Product Description

Fragrance Diffuser With Free Sample Westin White Tea Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL31537

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Westin White Tea Fragrance Oil is a sophisticated fragrance concentrate inspired by the serene ambiance and refined elegance associated with luxury hospitality environments. Specially developed for reed diffusers, cold-process scented candles, aroma diffusers, and premium home fragrance manufacturing, this composition captures the clean, airy freshness of white tea while enriching it with delicate citrus, soft florals, and comforting woody nuances. The result is a modern fragrance that transforms interior spaces into peaceful retreats where guests instantly feel relaxed, refreshed, and welcomed.

Unlike traditional tea fragrances that emphasize herbal sharpness, this interpretation focuses on transparency and balance. The crisp white tea accord is complemented by gentle green notes and subtle musk, creating an atmosphere that feels effortlessly clean and naturally luxurious. Its understated character makes it suitable for a wide variety of interior styles, from contemporary hotels and wellness resorts to elegant private residences and executive business spaces.

This fragrance oil is ideal for reed diffusers, cold-process scented candles, room sprays, linen mists, aroma stones, ceramic diffusers, fragrance sachets, and commercial HVAC scent diffusion systems. It is also an excellent choice for luxury hotels, boutique resorts, wellness spas, premium offices, reception areas, designer retail stores, upscale residential developments, and lifestyle showrooms. Blending beautifully with bergamot, white tea leaves, jasmine petals, bamboo, cedarwood, soft amber, and white musk accords, it provides fragrance designers with exceptional flexibility to develop signature scent collections, bespoke hospitality fragrances, and OEM/ODM home fragrance products that express timeless elegance, contemporary freshness, and an unforgettable sensory identity.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25,2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance begins with refreshing Italian bergamot, white grapefruit, green tea leaves, and crisp lemon blossom. These vibrant top notes provide an uplifting opening, delivering a clean citrus sparkle intertwined with the freshness of tender tea foliage.
Middle Notes	The heart unfolds into a graceful bouquet of white tea infusion, jasmine petals, lily of the valley, fresh bamboo, and soft violet leaf. These notes create a light botanical character with subtle floral elegance, adding depth while preserving the fragrance's transparent and calming personality.

Base Notes	The base reveals a sophisticated blend of white cedarwood, cashmere musk, light amber, sandalwood, and oakmoss. These smooth woody and musky accords provide a silky, comforting finish that lingers gently without feeling heavy. The overall fragrance is crisp, elegant, and contemporary, making it perfectly suited for reed diffusers, cold-process scented candles, luxury room sprays, hotel lobbies, spa retreats, executive suites, and premium ambient scent collections seeking a clean, welcoming, and internationally inspired fragrance identity.

Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Westin White Tea Fragrance Oil is formulated to create an atmosphere of effortless elegance by combining the purity of white tea with fresh botanical and soft woody nuances. Rather than serving simply as an air fragrance, it functions as an environmental signature scent that enhances emotional comfort and elevates the perception of interior spaces. Its clean, tranquil character helps establish a welcoming environment where guests, visitors, or residents feel relaxed, refreshed, and at ease.

From a fragrance development perspective, this oil performs as a versatile balancing accord, seamlessly connecting citrus, green, floral,

and musky fragrance families. It softens intense aromatic ingredients while adding brightness and transparency to richer compositions, enabling perfumers to create sophisticated ambient fragrances with natural depth. The fragrance also supports sensory branding, allowing hotels, wellness centers, and lifestyle spaces to maintain a recognizable scent identity that strengthens customer memory and brand loyalty. Its timeless white tea character adapts well to year-round use, making it an excellent foundation for contemporary fragrance concepts focused on purity, wellness, and refined hospitality experiences.

Primary Applications:

Westin White Tea Fragrance Oil is widely used in luxury home fragrance and hospitality scenting projects where freshness and sophistication are essential elements of the customer experience. It is suitable for reed diffusers, cold-process scented candles, room sprays, ultrasonic diffusers, linen mists, scented wax tablets, ceramic aroma diffusers, fragrance sachets, and passive scenting accessories, providing a clean and inviting fragrance for both residential and commercial settings.

Its application extends to luxury hotels, boutique resorts, wellness spas, yoga studios, premium offices, executive lounges, designer showrooms, upscale retail boutiques, serviced apartments, and high-end residential properties. The fragrance is particularly effective in hotel scent branding, creating a consistent aromatic identity across lobbies, guest rooms, corridors, and relaxation areas. It is also an ideal choice for OEM/ODM fragrance development, wellness-inspired product collections, eco-luxury home fragrance lines, and customized signature scent programs. Blending beautifully with citrus, green tea, bamboo, jasmine, cedarwood, and white musk accords, it enables fragrance designers to develop elegant, globally appealing ambient fragrance collections that enhance both brand image and customer experience.
