Product Description

Fragrance Body Wash Vanilla Cookie Flavoring Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions with High-Surfactant Stability

Product Code: LDZ-PL20623

Vanilla Cookie Fragrance Oil is a warm, deliciously comforting fragrance solution created for personal care products that benefit from a sweet and inviting gourmand character. Inspired by the aroma of freshly baked vanilla cookies, it combines creamy vanilla sweetness with soft buttery, biscuit-like nuances to create a cozy scent impression. The fragrance is designed to bring a playful yet sophisticated gourmand touch to everyday cleansing products, making ordinary bathing routines feel more enjoyable and distinctive.

Its smooth aromatic structure makes it suitable for shower gels, shampoos, body washes, liquid soaps, and scented soap products. In cleansing formulations, the fragrance can enhance the overall sensory profile while helping soften or mask the inherent odor of surfactants, preservatives, botanical extracts, and other functional ingredients. Its recognizable vanilla-cookie character can also provide a strong scent identity for brands developing dessert-inspired, comforting, youthful, or indulgent personal care collections.

For manufacturers, Vanilla Cookie Fragrance Oil offers flexibility for OEM, ODM, private-label, and customized fragrance projects. The gourmand direction can be further adjusted toward richer vanilla, creamier sweetness, toasted biscuit, caramelized warmth, or lighter milky facets according to product positioning. It can also be paired with fruit, floral, chocolate, coffee, or woody accords for differentiated fragrance variations.

Fragrance Profile & Characteristics:

T o p N o t e s	The fragrance opens with a freshly baked impression of crisp biscuit, light caramelized sugar, and delicate buttery nuances. A gentle touch of sweet cream adds softness, creating an inviting gourmand introduction reminiscent of warm cookies coming from the oven.
M i d d l e N o t e s	The heart reveals a richer vanilla accord blended with creamy milk, soft pastry, and subtle almond-like nuances. The buttery biscuit character remains present but becomes smoother and more rounded, while the creamy facets create a comforting, indulgent sensation. This middle stage gives the fragrance its recognizable dessert-inspired personality without becoming excessively heavy.
B a s e N o t e s	The dry-down settles into creamy vanilla, soft musk, warm amber, and delicate woody nuances. A subtle toasted-sugar effect adds depth and helps extend the cozy character of the composition. The base is smooth, warm, and softly sweet, leaving a pleasant gourmand impression suitable for daily personal-care products.

Technical Specifications:

Product Name	Vanilla Cookie Flavoring Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.950 to 1.050 g/cm³ @ 25°C
Flash Point	Up to 93.5°C (200°F)
Refractive Index (RI)	1.450 to 1.520 (at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	0.2% - 1.0%
Shower Gel:	0.2% - 1.0%
Liquid Soap:	0.3–1.5%;
Bar Soap (CP/MP):	0.5% - 2%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

Vanilla Cookie Fragrance Oil functions as a gourmand scent enhancer that gives personal care formulations a warm, creamy, and recognizable aromatic identity. Its combination of baked biscuit, vanilla, buttery sweetness, and soft creamy nuances can transform a basic cleansing formulation into a more inviting sensory experience. One important function is to improve the fragrance character of shower gels, shampoos, body washes, and soaps while helping mask the inherent odors of surfactants, preservatives, botanical extracts, and other functional ingredients. The fragrance also supports product differentiation by introducing a comforting dessert-inspired signature that can appeal to brands developing indulgent, youthful, cozy, or playful personal-care concepts. Its aromatic structure can be modified toward richer vanilla, toasted biscuit, caramelized sugar, creamy milk, or lighter sweet facets, providing flexibility for customized formulations. When used at a suitable level, it can create a pleasant scent during application and contribute to a more memorable product experience. Final dosage should be optimized according to the formulation, stability, compatibility, sensory performance, and applicable IFRA requirements.

Applications:

Vanilla Cookie Fragrance Oil is suitable for a variety of rinse-off personal care products where a sweet, comforting, and distinctive fragrance profile is desired. It can be incorporated into shower gels, body washes, shampoos, liquid hand soaps, cleansing products, and scented bar soaps. In shower and body-wash formulations, its creamy vanilla and freshly baked biscuit character can create a cozy bathing experience, while shampoo applications can use the gourmand profile to establish a recognizable scent signature. For liquid and solid soaps, it can add warmth and personality to functional cleansing products. The fragrance is also well

suited to private-label, OEM, and ODM projects targeting dessert-inspired, indulgent, youthful, or comfort-oriented collections. Manufacturers can combine it with fruit, chocolate, coffee, caramel, coconut, nutty, floral, or woody accords to create differentiated fragrance variations. It may also be adapted for coordinated product ranges, helping maintain a consistent scent identity across multiple SKUs. Recommended usage should be adjusted after formulation, stability, compatibility, packaging, and sensory testing, with current supplier documentation and applicable IFRA requirements reviewed before production.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm
