Product Description

Wholesale Candle Fragrances Sexy Vanilla Fragrance Oils For Hot / Cold Process Scented Candles Productions/Making

Product Code: LDZ-PL40488

Product Overview:

The Sexy Vanilla Fragrance Oil is a premium, versatile scent crafted specifically for candle production, delivering exceptional performance in both hot and cold process methods. It maintains its rich aromatic integrity under high heat without scorching or losing depth. Featuring a sophisticated, alluring twist on traditional vanilla, it balances comforting sweetness with warm, complex undertones to create a luxurious ambiance. This oil provides a robust scent throw, ensuring the fragrance fills a room effectively whether the candle is unlit on a table or actively burning. Ideal for both hobbyists and professional artisans, it elevates standard vanilla into an upscale, sensual home fragrance experience.

Fragrance Profile

Top Notes	The fragrance opens with a bold, sweetly sharp edge of bitter almond, delivering an intriguing and slightly nutty first impression that immediately teases the senses.
Middle Notes (Heart)	As the initial opening settles, the heart reveals a smooth, creamy swirl of rich vanilla seamlessly balanced by the delicate, heady warmth of lush jasmine, adding a soft floral depth.
Base Notes	The scent anchors into a deeply sensual foundation of sweet tonka bean and velvety sandalwood, leaving a lingering, luxurious, and inviting finish that performs exceptionally well in candles.

Technical Specifications

Fragrance Profile	Sexy Vanilla Fragrance Oils
Appearance	Clear to pale yellow liquid
Relative Density	0.890 to 0.940 g/cm³ @ 25°C
Refractive Index	1.465 - 1.495@ 20°C
Flash Point	>85°C (185°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Coconut / Beeswax:	7% – 10%
Paraffin Wax:	6% – 8%
Wax Melts / Tarts:	10% – 12%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)

Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

The primary function of the Sexy Vanilla fragrance oil is to impart a rich, multi-layered, and long-lasting sensory experience into various crafted goods. It acts as a powerful aromatic agent designed to mask unscented base materials while establishing a warm, sophisticated, and intimate atmosphere. In candle production, its core function is to deliver an exceptional dual scent throw, meaning it successfully vaporizes and disperses heavy fragrance molecules into the air both when the wax pool is hot and when the product remains unlit at room temperature. Furthermore, it functions as a versatile blending component that can anchor sharper, lighter notes or stand alone as a decadent statement profile. By utilizing complex components like bitter almond and woody undertones, it functions to elevate traditional, simple vanillas into a mature, provocative fragrance that appeals to modern consumer preferences for luxury, skin-inspired home and body aromas.

Primary Applications:

This fragrance oil is expertly formulated for wide-ranging applications across the home fragrance, personal care, and artisanal crafting sectors. Its principal application is in scented candle manufacturing, where it seamlessly integrates into soy, paraffin, and coconut wax blends using either hot or cold process methods. Beyond traditional container candles, wax melts, and tarts, it is widely utilized in cosmetic and bath formulations. Crafters frequently apply it to cold process and melt-and-pour soaps, though formulators must account for potential vanilla-induced color browning. It is also safe and effective for personal care applications when properly diluted, including skin-nourishing body oils, rich lotions, whipped body butters, and exfoliating sugar scrubs. Additionally, its skin-scent profile makes it a popular choice for alcohol-free roll-on perfumes and artisanal room sprays, allowing users to experience its sultry, warm character across multiple lifestyle and beauty mediums.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
