

Wholesale Candle Fragrances Orange Blossom-Basil Fragrance For Hot /Cold Process Scented Candles Productions

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40119
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Highlight: Orange Blossom Basil candle fragrance, Hot process scented candle fragrance, Cold process candle fragrance oil

Product Description

Wholesale Candle Fragrances Orange Blossom-Basil Fragrance For Hot /Cold Process Scented Candles Productions

Product Code: LDZ-PL40119

Product Overview:

Engineered specifically for the rigorous demands of professional candle manufacturing, the Orange Blossom-Basil Fragrance Oil represents a flawless marriage of delicate floral elegance and crisp, modern herbal accents. This industrial-grade aromatic compound is scientifically formulated to maintain its olfactory structural integrity across both hot and cold process manufacturing, ensuring unparalleled batch-to-batch consistency for luxury candle lines.

The molecular weight of the compound is meticulously balanced to yield an immediate, inviting Cold Throw (CT) on retail shelves, while ensuring an expansive, clean, and soot-free Hot Throw (HT) during candle combustion.

Fragrance Profile

Top Notes	A luminous, uplifting burst of sweet mandarin, neroli, and sun-drenched citrus zest.
Middle Notes (Heart)	The defining core of the fragrance—a rich, honeyed bouquet of Moroccan orange blossom intertwined with the peppery, green, and slightly anise-like crispness of freshly crushed sweet basil.
Base Notes	A clean, grounding foundation of white musk, vetiver, and light herbal accord that anchors the volatile floral elements

Technical Specifications

Fragrance Profile	Orange Blossom-Basil Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.890 to 0.940 g/cm ³ @ 25°C
Refractive Index	1.465 - 1.495@ 20°C
Flash Point	>70°C
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Coconut / Beeswax:	7% – 10%
Paraffin Wax:	6% – 8%

Wax Melts / Tarts:	10% – 12%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

Floral-Herbal Volatility Control: Floral notes like orange blossom are highly delicate and prone to rapid evaporation. This formulation utilizes specialized chemical fixatives that anchor these lighter molecules, slowing down their evaporation rate and preventing the scent from fading over time.

Thermal Stress Resistance: Formulated with a high flashpoint, the oil functions reliably under high-temperature conditions. It resists thermal breakdown and "flashing off" when incorporated into hot molten wax during both hot and cold process manufacturing.

Homogeneous Crystalline Integration: The compound functions as a highly compatible solute within lipid matrices. It integrates seamlessly into the crystalline structures of various waxes, eliminating common defects such as surface sweating, bleeding, or oil separation.

Balanced Dual-Phase Release: It ensures a steady, continuous release of top notes for an impactful Cold Throw (CT) at room temperature, while facilitating efficient capillary action up the wick for a wide-reaching, soot-free Hot Throw (HT).

Primary Applications:

Multi-Wax Candle Formulations: It delivers exceptional performance in container and pillar candles made from 100% soy wax, coconut wax, apricot wax, beeswax, and traditional paraffin blends.

Hot & Cold Process Production: Whether utilizing automated industrial hot-pour assembly lines or artisanal cold-pour techniques, the fragrance maintains its full structural integrity and scent fidelity.

Aromatherapy & Wellness Collections: The uplifting, stress-relieving properties of orange blossom combined with the clarifying, peppery notes of basil make this fragrance perfectly suited for high-end spa, wellness, and meditation-themed candle lines.

Spring/Summer Botanical Lines: The crisp, garden-fresh profile makes it an ideal anchor for seasonal spring and summer collections, luxury botanical series, and clean-burning eco-luxury product lines. It pairs exceptionally well with both cotton wicks and crackling wooden wicks to enhance its natural, refreshing ambiance.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
