Product Description

Free Sample Body Wash Fragrance White Peony Fragrance Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions with High-Surfactant Stability

Product Code: LDZ-PL20418

White Peony Fragrance Oil is an elegant floral fragrance essence developed for body wash, shower gel, shampoo, scented soap, and personal-care product manufacturing. Inspired by the delicate character of fresh white peony petals, it presents a soft, airy, and refined floral impression with clean, slightly powdery nuances. Unlike heavier floral fragrances, its graceful character provides a sense of freshness and understated sophistication, making it particularly suitable for everyday cleansing products.

This fragrance oil is suitable for body washes, shower gels, shampoos, conditioners, liquid soaps, bar soaps, hand washes, bath products, and other fragranced personal-care formulations, subject to application-specific dosage and safety requirements. It works especially well for feminine, elegant, clean, spa-inspired, floral, and premium-care concepts.

Fragrance Profile & Characteristics:

To p No te s	The fragrance opens with bergamot, pear, lychee, green leaves, and fresh citrus accords. Bergamot adds sparkling brightness, while pear and lychee introduce a gentle juicy sweetness. Green nuances provide a crisp, natural touch, creating a refreshing first impression reminiscent of freshly opened flower petals.
Mi dd le No te s	The heart highlights white peony, rose, jasmine, and lily of the valley. White peony provides the signature floral character with a soft, slightly powdery elegance. Rose and jasmine add floral richness, while lily of the valley contributes a clean, airy quality that keeps the bouquet bright rather than overly sweet.
Ba se No te s	The dry-down combines white musk, sandalwood, soft amber, vanilla, and light woody nuances. White musk creates a clean and silky finish, while sandalwood adds gentle creaminess. Amber and vanilla provide subtle warmth and roundness without overpowering the floral heart.

Technical Specifications:

Product Name	White Peony Fragrance Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.950 to 0.980 g/cm³ @ 25°C
Flash Point	Up to 100°C (220°F)
Refractive Index (RI)	1.465 to 1.495 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Application	Usage Rate
Shampoo/Body Washes:	0.3% -1%
Shower Gel:	0.3% - 1%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	0.5% - 1.5%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

White Peony Fragrance Oil functions as a refined floral fragrance ingredient for personal-care formulations that require a soft, clean, and elegant scent identity. Its main function is to introduce a delicate white-floral character supported by fresh fruity, green, and musky nuances. This combination creates a graceful sensory profile that feels polished without becoming excessively sweet or heavy.

As a formulation component, it can serve as a primary floral accord, heart-note enhancer, or supporting fragrance ingredient. The peony heart provides floral sophistication, while pear, lychee, and green facets add freshness and youthful energy. White musk and soft woods help create a smooth dry-down, giving the finished product a more complete and balanced fragrance experience. The essence can also contribute to product differentiation and brand identity. Its clean floral character works well for feminine, premium, spa-inspired, romantic, and minimalist product concepts. Perfumers can modify the profile by combining it with citrus, rose, jasmine, green tea, fruity, woody, or musky accords.

Another useful function is its ability to create a fresh and comforting sensory atmosphere in everyday cleansing products. Overall, White Peony Fragrance Oil helps enhance the fragrance appeal, perceived elegance, and distinctive character of personal-care formulations while providing flexibility for customized product development.

Applications:

White Peony Fragrance Oil is primarily applied in personal-care and cleansing product manufacturing, particularly for products seeking a delicate, fresh, and sophisticated floral character. It is suitable for body washes, shower gels, shampoos, conditioners, liquid soaps, scented bar soaps, hand washes, bath products, cleansing creams, and other fragranced personal-care formulations, subject to appropriate dosage and application-specific safety requirements.

Its elegant floral profile makes it especially suitable for feminine, romantic, premium, spa-inspired, wellness, and everyday-care product collections. Manufacturers can use the fragrance across coordinated product ranges, such as matching shampoo, shower gel, body wash, and soap products, creating a consistent scent identity throughout the line.

For commercial development, it can also be incorporated into private-label personal-care brands, boutique collections, hotel and spa amenities, gift sets, seasonal launches, and OEM/ODM customized projects. Perfumers can combine it with bergamot, pear, lychee, green tea, rose, jasmine, lily of the valley, sandalwood, vanilla, or white musk to develop different variations.

Its adaptable character allows brands to create products ranging from fresh and youthful to romantic and luxurious. The soft peony signature is particularly effective for manufacturers seeking a floral fragrance that feels modern, clean, approachable, and suitable for multiple personal-care formats.
