sample, allowing hotels and buyers to test the scent for brand alignment before committing to bulk orders. Its gentle, sophisticated orchid profile is non-overpowering yet long-lasting, offering a subtle sense of luxury and calm. Whether used directly in reed sticks or as a base for handmade diffuser blends, this oil delivers professional-grade performance with creative flexibility.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Xeyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with a delicate and inviting top note. The initial impression is fresh and slightly green, often featuring a hint of citrus such as bergamot or mandarin to add brightness, alongside a whisper of dewy greenery or even a subtle touch of watery melon. This introduction is light and clean, designed to capture attention without being overwhelming.
Middle Notes	As the top notes fade, the heart of the fragrance reveals the signature orchid accord. The middle notes are where the true character of the oil shines, presenting a lush, velvety floral bouquet. Here, the orchid is typically blended with other white florals such as jasmine, lily of the valley, or a touch of romantic violet. This combination creates a creamy, slightly sweet, and deeply relaxing floral core that feels both refined and natural.
Base Notes	The base notes provide lasting depth and an anchoring warmth. The fragrance settles into a soft foundation of clean musk, powdery iris, and light woody notes like sandalwood or cedar. This dry-down ensures the orchid scent lingers gracefully without becoming heavy, leaving a subtle, sophisticated trail perfect for cold-scented candles and reed diffusers.

Technical Specifications

Parameter	Specification
Product Name	Orchid Fragrance Essence Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.890–0.960 g/cm ³ @ 25°C
Refractive Index	1.490–1.515 @ 20°C
Flash Point	93°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffusers: 15% – 25% (Depending on the carrier base and reed absorption). Scented Candles: 5% – 10% (Depending on wax type and desired throw). Room Sprays: 3% – 8%. Soap: 0.5%-3%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The Orchid Fragrance Essence Oil serves several sophisticated functions that make it particularly valuable for hotel and home fragrance use. Its primary function is ambient air purification and odor neutralization. The elegant orchid scent does not simply mask unpleasant odors from bathrooms, lobbies, guest rooms, or kitchens; it effectively neutralizes them while replacing stale air with a refined, calming

floral aroma. This creates a welcoming and luxurious first impression for guests and visitors.

Another essential function is mood enhancement and stress reduction. Orchid-based fragrances are widely recognized for their calming and uplifting properties. The soft, creamy floral profile helps lower anxiety, promotes relaxation, and subtly improves focus and emotional well-being, making it ideal for spaces dedicated to rest and rejuvenation, such as hotel suites, spas, and meditation areas.

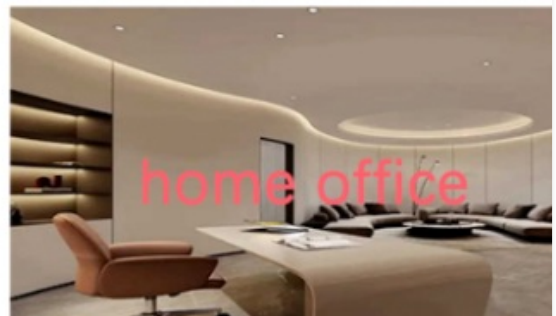

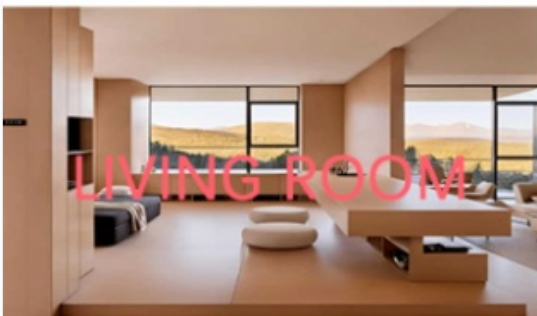

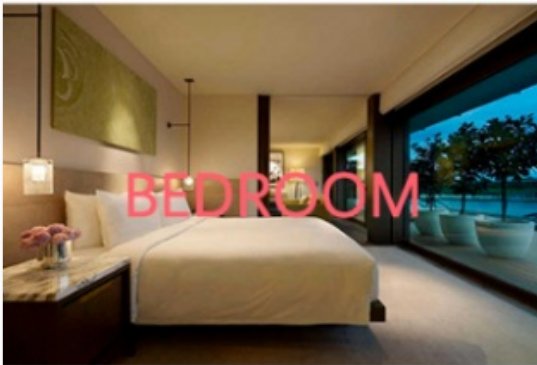

The oil also functions as a professional-grade raw material for DIY fragrance production. Unlike single-use scents, this orchid oil is specifically formulated to be blended with various carrier bases, including solvents for reed diffusers, cold-process wax for candles, and water-alcohol solutions for room sprays. This allows hotels, small businesses, and artisans to create custom signature scents with complete control over intensity and longevity. Finally, it functions as a cold scenting agent, dispersing fragrance effectively without heat, preserving the delicate orchid character intact.

Primary Applications

This Orchid Fragrance Essence Oil is designed for a wide range of professional and DIY fragrance applications, with an emphasis on hotel and luxury home environments. The most prominent application is in hotel lobby and guest room diffusers. When mixed with a compatible carrier solvent at 15% to 25% concentration, the oil is drawn up natural reed sticks, continuously releasing a sophisticated orchid aroma for weeks or months. This creates a consistent, memorable brand scent that guests associate with comfort and quality. It is also ideal for cold scented candles in hotel bathrooms and spas. Unlike traditional candles that rely on melted wax to release fragrance, cold scented candles diffuse the orchid scent at room temperature, making them safer for unmonitored spaces like hotel rooms, restrooms, and spa treatment areas. The delicate floral notes remain pure and unaltered by heat.

Another key application is in DIY diffuser and candle production for small businesses, boutique hotels, or crafters. The oil serves as a base for handmade reed diffuser blends, room sprays, linen mists, and even unscented laundry products. Additional applications include adding the oil to potpourri, vacuum bags to freshen carpets, diffuser jewelry, and car vent diffusers, offering continuous luxury fragrance on the go.

applications

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
