Product Description

Free Sample Home Diffuser Oriental-style Food Fragrance Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30297

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Home Diffuser Oriental-Style Food Fragrance Essence Oil is an innovative fragrance concentrate designed to recreate the comforting aromas of traditional Oriental culinary culture in modern living spaces. Inspired by handcrafted desserts, aromatic tea ceremonies, and festive delicacies, this fragrance oil harmoniously blends sweet gourmand notes with subtle spices and elegant woody accents, delivering a warm, inviting atmosphere that reflects both cultural heritage and contemporary luxury. It is specially formulated for reed diffusers, cold-process scented candles, aroma diffusers, and premium home fragrance production.

Produced with carefully selected fragrance materials, this essence oil offers excellent scent diffusion, superior thermal and oxidative stability, and long-lasting fragrance retention. Its well-balanced formulation ensures a clean, consistent release of fragrance while preserving the richness and authenticity of every aromatic layer. The composition is engineered to perform reliably in both handcrafted and industrial manufacturing processes, making it suitable for high-end commercial production. Ideal for luxury home scent collections, boutique hotels, wellness studios, tea houses, meditation spaces, room sprays, linen mists, fragrance sachets, and decorative aroma products, this fragrance oil features harmonious accords of roasted chestnut, black sesame, sticky rice, honey, osmanthus, vanilla, sandalwood, and soft amber. The result is a unique East-meets-modern gourmand fragrance that creates a memorable sensory experience while helping brands establish distinctive product identities in the competitive home fragrance market.

Fragrance Profile & Characteristics:

Silver Birch & Lavender fragrance oil offers a sophisticated, multi-layered woody-floral profile that beautifully balances crisp, outdoor freshness with soothing herbal warmth.

Fragrance Notes	Description
Top Notes	At the top notes, the scent opens with an invigorating burst of cool, ozonic mountain air, bright citrus zest, and green leaves. This initial impression mimics a brisk morning walk through a dewy northern forest, immediately capturing your attention with its clean, refreshing energy.
Middle Notes	As the fragrance settles, the middle notes emerge to reveal a comforting heart of classic French lavender, wild rosemary, and soft floral undertones. This herbaceous core gracefully tempers the initial crispness, adding a velvety, deeply calming dimension that effortlessly promotes peace and relaxation.
Base Notes	Finally, the scent is anchored by rich, enduring base notes of silver birch wood, earthy vetiver, warm amber, and subtle white musk. These woody elements beautifully ground the lavender's sweetness, giving the oil its signature depth and an incredibly elegant longevity. Together, these layers create a harmonious, upscale ambiance that transitions beautifully from a bright, airy opening to a warm, cozy finish.

Technical Specifications:

Parameter	Specification
Product Name	Silver Birch & Lavender Fragrance Oil
Fragrance Profile	Sharp Citrus, Zesty Peel, Effervescent
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.920–0.980 g/cm³ @ 25°C
Refractive Index	1.445–1.495 @ 20°C
Flash Point	>93.5°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffuser: 15–30%; Room Spray: 2–6%; Aroma Sachets: 3–8% Wax Melts: 6–10%; Cold Process Candles: 6–10%; Hot Process Candles: 5–8%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of Silver Birch & Lavender fragrance oil is to deliver a controlled, long-lasting sensory experience that alters the ambience of an interior environment. Formulated with a sophisticated molecular structure, it acts as an ambient mood enhancer, bridging the gap between invigorating freshness and deep relaxation. The inclusion of silver birch provides a grounding, earthy stability, while the

lavender components serve an aromatherapeutic purpose by actively promoting stress reduction, mental clarity, and tranquility. Beyond simple masking of odors, this fragrance oil functions as an invisible design element for a space, establishing an upscale, spa-like atmosphere. On a technical level, it functions as a highly stable aromatic compound that resists rapid oxidation, ensuring the scent profile remains true and does not distort over time when exposed to air or light. Furthermore, its chemical engineering allows it to blend seamlessly with various chemical carriers, facilitating a smooth, steady diffusion of scent molecules into the surrounding air rather than a sudden, overwhelming burst.

Primary Applications:

This versatile fragrance oil is engineered for a wide array of home scenting and manufacturing applications, performing exceptionally well in both cold and hot delivery systems. In reed diffusers, its optimal viscosity ensures excellent capillary action, allowing the fluid to travel efficiently up rattan or fiber reeds for continuous, clog-free evaporation. For candle making, it is specifically optimized for cold scented applications and traditional burning, boasting an impressive cold throw that scents a room even when the wax is unlit, alongside a clean, stable hot throw. It is equally compatible with electric or ultrasonic diffusers, where it disperses effortlessly in water mist without leaving oily residues. Beyond these primary uses, its excellent solubility makes it a prime candidate for room sprays, linen mists, and specialized wax melts. Manufacturers also utilize this profile in upscale commercial spaces, boutique hotels, and wellness centers via HVAC scent delivery systems to cultivate a memorable, premium brand identity that relaxes clients the moment they walk through the door.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
