Product Description

Flavour & Fragrance Manufacturer Havana Harvest Fragrance Oil For Body Perfume Making / Production With Free Sample

Product Code: LDZ-PL10696

Havana Harvest Fragrance Oil is a premium, high-concentration formulation expertly crafted for body perfume production and fine fragrance creation. Designed with exceptional longevity, this oil delivers a rich, immersive scent profile that lingers gracefully on the skin. The blend features a luxurious olfactory profile combining warm, exotic tobacco leaf notes with rich spices, sweet vanilla, and subtle woody undertones, capturing the sophisticated, spirited essence of classic Havana. Formulated for maximum potency, it allows perfumers to use minimal amounts while achieving intense, long-lasting scent projection. It boasts superb fixative qualities and a skin-safe base compatible with standard cosmetic carriers when properly diluted.

Furthermore, this versatile oil is highly adaptable for alcohol-based eau de parfums, oil roll-ons, and solid perfumes, maintaining consistent batch stability to prevent degradation. It offers advanced production advantages, including exceptional maceration synergy that seamlessly integrates with carrier mediums during aging, and a dynamic scent evolution that transitions fluidly from a vibrant, spicy opening to a deep, resinous dry-down for a true multi-layered luxury experience.

PLAN LDZ-PL10400 Jamine Essential Oil Fragrance

Production Date: April 25, 2026	Application: Daily Fragrance
Production Batch No.: 290425529	Usage: Add in appropriate amounts as needed in production

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The scent opens with an invigorating, bright burst of zesty citrus and fresh aromatic spices, delivering a sharp, high-diffusion introduction that prevents initial heaviness.
Middle Notes (Heart)	Transitioning smoothly, the heart introduces a complex blend of osmanthus, sweet dried tea leaves, dry hay, and a distinct, honeyed nuance that bridges the gap toward the rich interior.

Base Notes (Foundation)	The profile concludes with a deep, resinous foundation anchored by natural tobacco leaf absolute. It is elevated by sweet maple, warm caramel, creamy woods, dark amber, and dry leather, offering a velvety, highly sophisticated closure with exceptional skin adhesion.
----------------------------	--

Technical Specifications:

Parameter	Specification
Fragrance Notes	Havana Harvest Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.950–0.985 g/cm³ @ 25°C
Refractive Index	1.455–1.485
Flash Point	>93°C(200°F)
Dosage	Fine Perfumery & Eau de Parfum: 15% – 30% Body Oils & Roll-ons: 5% – 20% Lotions & Creams: 1% – 3%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Havana Harvest Fragrance Oil is meticulously formulated for a diverse array of professional personal care and high-end cosmetic manufacturing sectors. Primarily utilized in fine fragrance production, it serves as an exceptional core component for crafting luxury eau de parfums, concentrated body sprays, and sophisticated alcohol-based traditional perfumes. Beyond spray formulations, its high concentration and oil-soluble nature make it perfectly suited for manufacturing roll-on perfumes, travel-friendly solid perfumes, and bespoke artisanal scent blends. Cosmetic laboratories and contract manufacturers also leverage this versatile oil to infuse rich, exotic warmth into premium body care lines, including luxurious body lotions, rich massage oils, nourishing skin creams, and velvety bath oils. Furthermore, it is increasingly adopted by niche indie perfumers and bespoke scent-design bars seeking to create signature evening wear or unisex aromatic lines that demand a bold, memorable character. Its robust composition ensures it performs exceptionally well across various commercial bases without altering product integrity, texture, or visual clarity.

The primary function of Havana Harvest Fragrance Oil is to deliver a long-lasting, multi-dimensional olfactory experience while acting as a powerful fixative agent within cosmetic formulations. Due to its heavy, resinous base notes featuring natural tobacco absolute and warm woods, it functions to anchor volatile top and middle notes, significantly slowing down the overall evaporation rate of the finished perfume on the skin. This structural fixing capability ensures superior longevity, allowing the wearer to experience a sustained scent projection throughout the day or evening. Functionally, it imparts a rich, exotic, and sophisticated sensory identity characterized by warm spice, sweet vanilla, and smoky tobacco nuances. In production formulations, it functions as an active mood-enhancing element, designed to evoke feelings of warmth, mystery, and understated elegance. Additionally, it serves as a dynamic blending agent that bridges sharp herbal or zesty top accords with deep, velvety base elements, creating a smooth, harmonious transition throughout the fragrance's life cycle while maintaining high chemical stability across various product bases.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

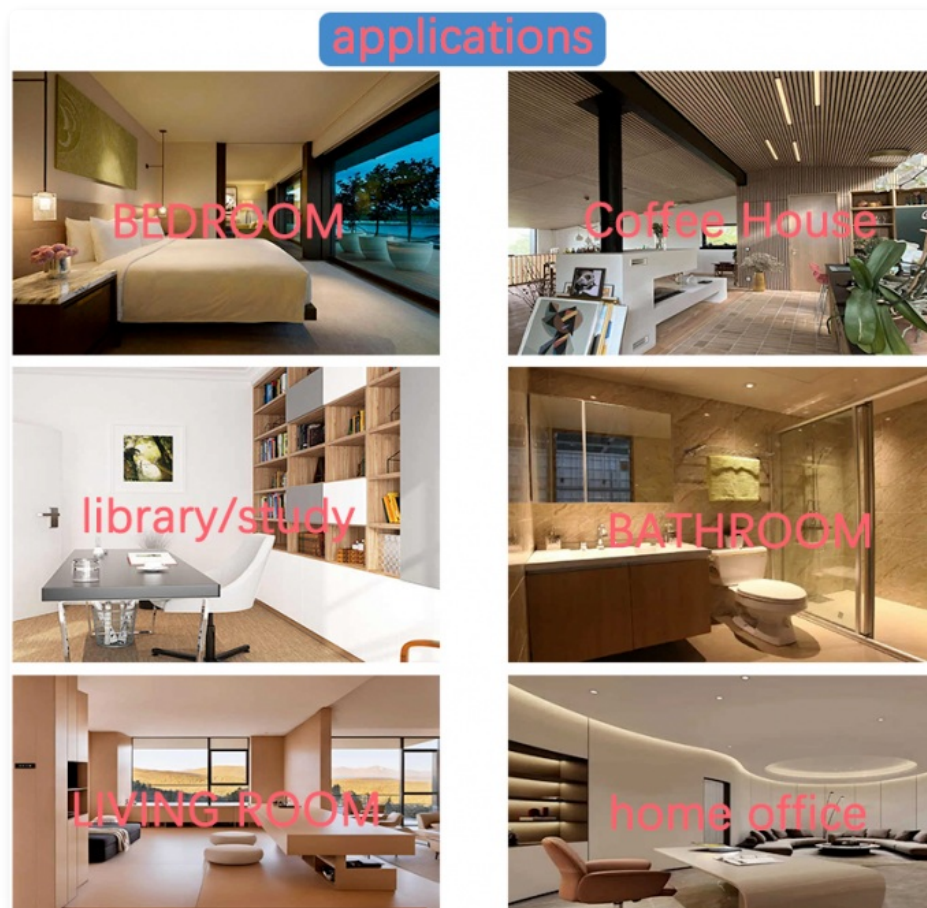

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
