Product Description

Perfume Fragrance Wholesale Sexy Hypnotic Poison Fragrance Oil For Perfume Making/Production With Free Sample Concentrated Perfume

Product Code: LDZ-PL10991

Sexy Hypnotic Poison Fragrance Oil For Perfume Making/Production is a sophisticated and captivating fragrance essence designed for creating distinctive perfumes with a seductive, mysterious character. It combines rich sweetness, elegant florals, and warm oriental nuances to produce a memorable scent experience that develops beautifully on the skin. The fragrance opens with an inviting impression of luscious fruity sweetness, gradually revealing a smooth floral heart with a soft, sensual character. As it settles, warm vanilla, creamy woods, and subtle amber-like nuances create a deep and lingering dry-down.

Formulated for professional perfume production, this fragrance oil offers a well-balanced aromatic structure that allows different notes to unfold progressively rather than appearing as a single-dimensional scent. Its strong olfactory presence makes it suitable for both feminine and unisex-inspired perfume concepts, depending on the final formulation and dosage. The concentrated composition also provides flexibility for eau de parfum, body mist, perfume oils, and other personal fragrance products.

Beyond its attractive scent profile, Sexy Hypnotic Poison Fragrance Oil is developed with attention to consistency, stability, and reproducibility during production. It can be incorporated into customized perfume formulations for brands seeking an alluring signature aroma.

Fragrance Profile:

Sexy Hypnotic Poison fragrance oil is a deeply seductive, oriental-vanilla formulation crafted for luxury perfume making and cosmetic production, drawing inspiration from the iconic, intoxicating allure of Hypnotic Poison.

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with a rich, striking, and unconventional blend of bitter almond and sweet caraway. This bold pairing immediately commands attention, offering a nutty, slightly spicy, and deeply addictive introduction that sets a mysterious tone.
Middle Notes (Heart)	As the initial intensity settles, the heart reveals a lush, opulent floral bouquet. Exotic jasmine sambac intertwines with opulent, velvety orange blossom and a touch of heady tuberose, imparting a warm, creamy, and intensely feminine sensuality to the composition.
Base Notes (Foundation)	The dry-down is profoundly decadent, anchored by a rich wave of warm vanilla, luscious coconut, sweet almond, and earthy sandalwood. This gourmand-amber fusion leaves a lingering, hypnotic trail that wraps the skin in a cozy yet fiercely magnetic embrace, making it ideal for evening wear and luxury body care.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Sexy Hynotic Poison Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.950–1.050 g/cm³ @ 25°C
Refractive Index	1.450–1.520
Flash Point	>93°C (200°F)
Dosage	Fine Fragrance / Perfumes (Alcohol-based): 10% – 15% Eau de Toilette (EDT) / Body Sprays: 3% – 8% Body Lotions & Creams: 0.5% – 2% Bath and Wash Products (Shower gels, soaps): 1% – 3%
Diffusion Ability	Excellent aroma

Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of the Sexy Hypnotic Poison fragrance oil is to serve as a deeply seductive, highly concentrated aromatic base that replicates the iconic, magnetic scent profile of Di-or's classic perfume. Functionally, it acts as a robust blending compound that unifies nutty top notes, lush florals, and a heavy gourmand-vanilla dry-down into a stable, cohesive olfactory experience. Its formulation functions to effectively neutralize chemical or base-product odors in raw cosmetic formulations while delivering a lasting, intense character. The oil is specifically engineered to bind smoothly with high-proof alcohol, cosmetic emulsions, surfactant systems, and carrier oils without separating. Furthermore, its rich fixatives—such as warm vanilla, sandalwood, and sweet almond—function to slow down the evaporation rate of the volatile top notes, ensuring prolonged skin adhesion, deep sensual projection, and a lingering, intoxicating scent trail that evolves beautifully over time.

This fragrance oil is extensively applied across several production sectors, most prominently in fine perfumery for crafting luxury eau de parfums, extrait de parfums, and oil-based roll-ons. In the personal care and cosmetic industry, it is widely utilized to formulate rich body lotions, decadent body butters, hydrating massage oils, and nourishing shower gels that benefit from its warm, sultry profile. Artisanal bath and body makers also apply it frequently in cold-process soaps, bath bombs, and sugar scrubs. Beyond personal cosmetics, this

captivating scent is heavily applied in home fragrance manufacturing, where artisans use it to produce romantic scented container candles, soy wax melts, and continuous reed diffusers. Finally, it finds specialty applications in upscale lifestyle items such as sensual linen sprays, bedroom ambient mists, and luxury wardrobe sachets designed to create an alluring and intimate atmosphere.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

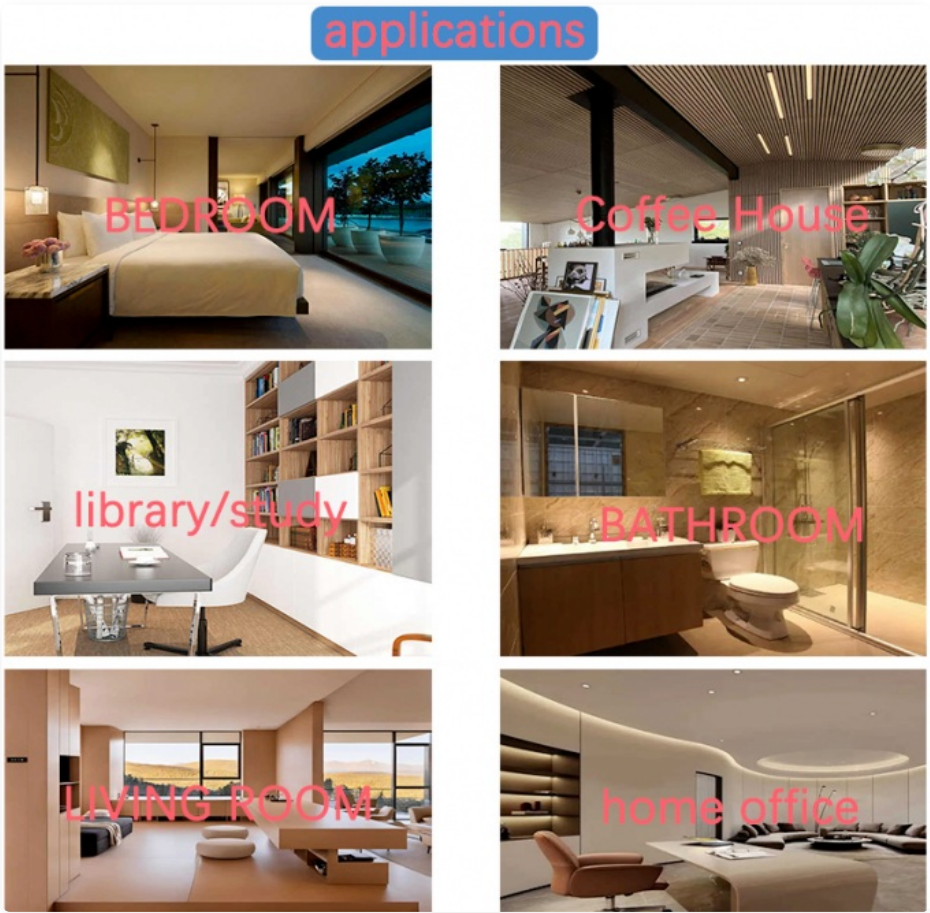

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

applications

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, HACCP, IFRA, SPEC
