Product Description

ISO Grade Grapefruit & Bell Pepper Flavors Fragrance Oil For Scented Candle Production /Making With Free Sample

Product Code:LDZ-PL40540

Product Description:

Fragrance Grapefruit & Bell Pepper Flavors Fragrance Oil is an innovative candle fragrance concentrate created for brands that embrace bold creativity and contemporary lifestyle trends. Breaking away from conventional citrus or floral candle scents, this composition explores the fascinating contrast between the sparkling juiciness of freshly sliced grapefruit and the crisp, dew-covered aroma of green bell pepper. The result is a fragrance that feels energetic, sophisticated, and refreshingly unexpected, capturing the vibrant atmosphere of a modern urban greenhouse where fruit trees and aromatic vegetables flourish side by side.

The fragrance opens with lively grapefruit zest enhanced by sparkling pomelo and subtle lime peel, delivering an invigorating burst of citrus brightness. Gradually, the composition reveals fresh bell pepper, green tomato leaf, basil, and delicate herbal nuances, adding an elegant botanical dimension rarely found in home fragrances. As the candle burns, smooth cedarwood, mineral amber, white musk, and a whisper of vetiver create a clean, airy foundation that softens the green notes while extending the fragrance's longevity.

Developed specifically for premium candle manufacturing, this fragrance oil demonstrates excellent cold throw, exceptional hot throw, and remarkable thermal stability in soy, coconut, paraffin, rapeseed, and blended wax systems. Its distinctive green-citrus profile is particularly suited to minimalist interiors, designer home décor collections, concept stores, boutique hotels, creative workspaces, and luxury wellness environments. Rather than simply scenting a room, it evokes the refreshing feeling of harvesting citrus fruits at sunrise in a contemporary Mediterranean garden, delivering an immersive sensory experience that reflects originality, vitality, and modern elegance.

Product Feature:

Purple Lilac fragrance

LDZ-PL40006

Technical Parameter:

Grapefruit & Bell Pepper Flavors Fragrance Oil - Technical Specifications	
Appearance	Clear to very light amber liquid.
Smell	A pure, rich lilac scent with noticeable flowers, a hint of sweetness and a soft powdery feel, with excellent cold and hot diffusion.

Specific Gravity @ 25°C	0.952 - 0.973
Refractive index (20°C)	1.464 - 1.513 (reference value).
Flash point	> 93°C (200°F)
Key Olfactive Components	Phenylethyl Alcohol, Cinnamyl Alcohol, Linalool, Alpha-Terpineol
Security and Compliance	Fully compliant with the latest International Fragrance Association (IFRA) standards
Recommended application ratio	Scented candles: Recommended addition ratio is 8% - 10% (for vegetable waxes such as soy wax), or 6% - 8% (for paraffin wax) for optimal cold and hot diffusion effects.

Fragrance Profile:

Fragrance Grapefruit & Bell Pepper Flavors Fragrance Oil features an innovative green-citrus fragrance profile that combines sparkling fruit freshness with crisp botanical elegance. Unlike traditional citrus candle fragrances that focus solely on sweetness, this composition introduces the vibrant aroma of freshly cut bell pepper, creating an intriguing contrast that is refreshing, sophisticated, and remarkably modern. The fragrance unfolds in layers, beginning with lively citrus brightness before revealing aromatic green facets and finishing with smooth woody warmth. Inspired by the atmosphere of a sunlit Mediterranean greenhouse where citrus trees flourish alongside fragrant herbs and fresh vegetables, it delivers a clean, uplifting scent that energizes the senses while maintaining refined balance.

Top Notes	Pink grapefruit, pomelo zest, lime peel, and juicy bergamot create an effervescent opening bursting with sparkling citrus freshness and vibrant energy.
Middle Notes	Fresh green bell pepper, basil leaves, tomato vine, and subtle rosemary introduce crisp botanical complexity, adding an elegant garden-inspired character with aromatic depth.
Base Notes	Cedarwood, Haitian vetiver, white musk, and mineral amber form a smooth, airy foundation. These refined notes soften the vibrant green accords while providing lasting warmth, creating a clean, contemporary finish that is distinctive, sophisticated, and ideal for premium scented candle collections.

FUNCTIONS & APPLICATIONS:

Fragrance Grapefruit & Bell Pepper Flavors Fragrance Oil is developed to introduce freshness with an artistic edge, transforming scented candles into vibrant lifestyle accents rather than simple home fragrance products. Its unconventional pairing of sparkling citrus and crisp green botanicals stimulates the senses, creating an atmosphere that feels energetic, creative, and naturally refreshing. As the candle burns, the fragrance evolves gradually, revealing bright fruit, leafy freshness, and elegant woody nuances that provide a dynamic scent experience instead of a flat, one-dimensional aroma. The carefully balanced formula also functions as an excellent accord enhancer, bringing clarity and brightness to herbal, woody, aquatic, and aromatic fragrance compositions. Its lively citrus facets refresh heavier base notes, while the green botanical character adds texture and sophistication to modern candle blends. Inspired by the atmosphere of an architect-designed greenhouse filled with sunlit citrus trees and flourishing herbs, this fragrance encourages focus, creativity, and relaxation simultaneously. With excellent scent retention, thermal stability, and consistent diffusion, it enables candle manufacturers to create distinctive premium products that deliver both memorable fragrance performance and a contemporary design-oriented identity.

