Product Description

Candle Fragrance Oil Frankincense Myrrh Fragrance Essence For Hot Process Scented Candles Productions

Product Code: LDZ-PL40004

Product Overview

Plant Frankincense & Myrrh Fragrance Oil is a sophisticated fragrance crafted for hot process scented candle production, inspired by the timeless allure of precious resins once treasured along ancient trade routes. Blending the sacred warmth of frankincense with the rich, balsamic depth of myrrh, this fragrance creates an atmosphere of tranquility, luxury, and quiet refinement. Unlike conventional candle scents that focus on sweetness, freshness, or seasonal trends, this composition offers a deeper emotional and sensory experience rooted in history, spirituality, and craftsmanship.

The fragrance opens with aromatic incense notes and subtle spicy nuances that immediately evoke the ambiance of a luxury sanctuary or heritage-inspired retreat. As the scent develops, layers of resinous richness, smoky woods, and soft amber unfold, creating remarkable depth and sophistication. Warm woody undertones and velvety musks linger in the background, delivering exceptional longevity and a smooth, elegant finish.

What truly distinguishes Plant Frankincense & Myrrh Fragrance Oil is its ability to transform a space into a destination of mindfulness and elevated living. Rather than simply scenting a room, it creates an immersive atmosphere associated with wellness rituals, boutique spas, luxury resorts, and exclusive lifestyle brands. The fragrance appeals to consumers seeking authenticity, cultural richness, and a sense of escape from everyday life. In hot process candle applications, it demonstrates excellent thermal stability, strong hot throw, and consistent performance, making it an ideal choice for premium candle collections that aim to stand apart from mainstream floral, fruity, or gourmand offerings.

Fragrance Profile

Plant Frankincense & Myrrh Fragrance Oil is a luxurious resinous fragrance that captures the timeless beauty of two of the world's most treasured aromatic ingredients. Rich, warm, and deeply sophisticated, this fragrance combines sacred incense accords with smooth balsamic woods to create an atmosphere of elegance, serenity, and mystery. It is particularly suitable for premium candles, reed diffusers, and luxury home fragrance collections.

Top Notes	The fragrance opens with aromatic frankincense, subtle black pepper, and delicate herbal nuances. These notes provide a fresh yet smoky introduction, immediately creating a calming and meditative ambiance.
Middle Notes (Heart)	At the heart, rich myrrh, warm spices, and soft amber accords emerge, adding depth, complexity, and a distinctive resinous character. These notes create a smooth transition between the fresh opening and the warm woody base.
Base Notes	The fragrance settles into a luxurious foundation of cedarwood, sandalwood, patchouli, amber, and soft musk. These warm and grounding notes provide excellent longevity and leave an elegant, lingering scent trail.

Technical Specifications

Fragrance Profile	Frankincense Myrrh Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.950 to 1.000 g/cm ³ @ 25°C
Refractive Index	1.480 - 1.510 @ 20°C
Flash Point	>90°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Standard Scented Candles	6% – 12% (approx. 1 oz per pound of wax).
Room Spray	2% – 8%
Wax Melts / Tarts	10% – 12% (Higher loads are permissible as there is no wick/flame interaction).
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).
Soap (Cold Process)	0.5% - 3%

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications

Plant Frankincense & Myrrh Fragrance Oil is formulated to create a luxurious, calming, and spiritually inspired atmosphere through the rich combination of precious resinous notes. Its primary function is to provide a long-lasting ambient fragrance that promotes relaxation, mindfulness, and emotional comfort while enhancing the perceived elegance of a space. The distinctive blend of frankincense and myrrh creates a warm, sophisticated scent profile that helps establish a sense of tranquility and refinement.

In hospitality and wellness environments, the fragrance serves as an effective scent-branding tool, helping luxury hotels, spas, meditation centers, and wellness retreats create a memorable sensory identity. It also assists in minimizing the perception of unwanted odors while maintaining a clean and inviting environment. The fragrance is designed to deliver consistent diffusion, excellent scent retention, and stable performance across multiple fragrance applications. Unlike conventional floral or fruity fragrances, it evokes depth, authenticity, and cultural richness. Its timeless resinous character encourages relaxation and contemplation, making it particularly suitable for environments focused on

wellness, luxury living, self-care rituals, and premium customer experiences.

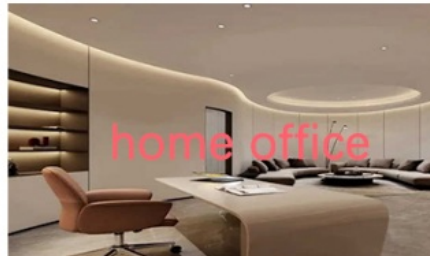

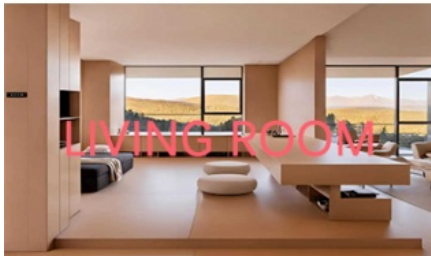

Primary Applications:

Plant Frankincense & Myrrh Fragrance Oil is highly versatile and suitable for a wide variety of fragrance applications. It is particularly valued in hot process scented candle manufacturing, where its excellent thermal stability and strong hot throw ensure outstanding fragrance performance. The fragrance is also widely used in reed diffusers, aroma diffusers, hotel scenting systems, HVAC fragrance equipment, room sprays, linen sprays, and air fresheners that require a rich and sophisticated scent profile.

Beyond home fragrance products, it can be incorporated into soaps, body washes, bath products, lotions, massage oils, and other personal care formulations that emphasize relaxation and wellness. Its luxurious resinous character makes it especially appropriate for luxury hotels, boutique resorts, wellness centers, yoga studios, meditation spaces, premium retail environments, and high-end residential interiors.

The fragrance is also an excellent choice for seasonal collections, festive products, and heritage-inspired fragrance lines due to its timeless appeal and cultural associations. Thanks to its broad compatibility, long-lasting performance, and distinctive aroma, Plant Frankincense & Myrrh Fragrance Oil is ideal for private-label brands and manufacturers seeking to create premium products with a unique and memorable scent identity.
