Product Description

Concentrated Perfume Oil For Daily Use Kilian Angle share Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL10648

The Kilian Angels' Share type concentrated fragrance oil is a decadent, warm gourmand formulation designed for high-end perfume making and artisanal production. Inspired by the luxurious, booze-infused heritage of fine French cellars, this rich aromatic oil captures an intoxicating blend of sophistication and cozy indulgence. It is expertly engineered for creators looking to craft premium personal fragrances, luxury body oils, or high-end scented candles that exude warmth and depth.

Formulators favor this concentrated oil for its exceptional depth and robust scent throw, allowing it to perform impressively across alcohol-based perfumes, oil-based roll-ons, and craft cosmetic bases. The complex character shifts smoothly from sharp, spirited openings to velvety, sweet dry-downs, ensuring a lingering trail that feels both intimate and bold. Whether used to formulate a signature evening fragrance or an upscale line of boutique body care items, it delivers a universally captivating profile associated with modern luxury and timeless opulence.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The Kilian Angels' Share type fragrance oil opens with an unmistakable, opulent burst of rich, authentic top notes featuring natural, boozy that immediately mimics the warmth of fine aged spirits.
Middle Notes (Heart)	As this spirited opening begins to settle, it transitions gracefully into a complex heart. The middle notes introduce a spicy-sweet harmony combining aromatic cinnamon, earthy oak wood, warm tonka bean, and a touch of light hedione florals. This core builds an intoxicating, comforting atmosphere reminiscent of traditional liquor barrels.
Base Notes (Foundation)	The base notes envelop the senses with creamy vanilla, rich praline, smooth sandalwood, and sweet candied almond. This luscious foundation lingers seamlessly on the skin, delivering an intensely cozy, gourmand profile that balances sophisticated woodiness with deep, confectionery sweetness for an unforgettable impression.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Kilian Angle share Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.900–0.980 g/cm³ @ 25°C
Refractive Index	1.450–1.500
Flash Point	>70°C
Dosage	Home Fragrance: 6%–10% Body Mist: 1%–5%; Shower Gel & Shampoo: 0.2–1.0%; Eau de Parfum (EDP): 15–30%; Body Oils/Lotions: 0.3–1%; Soap/wash-off: 1.5-4% Fine Perfume: 15–30%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of this concentrated fragrance oil is to impart an opulent, highly complex, and long-lasting gourmand signature to luxury personal care items. Beyond delivering an exquisite aroma, it acts as a robust fixative base that stabilizes volatile accords, ensuring the scent retains its depth and character over extended periods of shelf storage. Its rich, multifaceted formulation allows it to effectively mask the neutral chemical scents of raw alcohol bases, carrier oils, or unscented cosmetic lotions without requiring excessive concentration. The oil is specifically engineered to interact seamlessly with high-proof perfumer's alcohol or carrier oil matrices, providing a smooth, uniform blend that does not easily separate. When applied to the skin or diffused, it slowly releases its warm, boozy, and sweet layers, transforming standard cosmetic creations into sophisticated, high-end olfactory experiences that linger intimately for hours.

The main application of this decadent oil spans exclusive artisan perfumery, luxury body care productions, and upscale home fragrance manufacturing. It is heavily utilized in fine fragrance creation, serving as the core aromatic anchor for bespoke alcohol-based perfumes, solid perfumes, and travel-friendly oil-based roller bottles. In addition to personal perfumery, formulators incorporate it into high-end body oils, rich moisturizing body butters, and decadent artisan soaps where a warm, sophisticated scent profile is desired. It is also exceptionally popular in luxury candle making and reed diffuser production, as its heavy gourmand and woody base notes maintain remarkable stability and strong hot-and-cold scent throw when exposed to warm wax or ambient air, making it a favorite for autumn and winter collections.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC
