Product Description

Body Wash Fragrance Pantene Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making / Productions

Product Code: LDZ-PL21231

Characterized by a vibrant blend of lush fruits, fresh green florals, and subtle, sophisticated musks, these oils are specifically formulated for personal care production, including shampoos, conditioners, body washes, shower gels, and artisanal soaps. When utilized in manufacturing, these oils offer exceptional surfactant compatibility, dispersing evenly through complex detergent bases without disrupting viscosity or causing phase separation in clear liquid formulations. Formulators typically incorporate them at recommended usage rates of 0.5% to 2% for rinse-off items, striking an optimal balance between an impactful scent throw and dermal safety. Because this signature profile relies heavily on bright top notes paired with clean, lingering base notes, it provides excellent longevity on both skin and hair even after rinsing.

PLAN

Fragrance Profile & Characteristics:

Top Notes	Fruity & Vibrant: Juicy wild berries, crisp green apple, and bright citrus accents that deliver an immediate, sparkling burst of freshness. Aquatic Air: Light, watery ozone hints that give the opening an airy, uplifting, and freshly showered appeal.
Middle Notes	Lush Floral: A rich bouquet of dewy jasmine, white lily, and sweet heliotrope forming the signature floral heart. Green Accents: Crisp leaves and subtle herbal undertones that ground the fruitiness with a natural cleanliness.
Base Notes	Creamy & Warm: Soft sandalwood and velvety vanilla imparting a smooth, luxurious warmth. Clean Musk: Sleek, enduring synthetic musks designed to cling effectively to skin and hair fibers post-rinse.

Technical Specifications:

Product Name	Pantene Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.945 to 0.995 g/cm³ @ 25°C
Flash Point	Up to 93°C (200°F)
Refractive Index (RI)	1.450 to 1.480(at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	1% - 3%
Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

The primary function of this Pantene-inspired fragrance oil is to impart a luxurious, instantly recognizable clean scent that masks unfragranced surfactant bases while boosting consumer appeal. Engineered for high compatibility, it functions to disperse smoothly throughout complex detergent matrices—such as sodium laureth sulfate and betaines—without thinning product viscosity or triggering phase separation. It acts as an active aromatic stabilizer, designed to withstand the varying pH environments of shampoos and body washes without losing its core fragrance integrity. The oil also functions to deliver a multi-layered sensory journey, utilizing volatile top notes for an immediate burst upon lathering and anchored musks to ensure the scent clings to hair and skin post-rinse. Furthermore, it functions as a compliance-safe cosmetic ingredient, adhering strictly to dermal safety thresholds to prevent irritation during daily use. By balancing strength and subtlety, it functions to enhance the perceived value of everyday cleansing routines, providing a professional, salon-quality aromatic finish.

Applications:

This versatile fragrance oil is extensively applied in the commercial and artisan manufacturing of personal care products, with a primary focus on hair care lines such as shampoos, conditioning treatments, and detangling sprays. It is widely utilized in the production of moisturizing body washes, luxurious shower gels, and rich foaming bath foams where a long-lasting, clean scent enhances the bathing experience. Formulators also apply this oil in liquid hand soaps, bar soaps, and body scrubs, though testing for trace acceleration or discoloration is necessary for cold-process soap bases. Boutique cosmetic brands and large-scale contract manufacturers leverage its iconic profile to create cohesive, head-to-toe product collections that share a uniform signature scent.

Additionally, it finds targeted application in specialty items like leave-in hair glosses and refreshing mists, providing formulators with a reliable, salon-grade aromatic solution that appeals directly to consumers seeking a familiar, upscale personal care experience.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
