Product Description

Body Oil Fragrances High Concentration Endless Love (Victoria's Secret) Scent Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10216

Endless Love Fragrance Oil is a high-concentration perfume essence inspired by the romantic, playful, and feminine character associated with the Endless Love fragrance style. It is developed for professional body perfume, Eau de Parfum (EDP), Eau de Toilette (EDT), perfume oil, body mist, and personal fragrance production. The composition combines juicy fruit nuances, delicate florals, and a soft musky foundation to create an inviting scent with a youthful yet polished personality.

Rather than presenting an intensely dramatic perfume character, this fragrance focuses on romantic freshness and approachable femininity. Its opening can bring a lively fruity impression, while the floral heart introduces softness and emotional warmth. As the fragrance settles, creamy woods and musk provide a smooth finish that feels comfortable and wearable. This gradual development makes it suitable for consumers who prefer expressive fragrances that remain versatile for everyday occasions.

Fragrance Profile:

The concentrated essence can be used in fine perfumes, roll-on fragrances, body sprays, hair perfumes, scented body oils, solid perfumes, and fragranced cosmetic products. It is also suitable for private-label collections, boutique perfume brands, gift sets, seasonal launches, and OEM/ODM fragrance development. Perfumers can customize the profile by combining it with apple, peach, citrus, jasmine, rose, violet, sandalwood, vanilla, amber, or white musk accords. With its romantic identity and flexible formulation potential, Endless Love Fragrance Oil provides a practical foundation for developing feminine fragrance collections with a youthful, affectionate, and commercially appealing character.

Fragrance Notes	Description
Top Notes (Opening)	The opening combines apple, peach, citrus, and fresh berry accords. These bright notes create a lively and inviting first impression, balancing juicy sweetness with a subtle sparkling freshness. The fruity opening gives the fragrance an energetic and approachable personality.
Middle Notes (Heart)	The heart unfolds with jasmine, rose, violet, lily of the valley, and delicate floral accords. Jasmine adds a soft sensual quality, while rose and violet contribute romantic elegance. Lily of the valley introduces a clean, airy dimension that prevents the floral center from becoming overly heavy or sweet.
Base Notes (Foundation)	The dry-down features sandalwood, vanilla, amber, musk, and soft powdery accords. These elements provide warmth, creaminess, and a comfortable lingering character, creating a smooth transition from the bright opening to the sensual finish.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Endless Love (Victoria's Secret) Scent Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.950–0.980 g/cm³ @ 25°C
Refractive Index	1.465–1.495
Flash Point	>90°C (195°F)
Dosage	EDP:15–30% EDT:8–18% Body Mist:3–8% Perfume Oil:20–40% Body Care:0.3–1.0%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Endless Love Fragrance Oil functions as a versatile perfume concentrate for creating a romantic, youthful, and feminine fragrance identity. Its main role is to add a recognizable combination of fruity brightness, delicate floral softness, and warm musky depth to finished fragrance formulations. The layered structure helps create a smooth scent progression, allowing the fragrance to move naturally from a lively opening toward a comfortable and subtly sensual dry-down.

As a formulation ingredient, it can serve as a core fragrance accord or blending foundation, helping perfumers connect fruit, floral, woody, and sweet elements into a cohesive composition. Its character can also soften sharper citrus notes or add greater warmth to floral compositions. This flexibility allows fragrance developers to create variations ranging from playful and fresh to romantic and sophisticated. For fragrance brands, Endless Love Fragrance Oil can also support product differentiation and collection development, providing a recognizable scent concept that can be adapted across several product formats. Its approachable personality makes it suitable for products targeting consumers who enjoy expressive yet wearable feminine fragrances. It can therefore contribute not only to the aroma itself but also to the emotional positioning and sensory identity of a perfume range.

Endless Love Fragrance Oil is primarily used in fine fragrance and personal-care manufacturing, where its fruity-floral character provides an attractive foundation for feminine scent products. It can be incorporated into Eau de Parfum, Eau de Toilette, perfume oils, roll-on perfumes, body mists, hair perfumes, scented body oils, solid perfumes, and fragranced lotions, subject to appropriate formulation and safety requirements.

It is also suitable for private-label perfume collections, boutique fragrance brands, seasonal product launches, promotional gift sets, travel-size fragrance ranges, and OEM/ODM customized perfume projects. Manufacturers can use the essence as a central accord or modify it with complementary materials to create differentiated variations for different market segments.

For greater creative flexibility, it can be paired with apple, peach, berries, mandarin, jasmine, rose, violet, sandalwood, vanilla, amber, and white musk accords. This allows perfumers to develop coordinated fragrance families while maintaining a recognizable underlying identity. Beyond traditional perfumes, the fragrance can support body-care and lifestyle collections, including matching body oils, mists, lotions, and hair fragrances. Its versatile profile makes it particularly suitable for brands seeking a cohesive feminine fragrance concept across multiple consumer products.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
