Product Description

Flavour & Fragrance Manufacturer Sweetheart Heaven Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL10693

Sweetheart Heaven Fragrance Oil is a premium perfume concentrate created to express the delicate emotions of first love, carefree happiness, and graceful sophistication through an imaginative contemporary fragrance. Instead of relying on intense sugary accords, this composition focuses on soft luminosity, silky floral textures, and subtle gourmand nuances, creating a scent that feels light, refined, and emotionally uplifting. The opening introduces sparkling red berries, juicy pear, and a touch of citrus zest, bringing a lively burst of freshness that immediately captures attention. As the fragrance unfolds, elegant peony, magnolia, orange blossom, and jasmine petals bloom together, creating an airy floral heart that is both romantic and modern. Gentle almond cream and whipped vanilla nuances weave seamlessly into the bouquet, adding a delicate cashmere-like softness without overwhelming the composition.

The fragrance concludes with a sophisticated blend of white musk, creamy sandalwood, amberwood, and soft powdery notes, leaving a smooth, comforting trail reminiscent of freshly laundered silk touched by warm spring sunlight. Engineered for professional perfume manufacturing, this high-concentrated fragrance oil offers outstanding diffusion, excellent formulation stability, and remarkable compatibility with alcohol-based perfume systems. It performs beautifully in Eau de Parfum, perfume extracts, body mists, and exclusive niche fragrance collections, while also serving as a versatile blending component for fruity-floral, musky, or modern gourmand creations. With its graceful balance between innocence and sophistication, Sweetheart Heaven Fragrance Oil provides luxury brands with a distinctive signature that feels intimate, elegant, and refreshingly different from conventional sweet fragrances.

PZAN LDZ-PL10413 Coconut & Vanilla Fragrance

Production Date: April 25 2026	Application: Daily Fragrance
Production Batch No: 260421526	Usage: Add in appropriate amounts as needed to production
Shelf Life: 2 years	Shake well before use, and use as soon as possible after opening
Specification: 5kg/drum	Storage conditions: Store in a cool, dry, and well-ventilated place, sealed
Product Standard No: GM722721 Daily Fragrance	
Net Weight: 5kg	

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile:

Sweetheart Heaven Fragrance Oil presents a luminous fruity-floral-gourmand fragrance profile that perfectly balances youthful vibrancy with graceful sophistication. Rather than emphasizing heavy sweetness, the composition delivers a light, silky texture that evolves beautifully throughout wear. The fragrance evokes the feeling of strolling through a blooming garden at golden hour, where fresh fruit, delicate blossoms, and warm creamy notes blend effortlessly into an elegant and comforting scent. Airy, romantic, and contemporary, it offers a refined sweetness that remains fresh and sophisticated from beginning to end.

Fragrance Notes	Description
-----------------	-------------

Top Notes (Opening)	Sparkling red berries, juicy pear, mandarin zest, and a touch of pink grapefruit create an energetic opening filled with vibrant freshness and playful charm.
Middle Notes (Heart)	Peony, magnolia, jasmine sambac, orange blossom, and delicate rose petals unfold gracefully, producing a soft floral bouquet enhanced by subtle creamy almond nuances for a smooth, velvety texture.
Base Notes (Foundation)	White musk, vanilla cream, cashmere wood, amberwood, and soft sandalwood provide a warm, elegant foundation. These comforting accords create exceptional longevity while leaving a clean, powdery, skin-like finish that feels luxurious, romantic, and effortlessly memorable, making the fragrance suitable for modern feminine and unisex perfume creations.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Sweetheart Heaven Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.936–0.984 g/cm³ @ 25°C
Refractive Index	1.482–1.506
Flash Point	>88°C
Dosage	Body Mist: 3–8%; Eau de Parfum (EDP): 12–25%; Diffuser: 25% Fine Perfume: 15–30% Body Lotion/Cream: 0.3–1.0% Candles: 2–10% Shower Gel & Shampoo: 0.2–1.0%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Sweetheart Heaven Fragrance Oil is designed to bring emotional warmth and refined elegance to modern fragrance creations, transforming perfume into a memorable sensory experience rather than simply adding sweetness. Its carefully layered composition creates a gentle rhythm of sparkling fruits, graceful florals, and creamy musks, allowing the fragrance to evolve naturally from the first spray to the final dry-down. The balanced structure enhances the perception of softness, purity, and sophistication while maintaining excellent projection and long-lasting performance.

Its high concentration provides outstanding blending flexibility, enabling perfumers to enrich floral bouquets, brighten fruity accords, soften woody compositions, or add a delicate gourmand touch without dominating the overall formula. The fragrance also functions as a harmony builder, seamlessly connecting fresh top notes with warm base materials to produce a smooth and cohesive olfactory journey. Inspired by the comforting feeling of handwritten love letters, blooming spring gardens, and delicate silk ribbons, this fragrance oil creates an atmosphere of romance and optimism. It helps luxury fragrance brands establish a distinctive signature that feels intimate, elegant, and emotionally engaging while ensuring excellent formulation stability and reliable batch-to-batch consistency.

Sweetheart Heaven Fragrance Oil is suitable for a wide range of premium fragrance and personal care products that require a soft, romantic, and contemporary scent profile. It performs exceptionally well in Eau de Parfum, Eau de Toilette, perfume extracts, perfume oils, body mists, and fragrance layering collections, delivering a graceful fruity-floral signature with remarkable longevity and elegant diffusion.

Its versatile composition also makes it an excellent choice for niche perfume houses, private-label fragrance development, bridal fragrance collections, and seasonal limited-edition launches.

Beyond fine perfumery, this concentrate enhances luxury body lotions, shower gels, shampoos, conditioners, hand creams, liquid soaps, and body butters by adding a smooth, comforting fragrance that remains pleasant after use. It is equally effective in scented candles, reed diffusers, room sprays, linen sprays, aroma diffusers, boutique hotels, and upscale retail environments, creating an inviting atmosphere reminiscent of fresh blossoms drifting through a sunlit courtyard. Thanks to its balanced performance and broad compatibility, manufacturers can develop complete lifestyle fragrance collections with a unified romantic identity, strengthening brand recognition while delivering a consistently elegant sensory experience across multiple product categories.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications
