Product Description

Candle Fragrances Wholesale Neroli & Basil Fragrance Oils For Hot / Cold Process Scented Candles Productions/Making

Product Code: LDZ-PL40124

Product Overview:

Elevate your candle-making collection with this sophisticated Neroli & Basil Fragrance Oil, expertly formulated for both hot and cold process scented candle productions. This exquisite blend masterfully marries the lush, honeyed, and intensely floral elegance of fresh neroli blossoms with the crisp, green, and herbaceous zest of garden basil.

Designed specifically for artisan and commercial candlemakers, this high-performance oil boasts exceptional thermal stability. It binds effortlessly with popular wax types—including soy, paraffin, beeswax, and coconut-soy blends—ensuring a smooth, even scent throw whether candles are unlit on display (cold throw) or burning brightly (hot throw). The complex botanical profile offers a refreshing yet deeply relaxing atmosphere, striking the ideal balance between uplifting citrus florals and grounding green herbal notes.

Recommended for use at typical load percentages of 6% to 10%, it cures cleanly without causing excessive frosting, heavy discoloration, or wick-clogging. Whether you are crafting luxury container candles, wax melts, or pillar designs, this wholesale fragrance oil delivers consistent burn behavior and a captivating, upscale olfactory experience that appeals to modern home fragrance enthusiasts.

PLAN

Fragrance Profile:

Top Notes	Crisp garden basil, sparkling bergamot, and crushed petitgrain leaf.
Middle Notes (Heart)	Fresh neroli blossoms, white jasmine petals, and dewy green accents.
Base Notes	Warm cedarwood, sheer white musk, and a whisper of earthy vetiver.

Technical Specifications

Fragrance Profile	Neroli & Basil Fragrance Oils
Appearance	Clear to pale yellow liquid
Relative Density	0.965 to 0.985 g/cm³ @ 25°C
Refractive Index	1.465 - 1.495@ 20°C
Flash Point	>85°C (185°F)
Ingredients	Natural & Synthetic Aromatic Compounds
Phthalate-Free	Meets modern "clean scent" standards for luxury retail

Recommended Dosage

Application	Dosage
Soy / Coconut / Beeswax:	7% – 10%
Paraffin Wax:	6% – 8%
Wax Melts / Tarts:	10% – 12%
Soap Applications (CP/HP)	3% – 5% (Check IFRA Category 9 for safety limits).

Performance Characteristics

Thermal Diffusion	Excellent - Fills 20-30 square meters in 3-5 minutes after lighting
Thermal Stability	Engineered to resist degradation at standard candle-pouring temperatures (65°C - 80°C)

Cold Throw	Excellent - Noticeable aroma when unburned
Hot Throw	Excellent - Strong and steady aroma spread while burning
Wax Compatibility	Excellent - Blends seamlessly with soy wax, beeswax, coconut wax, paraffin wax, and blends
Solubility	100% oil-soluble; prevents sweating or oil pooling on candle surface
Shelf Life	24 months when stored in cool, dark place
IFRA Compliance	Complies with IFRA standards and passed skin irritation testing

Functions & Applications:

Enhanced Scent Throw	Engineered to maximize both cold throw (unlit fragrance release) and hot throw (melted wax dispersion).
Thermal Endurance	Withstands high pouring and burning temperatures without degrading, scorching, or altering its aromatic balance.
Clean Burn Matrix	Integrates smoothly into wax structures to prevent heavy soot buildup or premature wick clogging.

Primary Applications:

Container Candles	Delivers an even, reliable burn and long-lasting scent diffusion in glass, tin, or ceramic jars.
Wax Melts & Tarts	Provides a potent, concentrated fragrance release suitable for electric and tealight warmers.
Pillar & Votive Candles	Formulates cleanly for freestanding wax creations requiring structural stability and steady fragrance migration.

Our Advantages

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications,such as ISO22000,COA
MSDS、SGS、ISO9001、ISO22000、HACCP、IFRA、SPEC

Support & Services

Our R&D team includes PhDs and senior engineers with university partnerships, integrating global technology for continuous innovation. We assist customers in improving product aroma, quality structure, and reducing production costs with tailored solutions.

Comprehensive Support Includes:

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- OEM support for custom scents
- Training and education on fragrance formulation

Packaging & Shipping

Product Packaging

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information: Production begins immediately after payment. Lead times: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photo confirmation or bulk samples before shipping via ship, air, truck, or express according to client requirements.
