Free Sample Diffuser Fragrance Essence Fresh Linen / Fresh Clean Scent Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30233

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

This fragrance essence does not merely replicate the soapy sensation of detergent. Instead, through the interplay of aldehydes and ozone notes, it simulates the plush, airy texture of "ionized air-drying"—it doesn't smell like freshly tumbled clothes, but rather like the crisp, sunlit rush of fresh air flooding through an open window on a spring afternoon.

Its core differentiator lies in the "waterless" formulation: unlike many aquatic-dominant scents on the market, it significantly reduces the use of Calone (melon/marine notes) and instead builds a dry, warm foundation with white musk and a whisper of cedarwood. This gives the fragrance a crisp, architectural clarity when diffused, rather than a vague, soft blur. This quality makes it particularly outstanding in cold-scented candles—without burning, it already emanates an understated, minimalist aura reminiscent of a high-end concept store.

For DIY makers, another practical edge is its low viscosity and high compatibility—it disperses rapidly in alcohol-based solvents, effectively preventing the common issues of clogging and crystallization often seen with traditional laundry-type oils in reed diffusers. It ensures a stable, consistent scent curve from week one through week four. Ultimately, this fragrance delivers not the memory of "washed fabric," but the psychological reset of a room, designed to cut through staleness rather than merely mask odors.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25,2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plan Fragrance Co., LTD

Address: No. 1, Keyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	Bergamot, Orange, Ozone, Crisp Linen, Aldehydes, Lemon, Apple Provide an immediate, bright, and refreshing "clean" burst upon first sniff.
Middle Notes	Jasmine, Rose, Lavender, Lily, Violet, Neroli, Sage, White Flowers Add a soft, delicate, and floral smoothness that balances the sharpness of the top notes
Base Notes	Musk, Sandalwood, Amber, Cedarwood, Tonka Bean, Powdery Woods Provide a warm, comforting, and long-lasting foundation, creating depth and a "just-washed" feel

Technical Specifications:

Parameter	Specification
Product Name	Fresh Linen / Fresh Clean Scent Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.950–0.973 g/cm ³ @ 25°C
Refractive Index	1.485–1.515 @ 20°C
Flash Point	83-95°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Candles & Wax Melts: 6% – 10% Soap (Cold Process & Melt & Pour): 1% – 2% Lotions & Body Products: 1% – 2% Room Sprays & Linen Mists: 2% – 4% Reed Diffusers: 15% – 25%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of this fragrance oil is to impart a light, airy, and clean scent that evokes the feeling of fresh, sun-dried laundry. This specific scent profile serves several key purposes:

Creating a Welcoming Atmosphere: Its fresh and familiar aroma is used to make indoor spaces feel more inviting, clean, and comfortable. It's frequently employed to set a relaxing or calming environment, suitable for promoting well-being and relaxation.

Mood Enhancement: The scent is designed to be uplifting and can instantly elevate the mood of a space or person using it.

Versatile Scenting: As a concentrated liquid, its core function is to provide a long-lasting fragrance to a wide range of unscented base products, from home goods to personal care items, without significantly altering their other properties. It allows creators to customize the

scent of their products.

Aromatherapy and Relaxation: It is used in aromatherapy applications to promote a calming environment and a sense of well-being, making it a popular choice for home fragrance products.

Primary Applications:

The oil is notable for its wide range of applications, suitable for both home fragrance and personal care products. Key uses include:

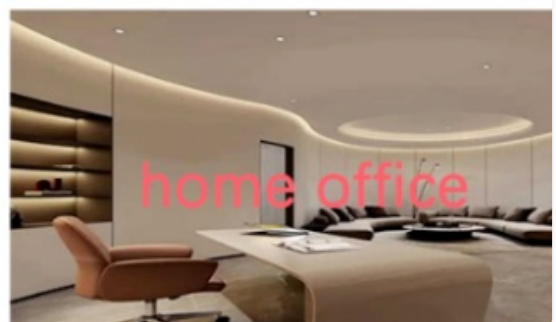

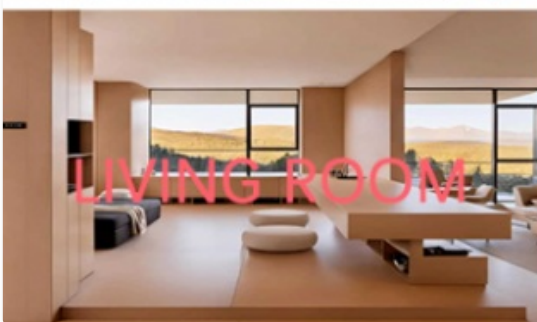

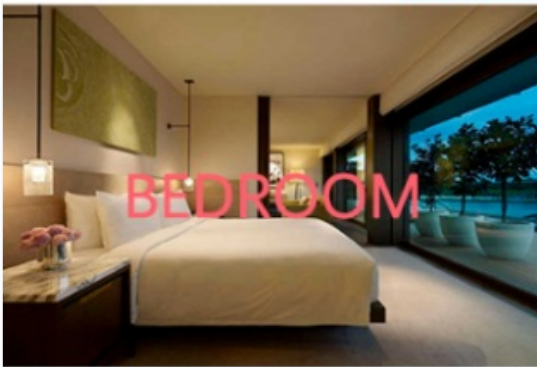

Home Fragrance: It is extensively used in reed diffusers and electric diffusers to scent rooms. It's also popular for creating scented candles, wax melts, and oil burners. Other niche applications include scenting potpourri, carpets, and car fresheners.

DIY and Crafting: It is a staple for crafters making their own soaps (both melt-and-pour and cold process) and bath bombs. It can also be used to scent slime.

Personal Care: When properly diluted with a carrier oil, it can be used in lotions, body oils, sugar scrubs, and even hair care products. It is also used for creating perfume and cologne.

Household Products: The oil can be incorporated into household items like room sprays, air freshener papers, and scented dryer sheets.

applications

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm
