Product Description

Free Sample Hotel & Home Diffuser Aroma Lotus & Osmanthus Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30811

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

Diffuser Aroma Lotus & Osmanthus Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production is an elegant floral fragrance essence developed for home fragrance products that require a graceful, fresh, and refined aromatic atmosphere. The composition brings together the serene character of lotus with the delicate sweetness of osmanthus, creating a sophisticated floral profile with a soft fruity undertone and a clean, airy finish.

The opening delivers a gentle floral freshness that quickly fills the surrounding space without feeling excessively heavy. As the fragrance develops, lotus provides a watery, transparent floral character, while osmanthus contributes subtle fruity, honeyed, and slightly creamy nuances that add warmth and individuality. A smooth musky and lightly woody foundation helps extend the fragrance experience and gives the overall composition greater depth.

Designed for professional home fragrance production, this essence oil is suitable for reed diffusers, cold-process scented candles, aroma diffusers, home fragrance oils, and other ambient scent products, subject to formulation compatibility. Its versatile floral character can complement modern interiors, hospitality environments, bedrooms, living spaces, boutiques, and wellness-oriented settings. It is also suitable for customized fragrance development, allowing brands and manufacturers to create distinctive collections with an elegant botanical-inspired identity. The balanced scent profile makes Lotus & Osmanthus a versatile choice for consumers seeking a calm yet memorable olfactory atmosphere.

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with a fresh, transparent floral impression accompanied by delicate green and lightly fruity nuances. The lotus accord creates an airy, water-like freshness that gives the opening a clean and tranquil character.
Middle Notes	At the heart, graceful lotus becomes more prominent and blends naturally with the soft sweetness of osmanthus. Subtle apricot-like, honeyed, and creamy facets from osmanthus add personality without overpowering the delicate floral character. This stage gives the fragrance an elegant and softly luminous presence.
Base Notes	The dry-down introduces gentle musk, smooth woods, and a subtle amber-like warmth. These supporting accords provide a soft foundation that helps the floral heart remain noticeable while giving the overall fragrance greater persistence. The result is a refined combination of aquatic freshness, floral delicacy, fruity sweetness, and understated warmth—well suited to contemporary home-fragrance concepts.

Technical Specifications:

Parameter	Specification
Product Name	Lotus & Osmanthus Scent Flavoring Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.900–1.05g/cm³ @ 25°C
Refractive Index	1.440–1.520@ 20°C
Flash Point	>93°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Cold Process Candles: 6–10%; Scented Candle: 5–10% Reed Diffuser: 15–25%; Hot Process Candles: 5–8%; Room Spray: 2–6%; Home/Hotel diffuser : 5–10%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Lotus & Osmanthus Fragrance Essence Oil is primarily used to impart a sophisticated floral identity to ambient fragrance products. Its combination of fresh lotus and subtly sweet osmanthus creates an atmosphere that feels clean, graceful, and inviting rather than excessively intense. This makes it useful for developing home fragrances designed around relaxation, freshness, and understated elegance.

In reed diffuser formulations, the fragrance can provide a continuous aromatic presence as the scent travels gradually through the reeds. For cold-process scented candles, it contributes a refined floral dimension that can complement the warm ambience created by candlelight. The balanced composition also provides formulators with flexibility when developing layered fragrance concepts, allowing complementary citrus, green, woody, musky, or fruity accords to be incorporated.

For fragrance manufacturers, it can function as either a standalone scent direction or a floral building block for customized ambient fragrance collections. Its distinctive lotus-osmanthus combination can help brands establish a recognizable scent identity across multiple home-fragrance formats.

Primary Applications:

This fragrance essence is suitable for reed stick diffusers, cold-process scented candles, aroma diffusers, home fragrance oils, room sprays, car fragrances, and selected hospitality scenting products, provided that the final formulation meets the applicable product requirements. Its elegant floral character works particularly well in bedrooms, living rooms, bathrooms, spas, boutiques, reception areas, and hotel environments.

For reed diffuser production, the oil can be blended with an appropriate diffuser base and adjusted according to the desired fragrance intensity and evaporation rate. In cold-process candle production, it can be incorporated into compatible wax systems after formulation testing to achieve an even scent distribution.

The fragrance is also suitable for OEM/ODM projects, private-label collections, seasonal home-fragrance launches, and customized scent development. Manufacturers can combine its lotus and osmanthus profile with fresh citrus, green tea, white musk, sandalwood, or soft amber accords to create differentiated fragrance concepts for various markets.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
