

Diffuser Fragrance Free Sample Oud & Agarwood Scent Fragrance Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA, MSDS, IFRA, CE, ISO
- Model Number: LDZ-PL31566
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum, 4 Drum/carton, 20kgs/carton (41*28*33.5cm); Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm) (0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Diffuser Fragrance Free Sample Oud & Agarwood Scent Fragrance Oil
For Reed Stick & Cold Scented Candle & Diffuser Fragrance
Making/Production

Product Code: LDZ-PL31566

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

The Oud & Agarwood diffuser fragrance oil is a rich, opulent formulation masterfully designed for reed sticks, cold-air scenting systems, and scented candle production. Capturing the deep, mystical allure of traditional Middle Eastern perfumery, this complex aroma profile opens with smoky, resinous top notes of rare agarwood, accented by subtle hints of warm spice and saffron. The heart reveals a velvety, woody blend of deep cedar, earthy patchouli, and rich leather, adding profound depth and sophistication. Finally, the scent grounds itself in a warm, sensual base of sweet amber, balsamic resins, and creamy vanilla, which softens the intensity and ensures a smooth, long-lasting evaporation curve.

Engineered specifically for high-performance home diffusion, this oil boasts exceptional throw and stability, allowing it to travel effortlessly through porous reed sticks or cold-diffusion nebulizers without clogging or separating. It provides an immediate ambiance of luxury, tranquility, and warmth, transforming any indoor environment into an upscale, sophisticated sanctuary. This versatile oil is an ideal choice for artisan candle makers and home fragrance brands seeking a bold, captivating, and timeless signature scent.

PLAN

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	Bergamot, Saffron, and Cardamom Profile: These notes provide an immediate, bright, and slightly spicy introduction. The light citrus of bergamot combines with aromatic cardamom and exotic saffron to soften the heavy wood introduction, giving it a clean, inviting opening.
Middle Notes	Agarwood (Oud), Warm Woods, and Subtle Rose/Myrrh Profile: Once the initial opening settles, the true heart of the fragrance takes over. It features a deep, resinous, and earthy woody character. Hints of smoky woods blended with a whisper of soft florals or myrrh create a complex, opulent, and immersive middle stage.
Base Notes	Amber, Musk, Sandalwood, and Patchouli (or a touch of Vanilla) Profile: The foundation of the oil is heavy and grounding. Rich amber, creamy sandalwood, and dark patchouli anchor the fragrance, ensuring that whether it is used in a cold-scented candle or a reed diffuser, the scent throws a warm, long-lasting, and luxurious aroma into the room.

Technical Specifications:

Parameter	Specification
Product Name	Oud & Agarwood Scent Fragrance Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.937–0.980g/cm³ @ 25°C
Refractive Index	1.462–1.492@ 20°C
Flash Point	>90°C (175°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Reed Diffusers: 15–30%; Cold-Process Scented Candles: 1-15%; Room Sprays: 2–8%; Ultrasonic Diffusers: 3–8%; HVAC Scent Systems: 5–15%; Fragrance Sachets & Aroma Ceramics: 8–15%
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of the Oud & Agarwood fragrance oil is to impart a luxurious, complex, and long-lasting aroma across various scent-delivery mediums. Formulated specifically for manufacturing, this concentrated oil is engineered with a balanced molecular weight to diffuse smoothly through porous reed sticks without clogging, while also binding effectively with wax matrices in candle production. Chemically, it acts as a powerful fixative; its deep, resinous base notes anchor lighter volatile compounds, ensuring the scent profile remains stable and true over extended periods. In cold-air diffusion systems, the oil disperses into micro-droplets that stay suspended in

the atmosphere longer, neutralizing ambient odors rather than simply masking them. By engaging the olfactory system, it functions psychologically to evoke feelings of warmth, grounding, and sophistication, transforming the sensory perception of any indoor space. Its versatile solubility allows it to integrate seamlessly into diverse bases, providing consistent fragrance throw, thermal stability during heating processes, and reliable performance across different environmental humidity levels.

Primary Applications:

This versatile fragrance oil is widely utilized in home fragrance manufacturing, artisanal crafts, and commercial product development. In candle making, it is ideal for soy, paraffin, and coconut waxes, providing a rich hot and cold throw that elevates high-end luxury collections. For reed diffusers, the oil blends effortlessly with specialized base solvents, allowing the reeds to draw up the liquid consistently and release a steady, flame-free aroma into living rooms, offices, and hallways. It is also heavily favored in cold-air scenting machines and HVAC diffusion systems used in upscale hotels, boutiques, and spas, where a sophisticated, welcoming atmosphere is essential. Additionally, DIY crafters and small-scale producers use it to formulate room sprays, linen mists, and wax melts. Its opulent and exotic character makes it particularly popular during autumn and winter seasons, or in hospitality settings seeking to create an inviting, memorable, and premium sensory identity for guests.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
