Product Description

Cactus Scent Fragrance Oil For Shampoo & Scented Soap Making /Productions with High-Surfactant Stability

Product Code: LDZ-PL20755

The L'Occitane Cherry Blossom-inspired fragrance oil is a sophisticated, highly feminine formulation tailored for personal care production, including shampoos, liquid cleansers, and handmade soaps. Capturing the essence of a blossoming spring in Provence, this fragrance profile opens with sparkling, bright top notes of crisp bergamot and sweet, juicy red fruits like black currant and tart cherry. The heart features an airy, romantic bouquet of delicate cherry blossoms, white magnolia, and powdery mimosa. This is seamlessly grounded by a warm, soft base of clean white musk, creamy tonka bean, and subtle sandalwood, providing a lingering, luxurious freshness on skin and hair. Formulated for optimal performance in wash-off products, this oil blends smoothly into surfactant bases without easily breaking down or altering product clarity. It delivers a rich, upscale sensory experience that transforms everyday bathing into an elegant, spa-like ritual.

PLAN

Fragrance Profile & Characteristics:

Top Not es	Top NotesCherry, Blackcurrant, and Freesia: The scent opens with an immediate burst of juicy, sweet red cherry and tart blackcurrant, intertwined with clean, bright hints of fresh freesia to create a lively, sparkling introduction.
Mid dle Not es	Middle NotesCherry Blossom and Lily of the Valley: The heart unfolds into a romantic, poetic floral bouquet. Luminous cherry blossom takes center stage, complemented by the gentle, dewy green freshness of lily of the valley.
Bas e Not es	Base NotesMusk, Amber, and Rosewood: The fragrance settles into a soft, comforting dry-down. Clean, enveloping white musk and warm amber combine with subtle touches of rosewood, leaving a lingering, sophisticated warmth on the skin and hair.

Technical Specifications:

Product Name	L'Occitane Cherry Blossom Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.935 to 0.965 g/cm³ @ 25°C
Flash Point	Approx.80°C (160°F)
Refractive Index (RI)	1.440 to 1.465 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	0.5–1.5%;
Shower Gel:	0.3–1.2%;
Liquid Soap:	0.5–2%;
Bar Soap (CP/MP):	2–3%;
Facial Cleanser:	0.1–0.5%

Functions and Applications:

This L'Occitane cherry blossom-inspired fragrance oil is specifically engineered for wide-ranging utility across personal care and cosmetic production lines. Its primary application is in hair care products, including luxury shampoos, nourishing hair conditioners, and cleansing rinses, where it binds well to surfactant systems and leaves a lingering aroma on hair strands. Additionally, it is heavily utilized in body care manufacturing for liquid body washes, shower gels, foaming hand soaps, and traditional bar soaps created through both melt-and-pour and cold-process techniques. Beyond wash-off formulas, formulators frequently select this oil for leave-on items such as hydrating body lotions, hand creams, bath bombs, and light body mists. It is also compatible with artisan home-fragrance goods like reed diffusers, room sprays, and scented candles, offering brands a signature, upscale spring-floral identity that appeals directly to consumers seeking a premium botanical aesthetic.

Applications:

The core function of this fragrance oil is to impart a luxurious, multi-layered sensory identity that elevates ordinary cleansing bases into high-end cosmetic experiences. Olfactory masking is another crucial function; it effectively neutralizes the clinical or unappealing natural odor of raw surfactant bases, oils, and un-scented soap stocks without requiring excessive usage rates. In formulation science, it acts as a stable aromatic active that resists rapid degradation, discoloration, or phase separation when exposed to standard cosmetic preservatives and varying pH levels found in shampoos and liquid soaps. Furthermore, it serves a strong psychological and marketing function by evoking the fresh, calming ambiance of Provence spring blossoms. This therapeutic aroma promotes relaxation during use and leaves a substantive, lingering trail of clean freshness on the skin and hair long after rinsing.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm
