Product Description

Concentrated Perfume Twilly d'Hermès Eau Ginger Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL10309

Tobacco Rose Fragrance Oil
LDZ-PL10690

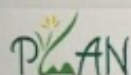

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD.

Address: No. 1, Xiyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Tel: 86-13026100323

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with bergamot, lemon, grapefruit, green apple, and refreshing aquatic accords. These notes create an immediate burst of brightness, combining sparkling citrus with juicy fruit and a cool, clean sensation. The green apple adds a youthful touch, while the citrus accords give the opening an energetic character.
Middle Notes (Heart)	The heart develops through lavender, geranium, jasmine, violet leaf, and aromatic herbal nuances. Lavender contributes a clean and sophisticated quality, while geranium provides subtle floral richness. Violet leaf introduces a crisp green dimension, and jasmine adds a soft floral accent that rounds out the composition without making it overly sweet.
Base Notes (Foundation)	The dry-down features cedarwood, sandalwood, patchouli, amber, vanilla, and white musk. Cedarwood and sandalwood create a polished woody texture, while patchouli adds depth and earthy warmth. Amber, vanilla, and musk provide a smooth, comfortable finish with a subtly sensual character.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Twilly d'Hermès Eau Ginger Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.930–1.050 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93.3°C (200°F)
Dosage	Home Fragrance: 6%–10% Personal Care: 1%–5%; Eau de Parfum (EDP): 12–25%; Body Mist: 4–9%; Shower Gel & Shampoo: 0.2–1.0%; Fine Perfume: 15–25%;

Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Happy For Men Fragrance Oil functions as a versatile concentrated fragrance ingredient for creating fresh, energetic, and sophisticated masculine scent concepts. Its primary role is to establish a recognizable aromatic identity by combining sparkling citrus, green nuances, aromatic herbs, smooth woods, and subtle musk. This balanced structure gives finished products a lively opening, an elegant heart, and a comfortable dry-down.

As a formulation component, it can serve as a main fragrance accord or blending foundation, helping perfumers connect different olfactory families into a cohesive composition. Its bright citrus character can add freshness to deeper formulations, while the aromatic and woody elements provide structure and personality. The warm base also helps create a more rounded sensory impression.

The essence is particularly useful for brand differentiation, allowing manufacturers to create masculine fragrance collections with distinct positioning. It can be adjusted toward sporty, casual, sophisticated, or evening-oriented directions by combining it with complementary accords. This flexibility makes Happy For Men Fragrance Oil a practical choice for developing contemporary fragrances that communicate confidence, vitality, and understated elegance.

Happy For Men Fragrance Oil is primarily used in fine fragrance and men's personal-care products, offering manufacturers a flexible ingredient for different product formats. It is suitable for Eau de Parfum, Eau de Toilette, perfume oils, roll-on perfumes, body sprays, body mists, hair fragrances, solid perfumes, and scented body oils, according to the requirements of the finished formulation.

Its fresh masculine profile also makes it appropriate for aftershave products, shower gels, body lotions, beard-care products, grooming creams, and coordinated men's fragrance collections. The essence works particularly well for products positioned around active lifestyles, modern confidence, and everyday sophistication.

For commercial development, it can be incorporated into private-label perfume ranges, boutique fragrance collections, seasonal launches, gift sets, travel-size products, and OEM/ODM customized projects. Perfumers can modify its character with bergamot, grapefruit, lavender, violet leaf, cedarwood, sandalwood, patchouli, amber, leather, vanilla, or white musk. This allows manufacturers to create complementary product families while maintaining a recognizable fragrance signature. Its adaptable structure makes it suitable for both mainstream and premium men's fragrance markets.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

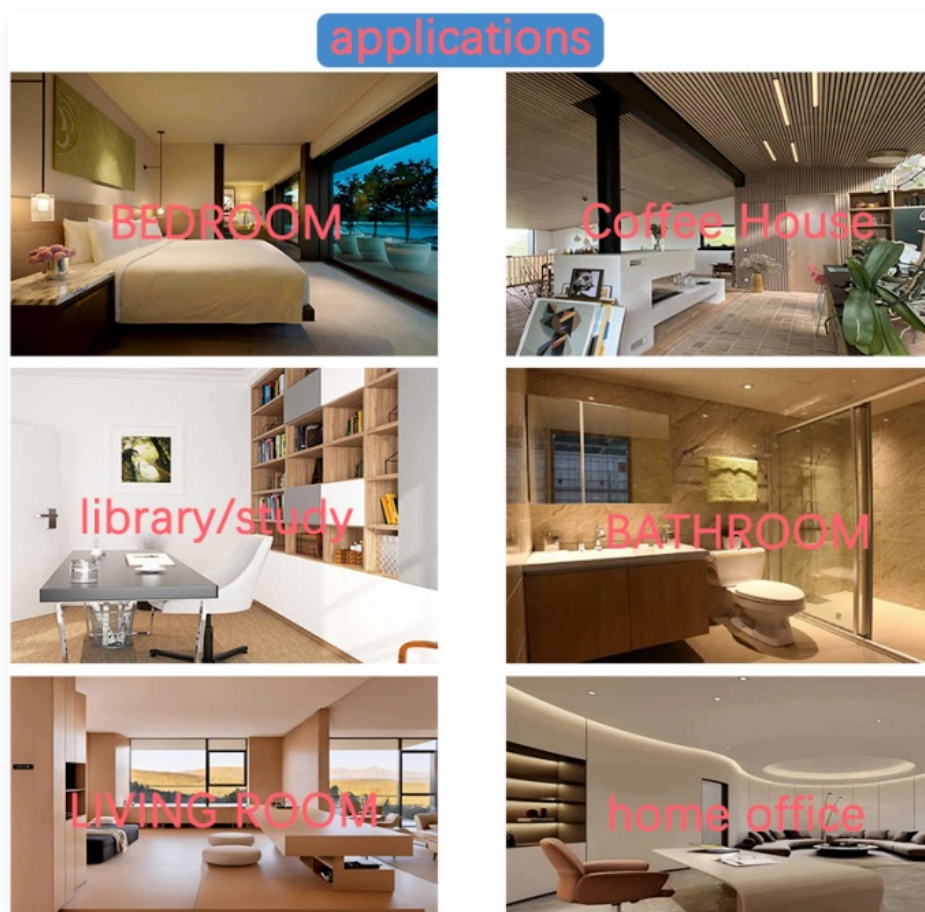

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC
