- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

Product Description

Factory Flavour & Fragrance Black Amber & Ginger Lily Fragrance Oil For Body Perfume Making / Production With Free Sample

Product Code: LDZ-PL10267

Black Amber & Ginger Lily Fragrance Oil is a sophisticated concentrated perfume essence designed for body perfume making and professional fragrance production. Its character blends warm amber richness with luminous florals and an intriguing spicy freshness, creating a scent that feels elegant, sensual, and distinctly contemporary. Rather than relying on straightforward sweetness, the composition is built around contrasting textures, allowing radiant floral nuances to emerge from a deeper, warmer background.

This fragrance oil is suitable for body perfumes, Eau de Parfum, Eau de Toilette, perfume oils, roll-on fragrances, body mists, and scented body oils, depending on the finished formulation. It is also suitable for private-label perfume collections, boutique fragrance brands, gift sets, seasonal launches, and OEM/ODM customized projects.

5kgs/plastic bottle

LDZ-PL31573

Sealsalt

Production Date: April 16,2026

Production Batch No.: 260416568

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile:

The fragrance opens with bergamot, ginger, pink pepper, and fresh citrus nuances. Bergamot provides sparkling brightness, while ginger introduces a gently spicy and invigorating accent. Pink pepper adds a delicate aromatic lift, creating an energetic opening without excessive sharpness.

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with an invigorating combination of Italian bergamot, juicy blackcurrant, crisp pear, and pink pepper. These vibrant top notes introduce a fresh yet slightly spicy brightness, creating an energetic and polished first impression.

Middle Notes (Heart)	The heart features ginger lily, jasmine, orange blossom, and soft white floral accords. Ginger lily provides the signature character, combining floral delicacy with an intriguing spicy-green facet. Jasmine contributes sensual richness, while orange blossom adds a clean, radiant sweetness that keeps the floral center refined and airy.
Base Notes (Foundation)	The dry-down reveals black amber, sandalwood, cedarwood, patchouli, vanilla, and white musk. Black amber creates a deep, warm impression, while sandalwood and cedarwood provide creamy and polished woody dimensions. Patchouli adds subtle earthiness, and vanilla with white musk produces a smooth, comforting finish.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Black Amber & Ginger Lily Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.948–1.053 g/cm³ @ 25°C
Refractive Index	1.470–1.501
Flash Point	>93°C(200°F)
Dosage	Fine Perfume (EDP): 15–30%; EDT: 8–15%; Body Lotion & Cream: 0.3–1.0% Body Mist: 3–8%; Perfume Oil: 20–40%; Hair Perfume: 1–5%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)

Evaporation
Rate

Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Black Amber & Ginger Lily Fragrance Oil functions as a versatile concentrated fragrance ingredient for developing sophisticated, warm, and expressive perfume compositions. Its primary role is to provide a distinctive amber-floral-spicy identity, combining luminous ginger lily, aromatic ginger, elegant white florals, and a rich woody-amber foundation. This layered structure helps create a fragrance that feels both radiant and mysterious, with a smooth transition from the opening to the dry-down.

As a formulation component, it can work as a main fragrance accord, heart-to-base connector, or supporting fragrance ingredient. Its spicy opening can add energy and individuality, while the floral heart contributes elegance and femininity. The amber, woods, and musk in the base provide depth and a lasting sensory impression.

The fragrance can also function as a signature scent foundation for brands developing premium or niche-inspired collections. Perfumers

can adjust its personality by combining it with citrus, aromatic, floral, woody, oriental, or musky materials. This allows manufacturers to create variations ranging from luminous and sophisticated to deep, warm, and sensual. Overall, the essence helps enhance the olfactory complexity, emotional appeal, warmth, and distinctive character of finished fragrance products, making it a valuable ingredient for modern perfume development.

Black Amber & Ginger Lily Fragrance Oil is primarily applied in fine fragrance and personal-care manufacturing, particularly for products requiring a sophisticated amber-floral character. It can be incorporated into Eau de Parfum, Eau de Toilette, body perfumes, perfume oils, roll-on fragrances, body mists, hair perfumes, solid perfumes, and scented body oils, depending on the finished formulation and applicable safety requirements.

Its distinctive profile also makes it suitable for premium and niche-style fragrance collections, private-label perfume brands, boutique fragrance projects, seasonal launches, gift sets, and OEM/ODM customized development. Manufacturers can use the essence as a central accord or modify it to create different market-oriented fragrance variations.

For customized formulations, it can be blended with bergamot, grapefruit, ginger, jasmine, orange blossom, rose, sandalwood, cedarwood, patchouli, vanilla, amber, incense, or white musk. These combinations can produce fragrances ranging from bright spicy-floral styles to richer oriental and sensual compositions.

Beyond traditional perfumes, it can support coordinated body-care fragrance collections, including scented lotions, shower products, body creams, and hair-care fragrances, provided the formulation meets the relevant usage requirements. Its warm yet versatile personality makes it especially useful for brands seeking a recognizable scent concept that combines floral elegance, spicy intrigue, and luxurious amber depth across multiple product formats.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
