Product Description

Free Sample Home &Hotel Diffuser Fragrance Mimosa Fragrance For Reed Stick &Cold Scented Candle& Diffuser Fragrance Making/Production

Product Code: LDZ-PL30963

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Home & Hotel Diffuser Mimosa Fragrance Oil is a sophisticated fragrance concentrate crafted for reed diffusers, cold-process scented candles, aroma diffusers, and commercial ambient scenting systems. Inspired by the golden mimosa blossoms that herald the arrival of spring, this fragrance brings together delicate floral elegance, soft green freshness, and a subtle powdery warmth to create an atmosphere of effortless tranquility. Designed to complement modern architecture and refined interiors, it transforms ordinary spaces into environments that feel naturally bright, welcoming, and emotionally uplifting.

Rather than focusing on an intense floral character, this fragrance embraces a light, airy composition that enhances the surrounding environment without dominating it. Its graceful scent profile makes it particularly suitable for biophilic interior concepts, where fragrance works alongside natural materials, soft lighting, and calming décor to promote comfort and well-being. The composition evolves gently, creating a seamless aromatic backdrop that encourages relaxation, focus, and positive first impressions.

This fragrance oil is ideal for luxury hotels, wellness resorts, executive offices, designer showrooms, boutique retail stores, cafés, spa lounges, serviced apartments, and premium residential spaces. It also performs beautifully in reed diffusers, scented candles, room sprays, linen mists, aroma ceramics, fragrance sachets, and HVAC scent marketing systems. Its elegant mimosa signature blends effortlessly with neroli, petitgrain, white tea, iris, cashmere wood, sandalwood, and clean musk accords, making it an outstanding choice for signature scent branding, destination-inspired fragrance collections, and bespoke OEM/ODM home fragrance developments aimed at discerning global markets.

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with sparkling Calabrian bergamot, neroli, petitgrain, and fresh violet leaf. These crisp citrus and green notes provide a bright, clean introduction, evoking the freshness of a sunlit garden after the morning dew.
Middle Notes	The heart reveals a graceful floral arrangement of golden mimosa blossom, acacia flower, jasmine sambac, iris, and white freesia. The mimosa accord delivers its signature powdery sweetness, while delicate florals add depth, softness, and refined elegance without becoming overpowering.
Base Notes	The fragrance settles into a comforting base of cashmere wood, sandalwood, white cedar, soft amber, tonka bean, and clean white musk. These smooth woody and musky accords create a warm, silky finish that enhances the floral notes with subtle depth and lasting comfort. The overall composition is graceful, contemporary, and versatile, making it an exceptional choice for reed diffusers, cold-process scented candles, luxury room sprays, hotel scenting programs, spa collections, and bespoke ambient fragrance projects seeking a sophisticated floral identity.

Technical Specifications:

Parameter	Specification
Product Name	Mimosa Fragrance Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.945–0.975g/cm³ @ 25°C
Refractive Index	1.462–1.492@ 20°C

Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Mimosa Fragrance Oil is designed to shape the emotional atmosphere of a space through subtle floral expression rather than overwhelming intensity. Inspired by the gentle elegance of mimosa blossoms, this fragrance functions as an ambient mood enhancer, creating environments that feel open, tranquil, and naturally welcoming. Its soft floral signature helps reduce sensory fatigue, making it particularly suitable for spaces where people spend extended periods, such as hotel lounges, wellness facilities, and contemporary living areas.

A unique feature of this fragrance is its ability to support olfactory zoning. Different areas within a property can maintain a consistent yet unobtrusive scent identity, allowing visitors to associate the fragrance with comfort, relaxation, and refined hospitality. The balanced composition also serves as an excellent foundation for fragrance layering, pairing effortlessly with green botanicals, white florals, citrus peels, herbal infusions, and soft woody accords to create customized scent experiences. Rather than following seasonal trends, Mimosa Fragrance Oil offers timeless versatility, enabling designers and fragrance developers to establish enduring scent concepts that reinforce architectural style, interior aesthetics, and emotional engagement while strengthening brand recognition through a memorable sensory signature.

Primary Applications:

Mimosa Fragrance Oil is widely incorporated into projects where fragrance is considered an integral part of the overall environmental experience rather than simply an air freshener. It is perfectly suited for reed diffusers, artisan scented candles, luxury room sprays, fragrance diffusers, linen care products, aroma plaster, decorative wax tablets, ceramic fragrance ornaments, and passive scent diffusion systems, creating refined interiors with a light botanical atmosphere.

Beyond traditional home fragrance, this composition is increasingly selected for wellness-focused commercial environments, including yoga studios, boutique libraries, premium co-working spaces, luxury real estate showrooms, designer furniture galleries, lifestyle concept stores, bridal salons, and high-end cafés. It is also highly suitable for hotel scent branding, exhibition spaces, spa reception areas, cultural venues, and VIP hospitality programs, where fragrance contributes to a cohesive customer journey and strengthens emotional connections with the brand. For OEM/ODM manufacturers, the fragrance offers outstanding flexibility in developing destination-inspired collections, botanical wellness series, eco-luxury product lines, and signature fragrance concepts. Its elegant mimosa character complements modern interior design trends and supports brands seeking to deliver immersive, experience-driven fragrance solutions that distinguish their products in the global home fragrance market.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
