Product Description

Free Sample Diffuser Fragrance Blackcurrant Flavoring For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30853

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Blackcurrant Flavoring Fragrance is a premium fragrance oil specially developed for reed diffusers, cold-process scented candles, aroma diffusers, and other home fragrance applications. Inspired by the vibrant aroma of freshly harvested blackcurrants, this fragrance combines juicy berry sweetness with crisp green nuances and soft floral undertones, creating a lively, refreshing, and sophisticated scent. Its fruity profile is carefully balanced to deliver natural sweetness without being overly sugary, making it ideal for both modern living spaces and luxury hospitality environments.

Crafted with high-quality aromatic ingredients and advanced fragrance technology, this fragrance oil provides excellent scent diffusion, superior cold throw, and long-lasting fragrance performance. Its stable formulation ensures reliable compatibility with diffuser base oils, soy wax, paraffin wax, coconut wax, and blended candle systems, maintaining consistent fragrance quality throughout manufacturing and storage. As the fragrance gently diffuses, it fills the space with a bright and inviting berry aroma that creates a welcoming, energetic, and comfortable atmosphere.

Ideal for reed diffusers, scented candles, room sprays, wax melts, aroma sachets, potpourri, and hotel scenting systems, Blackcurrant Flavoring Fragrance blends beautifully with citrus, jasmine, rose, green leaves, vanilla, white musk, and cedarwood accords to create unique home fragrance collections. Combining excellent formulation stability with a fresh fruity identity, it is an outstanding choice for OEM/ODM manufacturers, private-label brands, and premium home fragrance companies seeking high-quality fragrance solutions with lasting freshness, vibrant character, and broad consumer appeal.

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The experience opens with an immediate, juicy burst of tart blackcurrant, often accented by crisp citrus like bergamot or a touch of green apple to provide a fresh, mouth-watering introduction.
Middle Notes	As the top notes fade, the fragrance deepens into the heart of the scent. Here, the rich, jammy character of the blackcurrant is complemented by lush floral notes such as jasmine or rose, and sometimes a hint of spicy clove or black tea for added complexity.
Base Notes	The foundation is warm, grounding, and long-lasting. Notes of cedarwood, amber, and musk provide a woody depth that anchors the brighter top and middle notes, ensuring the fragrance lingers and diffuses evenly over time.

Technical Specifications:

Parameter	Specification
Product Name	Blackcurrant Flavoring Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.955–0.990 g/cm ³ @ 25°C
Refractive Index	1.468–1.498 @ 20°C
Flash Point	>80°C (180°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffuser: 15–30%; Cold Process Candles: 6–10%; Hot Process Candles: 5–8%; Room Spray: 2–6%; Wax Melts: 6–10%; Aroma Sachets: 3–8%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

This blackcurrant flavoring serves multiple critical functions beyond simply adding a scent. Its primary function is to provide a robust, cold-throw performance, meaning it effectively volatilizes and disperses fragrance molecules at room temperature without the need for heat,

which is essential for reed sticks and diffusers.

It also acts as a fixative; the base notes of amber and musk help anchor the volatile top notes, slowing down their evaporation rate to ensure a consistent, long-lasting scent life that can endure for weeks. Furthermore, this formulation is engineered to be non-clogging for the porous reeds and wicks of diffusers, ensuring continuous capillary action. In candles, it functions to create an immersive, mood-enhancing atmosphere without interfering with the wax's structural integrity, preventing frosting or sweating while providing a clean, soot-free aromatic experience.

Primary Applications:

This fragrance is highly versatile across home fragrance sectors. In reed stick diffusers, the oil is mixed with a carrier solvent; the reeds absorb the solution and release the scent into the air, providing a continuous, flameless ambiance ideal for entryways and bathrooms. For cold-scented candles (like wax melts or gel candles), this flavoring is blended into the wax without ignition, offering a safe, flame-free scent throw perfect for offices or bedrooms where open flames are prohibited. In general diffuser production, it is used in ultrasonic or nebulizing diffusers to create fine mists, purifying the air while delivering that fruity aroma. It is also widely applied in commercial spaces like hotel lobbies and retail stores to create a signature, welcoming environment. Additionally, it can be used in potpourri or scent sachets to subtly fragrance linens and closets.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options
