Product Description

Diffuser Fragrance Free Sample Avocado Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL31033

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

This Avocado Fragrance Oil is a versatile, refreshing scent profile designed specifically for home fragrance applications, including reed diffusers, cold scented candles, and general diffuser production. The featured variant, Avocado Mint, opens with a zesty burst of fresh lime, providing an immediate crisp and energizing top note. This bright citrus introduction is beautifully balanced by creamy, smooth, and subtly green mid-notes of avocado, which lend a unique and sophisticated character to the blend. The composition is grounded with cooling mint and sweet sugarcane base notes, adding a refreshing finish and a touch of earthy warmth that prevents the fragrance from becoming overly sharp or astringent. Categorized as a "Fresh" scent, it is ideal for creating a clean, inviting atmosphere in sunny kitchens, living rooms, or spa-like settings. Formulated for seamless integration, this oil disperses evenly through reed sticks for consistent throw, delivers potent cold scent release in candles without the need for burning, and provides a stable, reliable base for artisanal diffuser making. Its well-rounded blend of citrus, creamy green, and sweet-cool notes makes it a key ingredient for crafting luxury, high-quality home fragrance products that appeal to modern sensibilities.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25,2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	This Avocado Fragrance Oil presents a modern, green-gourmand scent architecture that defies typical fruity or floral conventions. Its olfactory journey is carefully layered to deliver both novelty and familiarity. The top notes burst forth with an invigorating citrus duo—zesty lime and crisp bergamot—creating an immediate, sparkling lift that awakens the senses. A whisper of peppermint adds a cool, almost effervescent quality, ensuring the opening feels lively rather than heavy.
Middle Notes	Transitioning smoothly, the middle (heart) notes reveal the oil's signature character: the lush, buttery essence of ripe avocado. Unlike synthetic interpretations, this note captures the fruit's natural creaminess with a subtle vegetal undertone, evoking a sense of organic freshness. Interwoven with this are delicate hints of green tea and jasmine petals, which introduce an airy, slightly floral sophistication that prevents the heart from becoming overly dense or savory.
Base Notes	The base notes provide a grounded, enduring finish. Warm vanilla bean and soft white musk form a cozy, powdery foundation, while a touch of cedarwood adds subtle woody depth. This anchoring trio ensures the fragrance lingers gracefully, balancing the initial brightness with a comforting, sensual dry-down that makes it exceptionally versatile for diffusers, candles, and ambient spaces.

Technical Specifications:

Parameter	Specification
Product Name	Avocado Fragrance Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.937–0.980g/cm³ @ 25°C
Refractive Index	1.462–1.492@ 20°C
Flash Point	>90°C (175°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffusers: 15–30%; Cold-Process Scented Candles: 1-15%; Room Sprays: 2–8%; Ultrasonic Diffusers: 3–8%; HVAC Scent Systems: 5–15%; Fragrance Sachets & Aroma Ceramics: 8–15%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of this Avocado Fragrance Oil is to impart a distinctive, refreshing, and clean scent to a wide array of products. Its function is to serve as a versatile and flexible solution for both hobbyists and commercial creators to enhance the sensory appeal of their goods. The oil is designed to be a powerful scenting agent, often described as having a fresh, green, and slightly sweet aroma that can be combined with notes of mint, cucumber, or floral elements to create a complex and inviting profile. Beyond simply adding a pleasant smell, this fragrance oil functions to create a specific ambiance. When used in home fragrance products

like diffusers and candles, it works to mask unpleasant odors and infuse a living space with a "classic refreshing and cool aroma" that is uplifting and can revitalize the mood. In personal care applications, its function extends to providing a gentle, skin-friendly scent that refreshes the user and enhances the overall experience of bath and body products. The oil is formulated to be stable and perform well with various bases, ensuring its scent profile remains consistent from production through the end of the product's use

Primary Applications:

The applications for this fragrance oil are extensive and span both home and personal care product categories. Its most prominent use is in air fresheners and diffusers, where it adds a refreshing scent to any space and can be used in both reed and electric diffusers. It is also a popular choice for candle making, where its luxurious and classically refreshing aroma is suitable for creating scented candles that soothe and energize. For these purposes, a recommended usage rate of 1% to 15% is typical.

The oil is extensively used in the creation of personal care products. For soap making, it is compatible with both melt-and-pour and liquid soap bases. It can also be incorporated into a wide range of bath and body products, including moisturizers, lotions, body butters, bath gels, and body scrubs, adding a natural and refreshing scent. Furthermore, its gentle nature makes it suitable for use in face and body washes, scrubs, and masks. Other creative applications include scenting dryer sheets, freshening carpets and drawers, potpourri, and even in making incense

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
