- Model Number: LDZ-PL30884
- Minimum Order Quantity: 1 KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum, 4 Drum/carton, 20kgs/carton (41*28*33.5cm); Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm) (0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Specification

Product Description

Hotel & Home Diffuser Fragrance Sandalwood Rose Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production With Free Sample

Product Code: LDZ-PL30884

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

It is a sophisticated ambient fragrance essence that combines the timeless elegance of rose with the creamy warmth of sandalwood. Designed for modern home and hospitality fragrance applications, this composition creates a balanced atmosphere in which delicate floral softness meets smooth woody richness.

The fragrance opens with a graceful rose accord, offering a fresh, gently sweet floral impression that brings brightness and refinement to the surrounding space. As it develops, the floral heart becomes softer and more rounded, while subtle powdery and green nuances add dimension. Sandalwood gradually emerges in the background, introducing a creamy, warm, and slightly balsamic character that gives the fragrance a more luxurious and enduring personality.

Its carefully balanced floral-woody structure makes this essence versatile for different ambient fragrance concepts. It can be incorporated into reed stick diffusers, cold-process scented candles, aroma diffusers, room fragrances, and selected hospitality scenting products, subject to formulation compatibility. The fragrance can create an inviting atmosphere in bedrooms, living areas, boutiques, spas, reception spaces, and hotels.

For manufacturers, Sandalwood Rose offers a distinctive foundation for private-label collections, customized scent projects, and premium home-fragrance lines, combining recognizable floral appeal with a sophisticated woody signature.

PLAN

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance begins with a soft, fresh rose impression accompanied by subtle green and slightly powdery nuances. The opening feels graceful and clean, introducing the floral character without excessive sweetness.
Middle Notes	As the fragrance unfolds, the rose accord becomes fuller and more velvety. Gentle floral, powdery, and slightly creamy facets create a smooth heart, while a delicate aromatic freshness prevents the composition from becoming too heavy. This stage gives the fragrance its romantic yet sophisticated personality.
Base Notes	The dry-down gradually reveals creamy sandalwood, soft musk, and subtle amber-like nuances. Sandalwood provides a warm, polished woody foundation that supports the rose and extends the overall aromatic impression. The combination creates a balanced floral-woody profile with a refined, comforting finish, making it suitable for elegant contemporary home-fragrance concepts.

Technical Specifications:

Parameter	Specification
Product Name	Sandalwood Rose Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.900–1.050g/cm³ @ 25°C
Refractive Index	1.440–1.500@ 20°C
Flash Point	>60°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Hot Process Candles: 5–8%; Reed Diffuser: 15–25%; Scented Candle: 5–10% Room Spray: 2–6%; Cold Process Candles: 6–10%; Home/Hotel diffuser : 5–10%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

Sandalwood Rose Fragrance Essence Oil is designed to provide ambient products with a distinctive combination of floral elegance and smooth woody warmth. Its primary function is to establish a refined scent identity that can remain noticeable while maintaining a comfortable atmospheric character. The rose component introduces softness and sophistication, while

sandalwood adds depth, creaminess, and a more grounded finish.

For reed diffuser formulations, the composition can support a continuous fragrance experience as the aroma gradually disperses through the reeds. In cold-process scented candles, it provides a sophisticated floral-woody dimension that complements relaxing indoor environments. Its well-rounded structure also makes it useful as a fragrance foundation for customized blends, where manufacturers can introduce complementary notes such as vanilla, amber, musk, citrus, or green accords.

The essence can therefore serve both as a complete fragrance direction and as a versatile component for developing differentiated home-fragrance collections, helping manufacturers create a consistent aromatic identity across multiple product formats.

Primary Applications:

This fragrance oil is suitable for reed stick diffusers, cold-process scented candles, aroma diffusers, room fragrance products, home fragrance oils, car fragrances, and selected hotel or commercial scenting products, subject to compatibility testing and applicable product requirements.

For reed diffuser production, it can be combined with a suitable diffuser base and adjusted according to the desired fragrance intensity, evaporation performance, and reed material. For cold-process candles, the fragrance can be incorporated into compatible wax systems after appropriate testing to achieve satisfactory scent distribution and product stability.

Its floral-woody character is particularly suitable for bedrooms, living rooms, boutique stores, spas, salons, hotel rooms, reception areas, and relaxation-oriented spaces. It can also be used in OEM/ODM and private-label projects. Manufacturers may combine Sandalwood Rose with complementary woody, floral, musky, fruity, or amber accords to develop customized signature scents for different markets and brand positioning.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options
