

Wholesale Candle Fragrances White Goatskin Fragrance Oils For Hot / Cold Process Scented Candles Productions / Making

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40511
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

Product Description

Wholesale Candle Fragrances White Goatskin Fragrance Oils For Hot / Cold Process Scented Candles Productions / Making

Product Code: LDZ-PL40511

Product Overview:

White Goatskin Fragrance Oil is a sophisticated candle fragrance designed to introduce a distinctive leather-inspired character into both hot-process and cold-process scented candle formulations. Rather than presenting a heavy or overly rugged leather accord, this fragrance is conceived around a smooth, refined goatskin impression, combining soft leather nuances with warm, creamy, and subtly woody facets. This creates an intriguing olfactory identity that can give candles a more premium and contemporary character.

The fragrance opens with a clean, slightly dry impression before developing into a smooth leather heart with delicate suede-like softness. Warm woody nuances and gentle musky tones provide additional depth, helping balance the animalic character and making the overall profile more approachable. The layered construction is particularly valuable in candle applications because fragrance composition can influence both the cold scent impression and the aroma released as the wax is heated.

For candle manufacturers, White Goatskin offers an alternative to conventional floral, fruity, or gourmand profiles. It can be incorporated into luxury candles, masculine-inspired home fragrances, boutique collections, hotel candles, and autumn or winter scent ranges. Its leather direction can also be combined with woods, amber, musk, vanilla, spices, or aromatic notes to create customized fragrance concepts.

Suitable for both hot and cold candle-making processes, the fragrance can be evaluated in different wax systems to determine optimal dosage, compatibility, cold throw, and hot throw before commercial production.

PLAN

Fragrance Profile

Top Notes	The opening is clean and slightly green, with fresh herbal nuances and a subtle dry, airy character. These elements provide brightness and prevent the leather impression from feeling excessively dense at the beginning.
Middle Notes (Heart)	The heart develops into a smooth goatskin and soft leather accord, supported by gentle suede-like nuances, aromatic herbs, and a delicate earthy character. This stage forms the fragrance's distinctive identity, creating a sophisticated yet unconventional leather impression.
Base Notes	The dry-down becomes warmer and deeper, combining soft woods, musk, earthy notes, and subtle resinous facets. These supporting notes add body and help create a rounded, lingering foundation when incorporated into scented candle formulations.

Technical Specifications:

Fragrance Profile	White Goatskin Fragrance Oils
Appearance	Clear to pale yellow liquid
Relative Density	0.950 to 1.050 g/cm³ @ 25°C
Refractive Index	1.450 - 1.530@ 20°C
Flash Point	>93°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Coconut / Beeswax:	6% – 10%
Paraffin Wax:	5% – 8%
Wax Melts / Tarts:	10% – 12%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)

Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

White Goatskin Fragrance Oil functions as a distinctive olfactory ingredient for scented candle formulations, adding depth, character, and a sophisticated leather-inspired identity to the finished product. Its smooth goatskin accord can enrich the fragrance architecture with dry, earthy, suede-like, and softly musky nuances, helping create a more complex sensory experience than conventional single-note fragrances. During candle development, it can contribute to both the cold throw and hot throw, subject to the wax system, fragrance concentration, wick selection, and processing conditions. The fragrance also provides a useful foundation for balancing stronger aromatic materials, allowing candle developers to soften sharp woody, spicy, or smoky accords with a smoother leather dimension. Its unconventional profile can help brands establish a recognizable signature scent and differentiate premium candle collections from common floral or fruity offerings. It may also be blended with complementary fragrance materials such as amber, cedarwood, sandalwood, vanilla, musk, or spices to create customized scent concepts. Before production, performance should be evaluated in the intended wax and packaging system.

Primary Applications:

White Goatskin Fragrance Oil is primarily suitable for scented candle production using both hot-process and cold-process manufacturing methods. Its refined leather character can be incorporated into soy candles, paraffin candles, vegetable-wax blends, beeswax-based candles, and other compatible wax systems, subject to formulation testing. The fragrance is particularly suitable for premium home-fragrance collections where manufacturers want to introduce a sophisticated, less conventional scent direction. It can be used for luxury candles, boutique candle ranges, masculine-inspired collections, hotel and hospitality candles, seasonal releases, and decorative candles with an elegant lifestyle positioning. Its leather and woody character can also provide an interesting foundation for blended fragrances featuring amber, oud, cedarwood, sandalwood, vanilla, musk, tobacco, or spices. For private-label and OEM/ODM projects, manufacturers can further explore customized variations by adjusting the balance between leather, woods, musk, warmth, and sweetness. Before commercial production, compatibility, dosage, stability, cold throw, and hot throw should be tested in the selected wax system to determine the appropriate formulation.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
