Product Description

Body Wash Fragrance Oil Johnson's 2-in-1 Fragrance Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making / Productions with High-Surfactant Stability

Product Code: LDZ-PL21291

The Johnson's 2-in-1 fragrance oil is a versatile, premium-grade aromatic oil inspired by the iconic, clean, and comforting scent profiles associated with classic baby care products. Specifically formulated for DIY crafting and commercial production, this multi-use fragrance is expertly engineered to blend seamlessly into a wide variety of personal care items, including shower gels, liquid body washes, hair shampoos, and handcrafted scented bar soaps.

Characterized by its nostalgic and soothing appeal, the scent typically features a gentle harmony of soft powdery notes, light florals, and subtle hints of clean freshness that linger delicately on the skin and hair after use. Crafters and formulators favor this type of fragrance oil for its excellent performance stability in surfactant bases, meaning it maintains its pleasant aroma profile without destabilizing or separating soap and shampoo formulations.

Whether you are producing a hydrating body wash, a nourishing daily shampoo, or artisanal cold-process soaps, this oil delivers an approachable, universally loved fragrance that evokes absolute cleanliness and comfort. It provides reliable scent throw, making it an essential addition to any bath and body production line.

PLAN

PLAN

Fragrance Profile & Characteristics:

Top Notes	The Johnson's 2-in-1 style fragrance oil opens with an inviting burst of clean, sparkling freshness. The top notes feature crisp ozone, sweet citrus, and light green accents that impart an immediate sense of purity and joyful energy upon contact with water. As the formulation settles, the fragrance transitions into its comforting heart.
Middle Notes	The middle notes reveal a delicate, powdery floral bouquet centered around classic rose, blooming jasmine, and sweet violet, mingled with soft touches of geranium and creamy iris. This heart creates the signature nostalgic, comforting aroma universally associated with clean baby care products.
Base Notes	Finally, the scent grounds itself with a warm and cozy foundation. The base notes consist of rich powdery musk, sweet and comforting baby powder accords, subtle cedarwood, and hints of warm amber. This lingering dry-down ensures the clean, gentle fragrance remains softly balanced on the skin, hair, and soap lather long after the shower or bath routine is finished.

Technical Specifications:

Product Name	Johnson's 2-in-1 Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.950 to 1.020 g/cm³ @ 25°C
Flash Point	Up to 93°C (200°F)
Refractive Index (RI)	1.445 to 1.485(at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	0.5% - 2.0%
Shower Gel:	0.5% - 1.5%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	1.0% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

The primary function of this fragrance oil is to impart a stable, long-lasting, and psychologically comforting sensory profile to cosmetic base formulations. Beyond simply delivering a pleasant aroma, it functions as an effective odor-masking agent that neutralizes the inherent chemical smells of raw surfactants, fatty acid soaps, and cleansing bases. The carefully engineered volatile compounds are designed to interact harmoniously with surfactant matrices and oil phases, ensuring that the scent remains locked into the product during shelf-storage while gracefully releasing upon contact with water. It enhances the overall user experience by transforming functional hygiene items into luxury self-care rituals, anchoring a clean, nostalgic identity to the finished goods through scent.

Applications:

The main application of this versatile 2-in-1 oil spans multiple personal care and artisan production categories, specifically tailored for rinse-off formulations. In shower gels and liquid body washes, it incorporates smoothly into surfactant systems without causing unwanted thinning or major clouding when used within recommended ratios. For hair care productions, it is widely utilized in daily shampoos to leave a subtle, fresh fragrance lingering on locks after rinsing. Additionally, it is heavily favored in artisan soap making—including both cold-process and melt-and-pour bar soaps—where it provides reliable scent retention through the saponification and curing process without accelerating or seizing the soap batter prematurely.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
