Product Description

Home Diffuser Fragrance Osmanthus Longjing Tea Scent Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30958

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Osmanthus Longjing Tea fragrance oil is an exquisite, highly sophisticated aromatic blend specifically engineered for premium home scenting applications, such as reed diffusers, cold-scented candles, and ultrasonic diffusers. This unique scent masterfully captures the elegant, tranquil essence of traditional Chinese tea culture by harmonizing delicate, honeyed florals with crisp, earthy undertones. The fragrance opens with refreshing top notes of bright bergamot and fresh spring air, which gracefully transition into a heart dominated by authentic, pan-fired Longjing green tea leaves and a hint of roasted chestnut. The blend is beautifully anchored by a rich base of sweet golden osmanthus blossoms—reminiscent of ripe apricots—complemented by velvety white musk and a touch of soft stone fruit. Highly versatile and technically stable, this fragrance oil boasts a carefully balanced evaporation rate that ensures excellent capillary action in reed diffusers, providing a consistent, clog-free aroma. For candle makers, it delivers an exceptionally strong cold throw, filling a room with its soothing, meditative ambiance even when the wax is unlit. Whether utilized in professional manufacturing or DIY home crafting, Osmanthus Longjing Tea creates a serene, upscale atmosphere that perfectly bridges the gap between restorative botanical freshness and comforting warmth, making it an ideal sensory addition for modern luxury living spaces seeking a refined olfactory signature.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile & Characteristics:

Osmanthus Longjing Tea fragrance oil offers a beautifully complex, multi-layered olfactory profile that masterfully marries the meditative serenity of premium high-mountain green tea with the sweet, honeyed allure of classic autumn blossoms.

Fragrance Notes	Description
Top Notes	The sensory journey begins with the top notes, where an incredibly refreshing, vibrant burst of zesty Italian bergamot, unripe green plum, and crisp morning dew awakens the senses. This bright, uplifting opening perfectly mimics the cool, pristine air of a misty, sun-drenched lakeside tea plantation at dawn.
Middle Notes	As the initial sparkle softens, the middle notes reveal the authentic, comforting heart: spring-harvested Longjing green tea leaves. This dry, leafy greenness is beautifully accented by delicate white orchid petals and a distinctive, nutty, toasted chestnut undertone.
Base Notes	Finally, the base notes anchor the scent with its highly beloved star botanical: golden osmanthus. Delivering a velvety, peach-and-apricot sweetness, it blends seamlessly with sheer white musk, warm, glowing golden amber, and soft, clean cedarwood. This elegant finish leaves a lingering, comforting trail, effortlessly transforming any contemporary home or office into a tranquil sanctuary of refined luxury and deep, peaceful, and restorative relaxation.

Technical Specifications:

Parameter	Specification
Product Name	Osmanthus &Longjing Tea Scent Fragrance Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.950–0.990 g/cm³ @ 25°C
Refractive Index	1.455–1.485 @ 20°C
Flash Point	>85°C -100°C(185°F-212°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffuser: 15–25%; Aroma Sachets: 3–8% Wax Melts: 6–10%; Cold Process Candles: 6–10%; Hot Process Candles: 5–8%; Room Spray: 2–6%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of Osmanthus Longjing Tea fragrance oil is to serve as an ambient mood stabilizer, utilizing principles of olfactory psychology to evoke mental clarity and deep relaxation. Engineered with a sophisticated, dual-action aromatic profile, it uses the crisp, clean notes of green tea to mentally refresh and focus the mind, while the sweet, velvety undertones of golden osmanthus soothe the

nervous system and reduce stress. This functional balance makes it highly effective at neutralizing unwanted household odors, replacing them with a persistent, refined scent rather than just masking them. On a technical level, the oil acts as a highly stable, non-discoloring compound formulated to maintain its structural integrity when exposed to heat or air. It functions as a slow-release aromatic agent, ensuring that the volatile top notes evaporate in a controlled manner, allowing the heart and base notes to linger consistently. This slow-release mechanism ensures a smooth, continuous sensory transition that elevates the comfort, emotional balance, and overall atmospheric quality of any indoor environment.

Primary Applications:

This premium fragrance oil is highly versatile and engineered for superior performance across a wide range of home scenting and commercial applications. In the manufacturing of reed diffusers, its optimal viscosity and chemical compatibility allow for effortless capillary action, ensuring the scent travels smoothly up fiber or rattan reeds for constant, clog-free diffusion. For candle making, it is specially formulated to deliver an exceptional cold throw—filling a room with its tea-house aroma when unlit—while maintaining a clean, smoke-free hot throw in soy, coconut, and paraffin waxes. It is also perfectly suited for ultrasonic and electric diffusers, dispersing seamlessly into water-based mists without leaving heavy, oily residues. Beyond these primary uses, its low-vanillin formulation makes it an excellent choice for room sprays, linen mists, and wax melts where discoloration must be avoided. Additionally, commercial spaces like luxury hotels, spas, and boutique tea rooms utilize this specific scent in large-scale HVAC scenting systems to curate an upscale, memorable, and deeply comforting brand identity.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
