

Concentrated Perfume Essence Oil Tobacco Rose Fragrance Oil For Perfume Making/Production With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL10690
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

- Highlight: tobacco rose perfume essence oil, concentrated fragrance oil for perfume making, perfume production oil with free sample

Product Description

Concentrated Perfume Essence Oil Tobacco Rose Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10690

Tobacco Rose Concentrated Perfume Essence Oil is a rich, captivating raw material designed for fine fragrance production, cosmetic formulation, and home scenting. This complex olfactory blend masterfully plays with contrast, pairing the lush, velvety romance of fresh blooming roses with the dark, golden warmth of cured tobacco leaf. The initial burst of sweet floral petals seamlessly settles into a grounded base of earthy smoke, wood, and amber, creating a sophisticated unisex profile that bridges traditional elegance with modern, sultry depth.

As a highly concentrated essence oil, it offers exceptional longevity, superior projection, and excellent blend stability for craft perfumers and commercial manufacturers alike. Whether utilized as a dramatic standalone signature or as an anchoring base note paired with vanilla, leather, or spices, Tobacco Rose provides formulators with immense creative flexibility. It integrates effortlessly into alcohol-based Eau de Parfums, oil-based roll-ons, luxury body oils, handcrafted soaps, and premium soy candles, delivering an unforgettable, high-end sensory experience across a diverse range of finished products.

Production Date: April 16, 2026

Production Batch No.: 260416568

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Keyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Tel: 86-19924190039

5kgs/plastic bottle

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Opens with an alluring bouquet of sweet, fresh-cut petals—delivering an uplifting burst of romance without feeling overly sweet or powdery.
Middle Notes (Heart)	Settles into a rich, earthy foundation of cured tobacco, faint smoke, and smooth amber, giving the floral top notes a grounded, sultry anchor.
Base Notes (Foundation)	Because it tempers feminine floral notes with masculine, woody undertones, it serves as an ideal foundation for gender-neutral scent profiles.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Tobacco Rose Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.930–1.050 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93.3°C (200°F)
Dosage	Home Fragrance: 6%–10% Personal Care: 1%–5%; Eau de Parfum (EDP): 12–25%; Body Mist: 4–9%; Shower Gel & Shampoo: 0.2–1.0%; Fine Perfume: 15–25%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Tobacco Rose Concentrated Perfume Essence Oil serves as a highly adaptable raw material across several commercial manufacturing sectors. In fine fragrance production, formulators rely on this concentrate to construct premium Eau de Parfum (EDP), alcohol-free oil roll-ons, and solid perfumery, delivering a balanced unisex aesthetic that appeals to modern luxury consumers. Within personal care and grooming lines, it seamlessly integrates into body lotions, rich shower gels, facial beard oils, and artisanal cold-process or melt-and-pour soaps, imparting an elevated, salon-grade sensory experience to daily skin-contact routines. Additionally, the home fragrance industry frequently incorporates this essence into premium soy and coconut wax candles, wax melts, room sprays, and reed diffusers, where its structural stability guarantees impressive cold and hot scent throw. Perfumers also utilize it as a foundational building block for custom scent development, pairing it with warm amber, sweet vanilla, or smoky leather accords to create distinct, high-end product line extensions across both ambient home spaces and cosmetic wellness formulations.

Functionally, Tobacco Rose Essence Oil operates as both a sensory performance enhancer and a structural anchor within cosmetic and

aromatic formulations. As a heart-to-base accord, its primary function is to provide long-lasting olfactory character by pairing the initial sweetness of volatile floral notes with the dense fixative qualities of cured tobacco and resins. The deep, resinous undertones of the tobacco component act as a natural aroma fixative, effectively slowing down the evaporation rate of top notes and significantly extending total fragrance longevity on skin or in ambient air. Furthermore, it functions as a harmonizing bridge in multi-layered scent pyramids, smoothing out potential harsh transitions between sharp citrus or spicy top notes and deep woody basenotes. In thermal applications like candle making, the oil serves as a heat-stable aromatic compound that diffuses uniformly during burning without scorching or altering its true scent profile. Finally, it acts as a functional masking agent in cosmetic bases, neutralizing raw chemical odors while imparting a distinct signature aroma.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

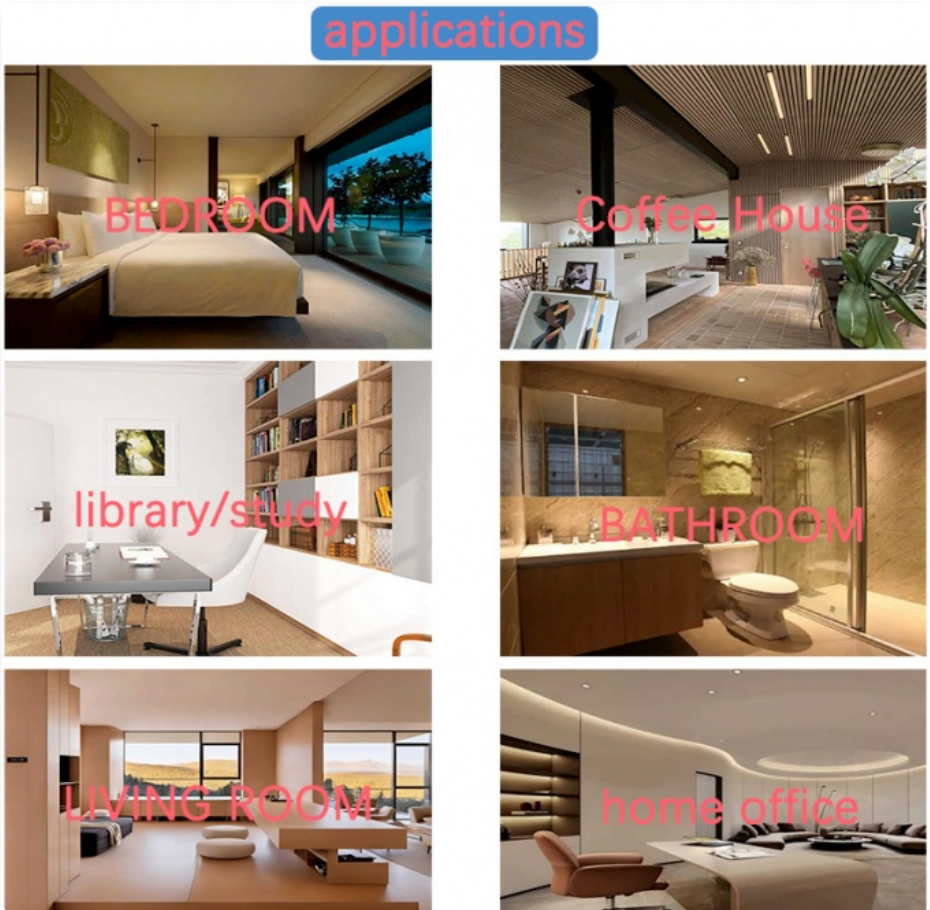

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC
