

Wholesale Candle Fragrances Golden Spruce Scent Fragrance Oils For Hot / Cold Process Scented Candles Productions/Making

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL40513
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union,
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Wholesale Candle Fragrances Golden Spruce Scent Fragrance Oils For Hot / Cold Process Scented Candles Productions/Making

Product Code: LDZ-PL40513

Product Overview:

The Golden Spruce Fragrance Oil is a premium, versatile formulation tailored for both hot and cold process candle production. Capturing the crisp, refreshing essence of an evergreen forest, it delivers an authentic aroma profile blending fresh needle notes, earthy wood undertones, and warm balsam. Formulated to perform exceptionally well across various waxes like soy, paraffin, beeswax, and coconut blends, this oil ensures a robust, consistent scent throw for both unlit cold throws and burning hot throws. Furthermore, it is engineered to withstand high temperatures during hot processing without degrading or scorching, making it a reliable choice for high-quality candle production.

Fragrance Profile

Top Notes	Crisp pine, aromatic cedar, and a subtle spark of cracked peppercorn open the fragrance with an invigorating, fresh burst.
Middle Notes (Heart)	Heart notes feature deep Sitka spruce resin, warm palo santo, and earthy forest moss, capturing the authentic character of a dense woodland.
Base Notes	Rich amber, velvety sandalwood, and a gentle whisper of woodsmoke anchor the profile, delivering a warm, comforting finish reminiscent of a peaceful campfire.

Technical Specifications:

Fragrance Profile	Golden Spruce Scent Fragrance Oils
Appearance	Clear to pale yellow liquid
Relative Density	0.90 to 0.905 g/cm³ @ 25°C
Refractive Index	1.467 - 1.477@ 20°C
Flash Point	>93°C (200°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Coconut / Beeswax:	7% – 10%
Paraffin Wax:	6% – 8%
Wax Melts / Tarts:	10% – 12%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)

Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

The primary function of the Golden Spruce fragrance oil is to impart a stable, rich, and consistent aromatic profile into various manufactured bases. Designed primarily for candle making, it acts as an active scent-delivery agent that binds seamlessly with wax molecules. During the manufacturing process, its chemical composition allows it to withstand elevated thermal thresholds without scorching or evaporating prematurely, ensuring that the volatile top and middle notes remain intact. When the candle is unlit, the oil functions to deliver a pleasant cold throw by gently diffusing ambient notes into the immediate surrounding space. Once ignited, the heat generated by the flame activates the denser base and middle notes, causing the oil compounds to vaporize evenly and project a powerful, long-lasting hot throw throughout the room. Additionally, it functions to mask any raw, unscented wax odors, elevating the final product into a sensory-rich experience that replicates a natural, calming evergreen forest environment.

Primary Applications:

The Golden Spruce fragrance oil is utilized across a range of creative, craft, and commercial scent production applications. Its principal application is in scented candle manufacturing, where it is blended into soy, paraffin, beeswax, and coconut wax systems using both hot and cold process techniques to produce container candles, pillars, and wax melts. Beyond traditional candle production, its robust woody profile makes it a popular choice for crafting home fragrance goods such as reed diffusers, passive room sprays, potpourri refreshers, and automated air freshener liquids. In specialized artisan crafts, variations of this oil can be adapted for seasonal decor scenting, where pine cones, artificial foliage, and wooden ornaments are treated to maintain a realistic forest aroma. Furthermore, it finds strong application within small-batch and commercial workshop settings focused on outdoor-themed ambiance creation, allowing makers to scale consistent, forest-inspired fragrance lines for retail distribution, gift markets, and specialized interior design concepts.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
