Product Description

Orange & Kiwi Flavoring Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions with High-Surfactant Stability Free Sample

Product Code: LDZ-PL20308

Orange & Kiwi Flavoring Scent Fragrance Oil is a vibrant fruity fragrance essence developed for shower gel, shampoo, scented soap, and personal-care product manufacturing. It combines the familiar sparkling character of ripe orange with the fresh, slightly tangy personality of kiwi, creating a lively scent that feels clean, juicy, and energetic. The combination offers a more distinctive profile than a single citrus fragrance, bringing together sweet citrus brightness and a refreshing green-fruity nuance.

The fragrance opens with a burst of zesty orange and juicy citrus, creating an immediate impression of freshness. As the scent develops, kiwi introduces a slightly tart, watery, and green character that gives the composition additional dimension. A soft fruity sweetness helps round the profile, making it suitable for products designed around a cheerful and refreshing bathing experience. This fragrance oil can be used in shower gels, liquid soaps, bar soaps, shampoos, conditioners, hand washes, body washes, bath products, and other fragranced personal-care formulations, subject to the appropriate application level and formulation requirements. It is particularly suitable for fresh, fruity, youthful, and summer-inspired product concepts.

For customized fragrance development, manufacturers can combine it with lemon, grapefruit, apple, pear, pineapple, green tea, mint, floral, or clean musk accords to create differentiated variations.

PLAN

Fragrance Profile & Characteristics:

Orange & Kiwi Fragrance Oil features a bright, juicy, and refreshing citrus-fruity profile, combining sweet orange freshness with the tangy green character of kiwi. Its lively structure is particularly suitable for personal-care products designed to create a clean, cheerful, and energizing sensory experience.

To p No tes	The opening highlights sweet orange, mandarin, lemon zest, and fresh citrus accords. Orange provides the signature juicy character, while lemon adds sparkling acidity and mandarin contributes a softer, sweeter citrus facet. Together, these notes create an immediate burst of freshness.
Mi ddl e No tes	The heart develops around kiwi, green apple, pear, and watery fruity accords. Kiwi introduces a distinctive tart-green character that contrasts with the sweetness of orange. Green apple and pear add crispness and juicy volume, while watery nuances make the middle phase feel light and refreshing.
Ba se No tes	The dry-down features soft musk, light woods, amber, and gentle fruity sweetness. These elements provide a smooth foundation without overwhelming the fresh fruit character. Clean musk helps extend the fragrance's soft trail, while light woods add subtle structure and warmth.

Technical Specifications:

Product Name	Orange & Kiwi Flavoring Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.936 to 1.040 g/cm³ @ 25°C
Flash Point	Up to 100°C (220°F)
Refractive Index (RI)	1.450 to 1.520 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Application	Usage Rate
Shampoo/Body Washes:	0.8% - 1.5%
Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

Orange & Kiwi Fragrance Oil functions as a vibrant fruity fragrance ingredient for creating fresh, energetic, and appealing sensory profiles in personal-care formulations. Its primary role is to provide a distinctive combination of sweet citrus brightness and tangy green-fruity freshness, helping finished products feel clean, youthful, and invigorating. The contrast between orange and kiwi creates more dimension than a single-note citrus composition.

As a formulation component, it can serve as a main fragrance accord, refreshing top-note element, or supporting fruity modifier. The sparkling citrus character can brighten heavier fragrance bases, while kiwi contributes a slightly tart and watery nuance that adds individuality. Its clean musky and soft woody undertones can also help round out the fragrance during the dry-down.

Another important function is sensory differentiation. Manufacturers can use this profile to give shampoos, shower gels, soaps, and other cleansing products a recognizable fruity identity. It can be adapted to different consumer concepts, including fresh, sporty, youthful, tropical, summer, or wellness-inspired collections.

For customized development, the essence can be blended with lemon, grapefruit, apple, pear, pineapple, mint, green tea, floral, or clean musk accords, allowing perfumers to create distinctive variations while preserving the core orange-kiwi character.

Applications:

Orange & Kiwi Fragrance Oil is primarily applied in personal-care and cleansing product manufacturing, where its bright citrus-fruity character can enhance the overall sensory experience. It is suitable for shower gels, shampoos, conditioners, liquid soaps, bar soaps, hand washes, body washes, bath products, cleansing creams, and other fragranced personal-care formulations, subject to the appropriate dosage and product-specific safety requirements.

Its lively profile is particularly suitable for fresh, fruity, youthful, summer-inspired, and energetic product concepts. Manufacturers can use it in coordinated product ranges, such as matching shampoo, shower gel, body wash, and soap products, helping create a consistent fragrance identity across multiple formats.

The fragrance oil can also support private-label personal-care collections, hotel amenities, promotional gift sets, seasonal launches, OEM/ODM projects, and customized fragrance development. Perfumers may combine it with mandarin, lemon, grapefruit, green apple, pear, pineapple, melon, mint, green tea, floral accords, or soft musk to create differentiated scent variations.

Its versatile character allows brands to position products toward different consumer preferences, from crisp and refreshing to juicy and playful. In particular, the combination of citrus sparkle and kiwi freshness can provide a colorful, modern sensory signature that helps everyday cleansing products feel more distinctive and enjoyable.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm
