Product Description

High-Surfactant Stability Body Wash Fragrance Sea Salt Scent Fragrance Oil Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions

Product Code: LDZ-PL20409

This premium Sea Salt Fragrance Oil is expertly crafted for personal care production, delivering a crisp, ozone-rich oceanic profile ideal for shower gels, shampoos, and artisan soaps. Built with an aquatic heart of cucumber water and green lily rather than heavy musks, it prevents products from feeling overly perfumed while leaving a lingering, clean freshness post-rinse. Its advanced formulation ensures exceptional performance: it withstands high-foaming surfactant systems without thinning or separating, and features a 0.0% vanillin content to keep clear gels and white soap bases pristine and free from yellowing. Phthalate-free and compliant with strict cosmetic safety standards, this medium-volatility oil pairs seamlessly with botanical extracts like aloe or kelp, making it an ideal, reliable choice for spa-inspired, clean-beauty product lines.

Fragrance Profile & Characteristics:

The fragrance profile of this Sea Salt Fragrance Oil is a sophisticated blend engineered to evoke a crisp, invigorating coastal escape.

Top Notes	The top notes open immediately with an energetic burst of sparkling sea spray, ozone-rich marine air, and a splash of zesty coastal citrus, delivering an instantly refreshing and revitalizing first impression.
Middle Notes	As the initial brightness softens, the middle notes emerge with a clean, watery heart. This phase features delicate nuances of fresh green clover, aquatic cucumber water, and subtle green lily blossoms, which add a natural, crisp dimensionality without feeling heavy.
Base Notes	Finally, the base notes anchor the scent with a warm, grounding finish. Composed of sun-bleached driftwood, subtle earthy moss, and clean white musk, the base ensures the fragrance lingers softly on the skin and hair long after rinsing.

Technical Specifications:

Product Name	Sea Salt Scent Fragrance Oil Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.968 to 1.036 g/cm³ @ 25°C
Flash Point	Up to 88°C (190°F)
Refractive Index (RI)	1.460 to 1.495(at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	1% - 3%
Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

This Sea Salt Fragrance Oil delivers multiple functional benefits specifically engineered for high-performance cosmetic and personal care production. Primarily, it acts as a powerful sensory masking agent, effectively neutralizing the inherent chemical odors of raw surfactant bases, oils, and bases without requiring excessive inclusion rates. Its advanced chemical structure ensures exceptional surfactant compatibility, meaning it integrates smoothly into complex formulas without destabilizing viscosity, thinning liquid soaps, or causing phase separation in high-foaming systems.

Furthermore, the oil possesses a zero-vanillin formulation, which actively prevents discoloration, oxidation, or yellowing in clear shower gels and pristine white soap bars over extended shelf lives. Its medium-low volatility functions as an effective fixative for rinse-off items, allowing refreshing aquatic top notes to cling to skin and hair fibers even after rinsing. Additionally, it offers reliable thermal stability during hot-process manufacturing and robust shelf-life preservation.

Applications:

Tailored specifically for wash-off and personal care lines, this fragrance oil excels in daily cleansing products. In hair care, it is ideal for clarifying shampoos, hydrating daily cleansers, and scalp-refreshing treatments, leaving hair with a clean, ocean-breeze aroma. For body care, it enhances luxury shower gels, exfoliating body polishes, and foaming bath foams, transforming a routine shower into an invigorating spa experience.

It is equally well-suited for artisan soap making, performing reliably in both traditional cold-process batches and melt-and-pour soap bases without accelerating trace or causing discoloration. Beyond standard cleansers, formulators can successfully utilize it in specialized spa items such as mineral bath salts, sugar scrubs, and liquid hand washes. Its clean, gender-neutral profile makes it a versatile ingredient for boutique collections, hotel amenity lines, and refreshing wellness-focused product ranges.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
