

Diffuser Fragrance Free Sample Lavender & Linen Fragrance Scent Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA, MSDS, IFRA, CE, ISO
- Model Number: LDZ-PL30890
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum, 4 Drum/carton, 20kgs/carton (41*28*33.5cm); Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm) (0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Diffuser Fragrance Free Sample Lavender & Linen Fragrance Scent Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30890

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Lavender & Linen Fragrance Oil is a premium, high-potency aromatic compound engineered specifically for artisanal home fragrance manufacturing. This distinct scent profile pairs the deeply grounding, botanical essence of French lavender fields with the airy, nostalgic crispness of line-dried cotton. The fragrance opens with a refreshing burst of ozone and aldehyde notes, transitions into a heart of herbal lavender and delicate white buds, and anchors beautifully into a base of soft powder and warm blonde woods, creating an atmosphere of pure, understated luxury.

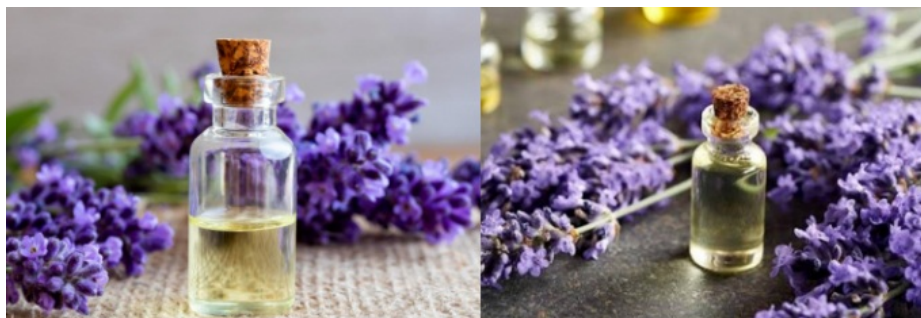

Formulation & Performance Dynamics

Unlike standard perfume oils, this specialized formulation is engineered to interact flawlessly with various scent-delivery mechanisms:

Capillary Efficiency for Reed Diffusers: The oil features a low-viscosity structure that blends seamlessly with carrier bases like DPM or Auego. This prevents the clogging of rattan or fiber reeds, ensuring an even, continuous evaporation rate that fills a room without becoming overpowering.

Thermal Stability for Candle Making: Designed to withstand the high melting points of soy, coconut, and paraffin waxes, the oil avoids "flashing off" during the pouring phase. This integrity guarantees a robust cold throw on retail shelves and a powerful, clean hot throw when lit.

Aerosolization for Cold-Air Nebulizers: The pure, undiluted compound is refined enough for waterless diffusers, fracturing into a microscopic, residue-free mist that leaves no oily buildup on internal components.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Xeyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Fragrance Profile & Characteristics:

The premium Lavender and Linen fragrance oil offers a comforting, layered sensory experience. It beautifully captures the crisp, clean essence of sun dried laundry drying alongside a blooming, wind swept lavender field, blending airy freshness with soothing, herbal undertones.

Fragrance Notes	Description
Top Notes	Ozone, Fresh Air, and Zesty Citrus. These crisp, uplifting notes provide an immediate, bright burst of outdoor freshness, mimicking a cool morning breeze.
Middle Notes	French Lavender, Clean Cotton, and Soft Jasmine. The heart of the scent emerges with the deeply calming essence of blooming lavender, balanced by the cozy, comforting aroma of freshly washed cotton linens.
Base Notes	Powdery Musk, Warm Cedarwood, and Gentle Amber. The fragrance settles into a grounding, long lasting foundation. The soft musk, warm amber, and cedar woods add rich depth and a relaxing, spa like finish to your favorite space.

Technical Specifications:

Parameter	Specification
Product Name	Lavender & Linen Fragrance Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.980–1.035 g/cm³ @ 25°C
Refractive Index	1.485–1.515 @ 20°C
Flash Point	>85°C (185°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffuser: 15–25%; Aroma Sachets: 3–8% Wax Melts: 6–10%; Cold Process Candles: 6–10%; Hot Process Candles: 5–8%; Room Spray: 2–6%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of Lavender & Linen Fragrance Oil is to deliver a highly controlled, evocative sensory experience through its dual-action aroma profile. Combining the therapeutic properties of herbal lavender with the comforting, familiar scent of fresh linen, this oil acts as a powerful mood enhancer. In aromatherapy and wellness spaces, the lavender component functions as a natural relaxant, helping to

soothe the nervous system, reduce environmental stress, and prepare the mind for deep, restful sleep. Chemically, the oil is engineered with advanced molecular stability to function across different heat thresholds and diffusion mediums. It acts as an efficient scent-binding agent in wax, maintaining its structural integrity without breaking down under high pouring temperatures. When mixed with carrier solvents, it lowers surface tension to facilitate smooth capillary action up reeds, ensuring a steady, uniform scent throw. Furthermore, its odor-neutralizing properties help mask stubborn household smells, replacing them with a crisp, sanitizing, and long-lasting atmosphere of purity and clean luxury.

Primary Applications:

This professional-grade fragrance oil is incredibly versatile, making it a staple across several key sectors of home fragrance and personal care manufacturing:

Candle and Wax Melt Production: The oil integrates flawlessly with soy, coconut, beeswax, and paraffin. It is used to create premium aromatherapy candles, wax melts, and tarts, ensuring a robust scent throw that fills both small and large living spaces with a calming aroma when lit.

Flame-Free Diffusers: It is highly compatible with reed diffusers when blended with carrier solvents (like Augeo or MMB). Its refined, light viscosity makes it perfect for waterless cold-air nebulizers, ultrasonic water diffusers, and automated room sprays.

Body and Bath Formulations: Because of its skin-safe, phthalate-free nature, it is widely applied in handcrafted soaps (cold process and melt-and-pour), relaxing bath bombs, body lotions, and linen sprays.

Commercial Scenting: It is utilized by hotels, spas, and high-end retail boutiques to establish a clean, welcoming, and memorable brand identity through ambient scenting systems.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
