## Product Description

### Home &Hotel Diffuser Fragrance Oil Peony Blossom Fragrance For Reed Stick &Cold Scented Candle& Diffuser Fragrance Making/Production With Free Sample

Product Code: LDZ-PL30219

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

#### Product Overview:

Peony Blossom Fragrance Oil is a sophisticated, versatile botanical blend designed for multiple home fragrance applications, including reed diffusers, cold-air scenting systems, and candle making. Capturing the lush, romantic essence of freshly bloomed peonies, this oil delivers a delicate yet captivating floral profile characterized by rich, sweet petals with subtle green and dewy undertones.

Formulated specifically for fragrance production, the oil provides a clean, consistent cold and hot throw when used in wax, while maintaining optimal viscosity and evaporation rates for porous reed sticks and mechanical cold-air diffusers. It balances floral luxury with everyday freshness, creating an inviting, elegant ambiance suitable for living spaces, bedrooms, and hospitality settings. Whether you are crafting artisanal candles or blending custom diffuser liquids, this fragrance offers reliable performance, excellent blending compatibility, and long-lasting scent diffusion.

**Fragrance Profile & Characteristics:**

| Fragrance Notes | Description                                                                                                                                                                                         |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Top Notes       | Crisp green leaves, dewy water lotus, and a sparkling hint of red apple create a bright, fresh, and slightly aquatic opening that mimics morning dew on fresh petals.                               |
| Middle Notes    | The heart is dominated by lush pink peony, sweet rose, and a touch of wild carnation, delivering the authentic, romantic, and full-bodied floral essence characteristic of blooming spring gardens. |
| Base Notes      | Soft white musk, warm amber, and subtle cashmeran anchor the fragrance, providing a smooth, lingering warmth that ensures strong longevity without overpowering the delicate floral notes.          |

| Ingredients         | Natural & Synthetic Aromatic Compounds                                                                                                                |
| Recommended Dosage  | Aroma Sachets: 3–8%<br>Room Spray: 2–6%;<br>Cold Process Candles: 6–10%;<br>Hot Process Candles: 5–8%;<br>Reed Diffuser: 15–30%;<br>Wax Melts: 6–10%; |
| Volatilization Rate | Maintains continuous fragrance for 20-30 days, covering 15-25 square meters                                                                           |
| Solubility          | Easily soluble in ethanol and propylene glycol                                                                                                        |
| Compatibility       | Compatible with most anionic, nonionic, and zwitterionic surfactants                                                                                  |
| Shelf Life          | 12-24 months when stored in cool, dark place in sealed container                                                                                      |
| Standard Compliance | IFRA compliant with passed skin irritation testing                                                                                                    |

Functions & Applications:

The primary function of the Peony Blossom fragrance oil is to serve as an aromatic agent that reliably replicates the fresh, multi-dimensional scent of blooming spring flowers across various media. Chemically engineered for versatility, its core function is to deliver a stable, balanced scent profile—retaining both top-tier botanical crispness and long-lasting base warmth—without degrading when exposed to heat, alcohol bases, or mechanical diffusion. It functions effectively as a scent fixative carrier, binding smoothly with wax structures,

DPM/Augeo diffuser liquids, and cold-air nebulizing particles. By slowly releasing volatile organic compounds into the atmosphere, it neutralizes unwanted household odors, enhances spatial mood through aromatherapy, and transforms neutral matrices into finished luxury consumer goods that provide a continuous, uniform olfactory experience from the initial sniff to the final use.

### Primary Applications:

The applications for this oil span a wide range of home fragrance, personal care, and artisanal manufacturing sectors. In candle production, it is blended into soy, paraffin, or coconut waxes for container candles, pillar candles, and wax melts, providing an exceptional hot and cold throw. For passive scenting, it acts as the primary active ingredient in reed diffusers and ceramic diffusers, utilizing porous sticks to pull and evaporate the oil steadily. It is also widely utilized in mechanical cold-air scent machines and plug-in electric diffusers for commercial or residential spaces. Beyond home scenting, crafters utilize it in artisan soaps, body washes, room and linen sprays, and alcohol-based fine fragrances, making it an all-encompassing component for cohesive botanical product lines.

### Our Advantages:

**COA** **MSDS** **SGS** **ISO9001** **ISO22000** **HACCP** **IFRA** **SPEC**

**100% STRENGTH BRAND**

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

## Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

### Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging and Shipping

### Product Packaging Options

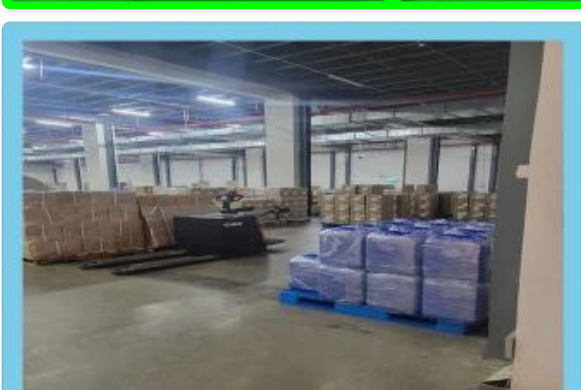

| Pack Type      | Quantity | Specification                           | Volume   |
|----------------|----------|-----------------------------------------|----------|
| Plastic Bottle | 5kgs     | L41*W28*H33.5cm 5kg*4 bottle per carton | 0.038cbm |
| Metal Barrel   | 25kgs    | D30*H45cm                               | 0.032cbm |
| Jerry Can      | 20-25kgs | L29.5*D29.5*H41cm                       | 0.33cbm  |

### Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping.

Shipping options include ship, air, truck, and express delivery.

Free samples available for home spray, diffuser, scented candle, and reed sticks applications.
