

Candle Fragrance Oil Vetiver and Lavender Fragrance Oil For Cold & Hot Process Scented Candles Productions/Making With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40539
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,MoneyGram
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Candle Fragrance Oil Vetiver and Lavender Fragrance Oil For Cold & Hot Process Scented Candles Productions/Making With Free Sample

Product Code: LDZ-PL40539

Product Overview:

Crafted explicitly for artisanal candle making, this Vetiver and Lavender formulation marries aromatic relaxation with grounding sophistication. Where standard lavender can occasionally read as overly medicinal or sharp, the inclusion of deep, earthy vetiver acts as a magnificent anchor, lending a smoky, complex warmth that elevates both cold and hot throws. Ideal for soy and paraffin blends alike, it thrives in high-heat production environments without scorching or fading. The profile opens with a crisp botanical clarity before settling into a rich, woody heart that lingers gracefully in any living space.

Fragrance Profile:

The Vetiver and Lavender fragrance oil features a beautifully balanced, artisanal scent profile that bridges crisp herbal freshness with deep, smoky warmth.

Top Notes	Crisp bergamot, clean eucalyptus, and sparkling citrus zest deliver an invigorating and bright opening.
Middle Notes (Heart)	French lavender blossoms mingle with delicate rose petals and fresh herbal muguet for a soothing, floral core.
Base Notes	Rich earthy vetiver, smoky amber, warm cedarwood, and creamy musk anchor the blend with long-lasting sophistication.

Technical Specifications:

Fragrance Profile	Vetiver and Lavender Fragrance Oil
Appearance	Clear to pale yellow liquid
Relative Density	0.940 to 0.990 g/cm³ @ 25°C
Refractive Index	1.455 - 1.580 @ 20°C
Flash Point	>75°C (172°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Standard Scented Candles	6% – 12% (approx. 1 oz per pound of wax).
Room Spray	2% – 8%
Wax Melts / Tarts	6% – 12% (Higher loads are permissible as there is no wick/flame interaction).
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).
Soap (Cold Process)	0.5% - 3%

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
-------------------	---

Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)
Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

The Vetiver and Lavender fragrance oil serves a dual purpose in crafting, acting as both an aromatic modifier and a performance enhancer. Chemically engineered for wax compatibility, its primary function is to bind smoothly with lipid-based candle waxes—such as soy, paraffin, and coconut—preventing separation, oil-sweating, or curdling during the cooling phase. Functionally, it is designed to provide a robust dual-throw capability, ensuring the scent releases effectively both when the wax is solid at room temperature (cold throw) and when heated by a flame (hot throw). Additionally, the robust base notes function as fixatives, slowing down the evaporation rate of the more volatile top and middle notes. This chemical anchoring ensures a balanced, long-lasting fragrance release from the first burn to the very bottom of the jar. Furthermore, it works to neutralize any natural, faint fatty odors inherent in un-fragranced base waxes, creating a clean, high-end olfactory foundation for your finished handmade candles.

Beyond traditional scented candle production, this versatile oil is widely utilized across a spectrum of home fragrance and personal care applications. In candle making, it is a staple for both container candles and wax melts, performing exceptionally well in soy and paraffin blends without degrading under heat. For ambient scenting, it is frequently formulated into reed diffusers, room sprays, and automatic misting devices, where its complex earthy-floral profile adds a calming, spa-like atmosphere to living spaces, bedrooms, and offices. In personal care and bath-and-body crafting, when purchased in skin-safe formulations, it can be incorporated into cold-process soaps, bath bombs, lotions, and body washes to impart a soothing, gender-neutral botanical scent. It is also a popular choice for artisanal incense, sachet bags, and drawer liners, making it an indispensable, multi-use ingredient for independent makers, hobbyists, and commercial home fragrance brands alike.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
