Product Description

Concentrated Perfume Island Breeze Fragrance Oil For Perfume Making/Production With Free Sample

Product Code: LDZ-PL12237

Island Breeze Fragrance Oil is a premium, highly potent aromatic essence meticulously engineered for both artisanal and commercial fragrance manufacturing. Designed to capture the invigorating essence of a tropical escape, this dynamic compound delivers remarkable longevity and projection, rendering it exceptionally well-suited for fine perfumes, silky body oils, luxury lotions, and handcrafted soaps. Because it boasts a high concentration free from volatile diluents such as alcohol, formulators can achieve profound aromatic depth utilizing only minimal quantities. Its versatile formulation ensures seamless integration across diverse mediums, binding effortlessly with carrier oils for roll-on blends or alcohol bases for traditional spray eau de parfums. Additionally, its structural stability prevents separation in cosmetic emulsions, guaranteeing a refined, consistent end-user experience. Whether deployed by independent creators for small-batch releases or scaled up for industrial production, Island Breeze provides a dependable, sophisticated tropical signature profile. Thorough small-batch trials and maturation periods are recommended during development to allow the crisp aquatic notes and warm undertones to fully harmonize within your selected medium.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with an invigorating, refreshing burst of crisp citrus and juicy fruits. Prominent elements typically include sparkling lime, zesty bergamot, or fresh coconut water blended with touches of pineapple and sea salt air, delivering an immediate energizing impact.
Middle Notes (Heart)	As the initial brightness softens, the core unfolds into a lush, exotic floral bouquet. This heart frequently highlights tropical blooms like tiare flower, night-blooming jasmine, and delicate orange blossom, seamlessly anchored by watery marine accords that add depth and complexity.
Base Notes (Foundation)	The fragrance settles into a warm, grounding finish composed of creamy vanilla, sun-bleached driftwood, and sensual solar amber or soft musk. This rich foundation lingers gracefully on the skin, imparting a cozy yet sophisticated warmth.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Island Breeze Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.985–1.015 g/cm ³ @ 25°C
Refractive Index	1.450–1.485
Flash Point	>93.3°C (200°F)
Dosage	Home Fragrance: 6%–10% Personal Care: 1%–5%; Eau de Parfum (EDP): 15–30%; Body Oils/Lotions: 1–5%; Shower Gel & Shampoo: 0.2–1.0%; Fine Perfume: 15–25%; Soap/wash-off: 1.5–4%
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8–12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Island Breeze Fragrance Oil functions primarily as a robust, high-potency aromatic concentrate designed to deliver sustained olfactory performance without relying on volatile solvents like alcohol. Its core function is to act as a stable fragrance anchor that binds seamlessly with lipid-based or alcohol-based matrices. By utilizing natural and synthetic aromatic molecules, it provides a well-rounded tropical profile that transitions smoothly from top citrus notes to warm, lingering base accords. Because it lacks alcohol, the oil functions through slow evaporation, interacting directly with body heat to release its scent gradually over time rather than dissipating instantly. Furthermore, it functions as a versatile compounding agent for cosmetics, imparting consistent scent stability across various chemical environments without causing phase separation, emulsion degradation, or irritation linked to traditional drying sprays.

Island Breeze Fragrance Oil is widely utilized across the personal care, cosmetic, and artisanal manufacturing sectors. In fine perfumery, it serves as the primary active ingredient for alcohol-based eau de parfums and roll-on oil blends. In body care, it is incorporated into nourishing body oils, luxury lotions, and hydrating creams to merge scent with skincare. Additionally, it is heavily favored in bath and wash production, safely scenting liquid body washes, cold-process soaps, and melt-and-pour soap bases. Beyond personal use, its stable chemical profile allows it to be formulated into home ambiance items, including scented candles, wax melts, and reed diffusers, making it an all-encompassing solution for both commercial product lines and independent artisanal crafting.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

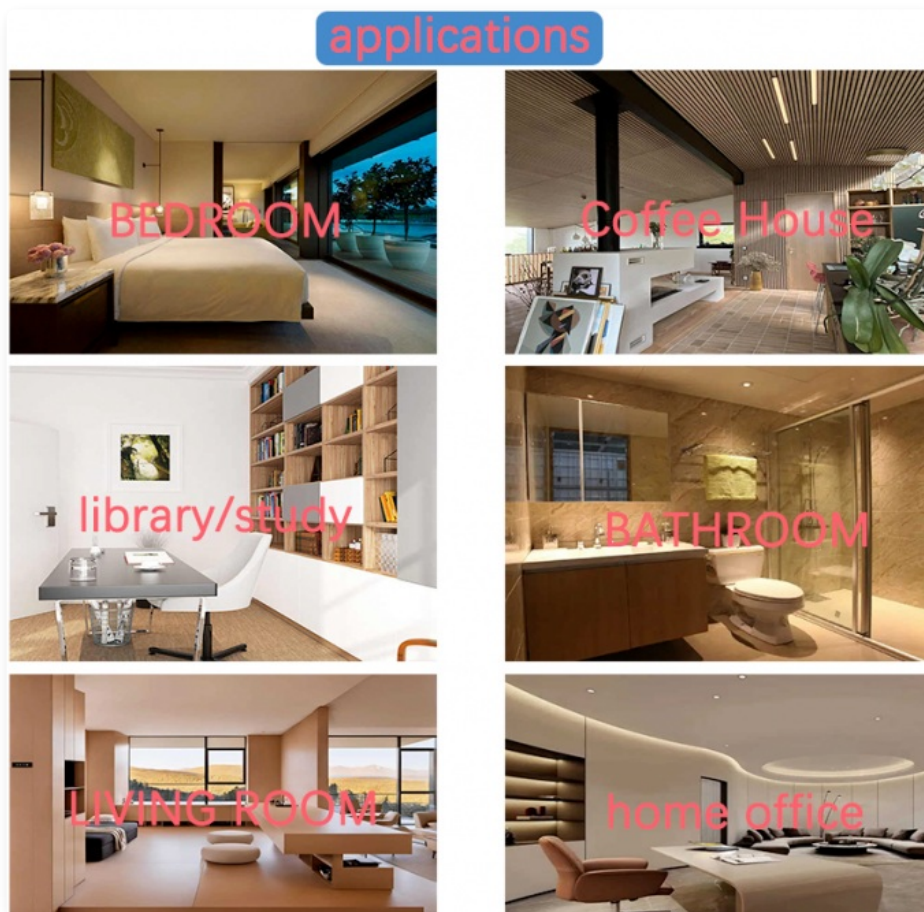

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging & Shipping

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5 kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038 cbm
Metal Barrel	25 kgs	D30*H45cm	0.032 cbm
Jerry Can	20-25 kgs	L29.5*D29.5*H41cm	0.33 cbm

Production Time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation before shipping and offer multiple shipping options including sea, air, truck, and express delivery.