The main applicable products include

Aromatherapy candles	Core applications, whether it is traditional pouring candles, container candles, or shaped candles, DIY candle kits, can perfectly present the romantic fragrance of cloves and create a warm and elegant home atmosphere.
Fireless aromatherapy products	such as aromatherapy wax blocks/melts (used in wax melting lamps), rattan diffusers (slowly volatilize the fragrance through rattan), indoor sprays/air fresheners (quickly improve indoor air), sachets/dried flowers (used in small spaces such as wardrobes, drawers, and cars for long-lasting fragrance), oil stoves/aromatherapy lamps.
Personal care products	Make various soaps (cold-process soaps, hot-process soaps, soap-based soaps), shower gels, shampoos, conditioners, body lotions, massage oils, bath bombs/bath salts, allowing users to immerse themselves in the fragrance of cloves in daily cleaning and care. It can even be used to mix ball perfumes or solid balms to customize exclusive fragrances.
Cleaning and washing products	It can be added to laundry detergent and softener to give clothes a fresh floral scent; it can also be used to make fabric freshening spray to add a pleasant scent to home fabrics such as curtains, sofas, and carpets; it can even be used as a fragrance ingredient in household cleaners to enhance the cleaning experience.
Other creative applications	It is suitable for various DIY handmade projects, such as handmade paper and clay fragrance enhancement. Sprinkle a few drops on gift packaging or greeting cards to add a unique sensory surprise to the gift.

Fragrance Grapefruit & Bell Pepper Flavors Fragrance Oil is specially formulated for cold and hot process scented candle production, providing exceptional performance in soy wax, coconut wax, paraffin wax, rapeseed wax, beeswax, and blended wax systems. Its outstanding cold throw creates an inviting first impression before lighting, while its powerful hot throw ensures the fragrance unfolds evenly throughout the entire burning cycle. This unique scent profile is particularly suited to luxury container candles, artisan pillar candles, wax melts, tealights, and premium seasonal collections inspired by contemporary interiors.

Beyond candle making, this versatile fragrance oil performs beautifully in reed diffusers, room sprays, aroma sachets, scented ceramic stones, wax tablets, and boutique home fragrance collections. Its refreshing green-citrus identity makes it especially suitable for modern apartments, creative studios, wellness centers, designer hotels, stylish cafés, and upscale retail spaces where a clean yet distinctive atmosphere is desired. The fragrance pairs exceptionally well with basil, eucalyptus, cedarwood, fig leaf, rosemary, or white tea accords, enabling fragrance designers to develop exclusive botanical-inspired collections that offer consumers an unexpected and memorable sensory experience with outstanding commercial appeal.

Support and Services:

We definitely have the fragrance essence oils you need!

The Plant Flavours & Fragrance company has a R&D team consisting several PH.Ds and senior engineers, and has established associated laboratory with many universities and college. Meanwhile the company integrates global technology, information and resource to keep advantage of our products and services by continuous innovation on natural ingredients. The company has always been closed to assist customers to improve the aroma of products and structure of the quality and reduce production costs, tailored to customers, to meet the aroma needs of different daily necessities, we are one of the best enterprises of cost and services in the industry.

Fragrance Oil for perfume making, We Support OEM Your Own Scent Or Other Classical flavor. Contact Us For Inquiry NOW.

Where there are fragrance, there are plant flavor.

The reason why our enterprise develops so rapidly is that we gradually meet the demands of our customer by improving the quality of their products and shortening their good deliver time. In case of urgent demands of customers, we adopt our contingency measures to help our customers solve the problem in time.

Meantime, we offer Training and Education on fragrance formulation and usage for the customized who interested in our fragrance.

Our Fragrance Oil product comes with comprehensive technical support and services to ensure that our customers have a seamless experience.

We offer:

- 1.Product usage instructions and guidance;
2. Expert advice on fragrance selection;
3. Technical support for any issues or concerns;
4. Product customization services;

5.Assistance with regulatory compliance.

Packing and Shipping:

Product Packaging:

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping:

After the payment, we'll arrange the production of your order ASAP. Normally, It will take 3-5days for trial order with small quantity, around 5-10 days for bulk order. Before shipping out, we'll take photos of the goods for confirmations with clients, or supply bulk sample for confirmation as well.

We offer shipping goods by ship, by air ,by truck , and by express, according to the clients requirements.
