Product Description

Candle Making Fragrances Cedarwood-Amber-Jasmine Fragrance For Cold&Hot Process Scented Candles Productions/Making

Product Code: LDZ-PL40177

Product Overview:

Plant Cedarwood-Amber-Jasmine Fragrance Oil is a sophisticated and contemporary fragrance specially developed for both cold and hot process scented candle production. This elegant composition blends the natural warmth of cedarwood, the luxurious richness of amber, and the delicate beauty of jasmine to create a fragrance that is both comforting and refined. Designed for premium candle collections, it offers a perfect balance between woody depth, floral elegance, and sensual warmth.

The fragrance opens with soft woody accords and subtle aromatic nuances that immediately create a calm and inviting atmosphere. As the scent develops, graceful jasmine blossoms emerge, adding a smooth floral sophistication that enhances the fragrance without overpowering its woody foundation. The base is enriched with warm amber notes, creating a velvety, long-lasting finish that fills a space with a sense of luxury and comfort.

What sets Plant Cedarwood-Amber-Jasmine Fragrance Oil apart is its ability to bridge masculine and feminine fragrance preferences within a single composition. Rather than following the trend of overly sweet gourmand or intensely floral scents, it delivers a balanced and universally appealing aroma with a modern boutique-hotel character. The combination of cedarwood, amber, and jasmine evokes the atmosphere of designer interiors, luxury resorts, and upscale wellness spaces. With excellent hot and cold throw performance, strong fragrance retention, and exceptional versatility, this fragrance is an ideal choice for candle brands seeking a timeless, elegant, and distinctive signature scent that appeals to a broad range of consumers.

PLAN

Fragrance Profile

Plant Cedarwood-Amber-Jasmine Fragrance Oil is a refined woody-floral fragrance that combines the grounding elegance of cedarwood, the sensual warmth of amber, and the delicate beauty of jasmine. Created for premium hot and cold process scented candles, this fragrance delivers a sophisticated scent journey that feels luxurious, balanced, and timeless. It is designed for consumers who appreciate fragrances with depth, character, and a modern boutique-style appeal.

Plant Cedarwood-Amber-Jasmine Fragrance Oil is characterized by its harmonious balance of woody richness, floral elegance, and amber warmth. Unlike purely floral or sweet fragrances, it offers a gender-neutral and contemporary profile that feels luxurious, comforting, and versatile. The overall aroma evokes upscale hotels, designer living spaces, and wellness retreats, making it an excellent choice for premium candle collections seeking a sophisticated and memorable signature scent.

Top Notes	The fragrance opens with fresh cedarwood, subtle aromatic herbs, and soft green accords. These notes provide a clean and calming introduction while establishing the fragrance's natural woody character.
Middle Notes (Heart)	At the heart, elegant jasmine blossoms unfold alongside delicate white floral nuances. The jasmine adds a smooth, velvety softness that brightens the composition and introduces a touch of floral sophistication without becoming overly sweet.
Base Notes	The scent settles into a rich foundation of golden amber, creamy sandalwood, soft musk, and warm woody accords. These notes create exceptional depth, warmth, and lasting performance.

Technical Specifications

Fragrance Profile	Cedarwood-Amber-Jasmine Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.940 to 0.985 g/cm ³ @ 25°C
Refractive Index	1.470 - 1.515@ 20°C
Flash Point	>85°C (185°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Standard Scented Candles	5% – 12% (approx. 1 oz per pound of wax).
Room Spray	2% – 8%
Reed Diffusers	15% – 25%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).
Soap (Cold Process)	0.5% - 2%

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

Plant Cedarwood-Amber-Jasmine Fragrance Oil is designed to create a sophisticated, warm, and inviting atmosphere through the harmonious combination of woody, floral, and amber notes. Its primary function is to provide a long-lasting fragrance experience that enhances the sensory appeal of candles and interior spaces while promoting comfort, relaxation, and a sense of refined luxury. The cedarwood accord delivers grounding and stability, jasmine contributes elegance and softness, while amber adds warmth and depth, resulting in a balanced and memorable scent profile.

In scented candle applications, the fragrance is formulated to provide excellent hot and cold throw performance, ensuring consistent scent diffusion before and during burning. It also functions as a powerful scent-branding element for luxury hotels, spas, wellness centers, and premium lifestyle brands seeking a distinctive olfactory identity. The fragrance helps create a welcoming environment and supports a perception of cleanliness, comfort, and sophistication. Its gender-neutral character broadens consumer appeal, making it suitable for diverse markets. Overall, it transforms ordinary environments into elegant and relaxing spaces while delivering a premium fragrance experience that reflects modern luxury and timeless style.

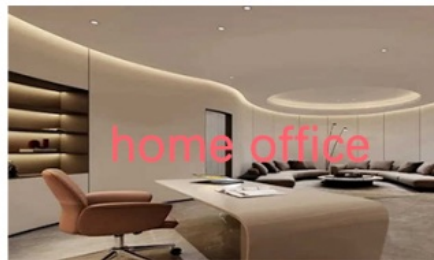

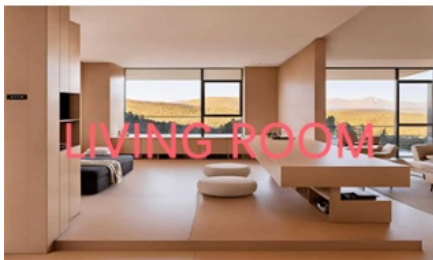

Primary Applications:

Plant Cedarwood-Amber-Jasmine Fragrance Oil is highly versatile and suitable for a broad range of fragrance applications. It is particularly effective in hot and cold process scented candle production, where its excellent thermal stability and fragrance retention ensure superior performance. The fragrance is widely used in luxury container candles, pillar candles, soy wax candles, paraffin candles, and premium seasonal candle collections requiring a sophisticated woody-floral scent profile.

Beyond candle manufacturing, it is ideal for reed diffusers, aroma diffusers, room sprays, linen sprays, air fresheners, and hotel scenting systems. Its elegant and balanced character also makes it suitable for soaps, body washes, shampoos, conditioners, lotions, and other personal care products. The fragrance performs exceptionally well in luxury hotels, boutique resorts, spas, wellness centers, designer retail stores, and upscale residential interiors where a refined atmosphere is desired.

Thanks to its excellent compatibility with various formulations and its broad consumer appeal, Plant Cedarwood-Amber-Jasmine Fragrance Oil is a preferred choice for private-label brands, home fragrance manufacturers, and candle makers seeking a timeless signature scent. Its combination of woody depth, floral elegance, and amber warmth allows it to adapt seamlessly to both contemporary and classic fragrance collections.
