Product Description

Hotel & Home Diffuser Fragrance Lemon Verbena Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production With Free Sample

Product Code: LDZ-PL30496

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Lemon Verbena Fragrance Oil is a bright, invigorating scent solution created for home fragrance and hospitality environments where a clean, uplifting atmosphere is desired. Inspired by the refreshing character of lemon verbena, it combines sparkling citrus freshness with delicate green and herbal nuances, creating an aroma that feels natural, airy, and effortlessly sophisticated. The opening delivers a lively lemon impression, while the greener heart introduces a subtle botanical character that prevents the fragrance from becoming overly sharp or one-dimensional. A soft, clean dry-down provides additional smoothness and helps create a comfortable ambient scent.

Designed for versatility, this fragrance oil can be used in reed diffusers, cold-process scented candles, aroma diffusers, and other home fragrance applications. Its crisp profile is especially suitable for hotels, guest rooms, reception areas, spas, offices, boutiques, bathrooms, and residential spaces seeking a refreshing signature scent. It can also support seasonal collections, wellness-inspired products, and customized hospitality fragrance programs. For manufacturers, the fragrance offers opportunities to develop private-label and bespoke scent products with different levels of citrus intensity, green freshness, or aromatic softness. Final dosage and performance should be evaluated according to the selected fragrance base, application method, stability requirements, and applicable safety and IFRA standards.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Xiyuan Road, Baiyun District, Guangzhou, Guangdong, 510640 China

Tel: 86-13924190039

Email: plant@652n.com

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with sparkling lemon zest, fresh citrus peel, and a subtle green brightness. These lively notes create an immediate sensation of cleanliness and energy, giving the scent a crisp and uplifting first impression without becoming excessively sharp.
Middle Notes	At the heart, lemon verbena accords unfold with delicate herbal, leafy, and lightly floral nuances. Soft green facets add natural depth, while gentle aromatic touches bring a refined botanical character. This stage feels airy and refreshing, creating an elegant transition from the vibrant citrus opening.
Base Notes	The dry-down settles into clean musk, soft woods, and understated amber nuances. These elements smooth the citrus-herbal composition and provide a comfortable, lightly lingering finish. Rather than becoming heavy, the base maintains an open and polished character that works particularly well in ambient fragrance.

Technical Specifications:

Parameter	Specification
Product Name	Lemon Verbena Scent Flavoring Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.950–1.05g/cm³ @ 25°C
Refractive Index	1.450–1.520@ 20°C

Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Lemon Verbena Fragrance Oil functions primarily as an ambient scent enhancer, bringing a crisp, botanical freshness to spaces and fragranced products. Its sparkling citrus character can immediately brighten the surrounding atmosphere, while green and herbal nuances add a more natural and sophisticated dimension. One important function is odor masking, helping reduce unwanted background odors in environments such as bathrooms, reception areas, offices, and residential spaces. Its clean

profile can also establish a recognizable olfactory identity for hospitality and lifestyle brands, supporting a consistent sensory experience across different locations or product ranges. In addition, the fragrance can create a refreshing atmosphere associated with cleanliness, vitality, and relaxation, making it suitable for wellness-oriented environments. Its balanced citrus-herbal structure offers flexibility for fragrance customization, allowing manufacturers to adjust citrus intensity, botanical freshness, softness, or diffusion character according to specific market requirements. When incorporated into candles, reed diffusers, or other ambient fragrance formats, it can contribute both immediate aromatic impact and a polished overall scent impression.

Primary Applications:

Lemon Verbena Fragrance Oil is well suited to a variety of home, hospitality, and commercial scenting products. It can be formulated into reed stick diffusers, cold-process scented candles, aroma diffusers, home fragrance oils, room sprays, and other ambient scent products. In hotels, its fresh citrus-green character works particularly well in lobbies, guest rooms, corridors, bathrooms, spas, and reception areas, where a clean and welcoming atmosphere is important. For residential use, it can enhance living rooms, bedrooms, kitchens, entryways, and workspaces with a bright yet natural aromatic presence. The fragrance is also appropriate for boutiques, salons, wellness studios, offices, restaurants, and other commercial environments seeking a distinctive but unobtrusive scent identity. Manufacturers can incorporate it into private-label home fragrance collections, seasonal products, wellness-inspired ranges, or customized hotel scent programs. Its versatile profile also allows blending with floral, woody, aquatic, or herbal accords to create more specialized fragrance concepts. Final dosage should be evaluated according to the selected carrier, diffuser system, candle wax, processing method, stability requirements, and applicable IFRA standards.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
