Product Description

Home &Hotel Diffuser Fragrance Oil Fresh Linen / Fresh Clean Scent Oil For Reed Stick &Cold Scented Candle& Diffuser Fragrance Making/Production With Free Sample

Product Code: LDZ-PL30233

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

This premium Fresh Linen Diffuser Fragrance Oil is a masterfully crafted, highly concentrated essence designed to capture the crisp, comforting aroma of freshly laundered cotton drying in a sunlit breeze. Specially formulated for extraordinary versatility, this professional-grade oil serves as an ideal multi-use ingredient for crafting custom scented candles, refilling reed diffuser sticks, and powering advanced cold-air or nebulizing scenting machines.

Engineered for superior performance, it boasts a clean-burning profile that maintains its aromatic stability under intense thermal heat during candle pouring, while simultaneously atomizing effortlessly into ultra-fine micro-particles for residue-free cold diffusion. Its bright, comforting profile effortlessly transforms residential living areas, boutique retail stores, and commercial hospitality spaces into welcoming, immaculate environments.

Beyond delivering a long-lasting, consistent scent throw that mimics high-end luxury linens, its potent molecular structure actively neutralizes and eliminates stubborn household odors like cooking smells and pet dander rather than merely masking them. Whether you are a DIY artisan or looking to establish a signature clean scent identity, this fragrance oil delivers pristine, reliable results.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Xeyuan Road, Baiyun District, Guangzhou, Guangdong, 510540, China

Tel: 86-19924190535

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	Crisp Citrus: Bright lemon, zesty orange, or bergamot Airy & Ozone Accords: Fresh air notes, clean morning breeze, or a slight aquatic touch Fruity Hints: Light touches of green apple
Middle Notes	Floral Accents: Lily of the valley (muguet), jasmine, violet, rose petals, or orange blossom Clean/Green Elements: Cotton blossom, blue moss, or fresh-cut green leaves
Base Notes	Musks: Clean white musk or cool aquatic musk Warmth & Wood: Subtle touches of amber, soft sandalwood, or clean cedarwood

Technical Specifications:

Parameter	Specification
Product Name	Fresh Linen / Fresh Clean Scent Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.940–0.960g/cm³ @ 25°C
Refractive Index	1.450–1.470@ 20°C
Flash Point	75°C-94°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Aroma Sachets: 3–8% Room Spray: 2–6%; Cold Process Candles: 6–10%; Hot Process Candles: 5–8%; Reed Diffuser: 15–30%; Wax Melts: 6–10%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Fresh Linen Fragrance Oil is primarily engineered for home ambiance, crafting, and commercial scenting applications. Because of its clean, universally appealing character, it is a staple ingredient for making scented candles, wax melts, and tarts using soy, paraffin, or coconut wax blends, providing a strong scent throw both when cold and when heated. Beyond wax products, it is widely utilized in flame-free home fragrance delivery systems. This includes reed sticks paired with specialized low-viscosity diffuser bases, and mechanical cold-

air or nebulizing diffusers that atomize the oil without heat. Furthermore, artisan makers frequently incorporate this oil into room and linen refreshing sprays, automatic household dispensers, drawer sachets, carpet fresheners, and custom car air fresheners. It can also be found in select cosmetic and cleansing formulations, such as melt-and-pour soap bars, bath bombs, and body washes, provided the final dilution ratios comply with strict safety standards.

Primary Applications:

The primary function of Fresh Linen Fragrance Oil is to artificially replicate and project the crisp, comforting sensory experience of sun-dried laundry and purified air into enclosed spaces. Functionally, it acts as an effective atmospheric neutralizer; its sharp, high-frequency citrus and ozonic top notes are scientifically designed to cut through stagnant indoor environments and physically mask or overwrite stubborn domestic odors like cooking smells, pet areas, or dampness. In psychological terms, the aroma functions as a subconscious cue for cleanliness, order, and relaxation, helping occupants transition mentally from a state of busy stress to domestic comfort. In manufacturing, it functions as a stable compounding agent that binds smoothly with wax esters, alcohol bases, and carrier oils. It delivers consistent aromatic performance across different mediums, ensuring that the scent profile remains balanced from the first use to the final evaporation drop.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
