

Hotel & Home Diffuser Fragrance Lotus & Osmanthus Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production With Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plant
- Certification: COA, MSDS, IFRA, CE, ISO
- Model Number: LDZ-PL30811
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum, 4
 Drum/carton, 20kgs/carton (41*28*33.5cm); Iron
 Drum Packing: 25 Kg/drum (D: 30cm, H:
 45cm) (0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10
 Working Days For OEM Order
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Hotel & Home Diffuser Fragrance Lotus & Osmanthus Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production With Free Sample

Product Code: LDZ-PL30811

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

The Lotus & Osmanthus Scent Flavoring Essence Oil is a specialized botanical-grade aromatic blend engineered explicitly for ambient home fragrance manufacturing, such as reed diffusers, cold-pour and container candles, and modern nebulizing systems. Unlike personal perfumes focused on human skin chemistry, this formulation is chemically optimized for high-performance scent throw and steady diffusion across various mediums.

This bespoke oil transforms interior spaces into tranquil, spa-like sanctuaries, offering home decor brands a reliable, long-lasting scent solution that avoids heavy, cloying artificial undertones.

LDZ-PL30967

Coconut & Vanilla Fragrance

Production Date: April 25, 2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Supplier: Guangzhou Plant Fragrance Co., LTD

Address: No. 1, Xiyuan Road, Baiyun District, Guangzhou, Guangdong, 510640 China

Tel: 86-13924190039

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The fragrance opens with an airy, refreshing burst of dewy water accords, crisp green leaf nuances, and light citrus accents. These volatile opening notes create an immediate, clean, and revitalizing atmosphere as soon as the oil is exposed to air or heat.
Middle Notes	As the opening settles, the core blooms with the tranquil, translucent elegance of fresh lotus blossom combined with the rich, honeyed, and sweet apricot-peach fruitiness of osmanthus. This lush floral pairing forms the signature character of the blend, offering depth and exotic warmth.
Base Notes	The composition finishes with a smooth, grounding foundation of soft white musks, subtle amber, and gentle woods. These heavier fixatives anchor the delicate floral top notes, ensuring a steady, long-lasting scent throw without fading quickly.

Technical Specifications:

Parameter	Specification
Product Name	Lotus & Osmanthus Scent Flavoring Essence Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.950–1.05g/cm³ @ 25°C
Refractive Index	1.450–1.520@ 20°C
Flash Point	>93°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Cold Process Candles: 6–10%; Reed Diffuser: 15–25%; Scented Candle: 5–10% Room Spray: 2–6%; Hot Process Candles: 5–8%; Home/Hotel diffuser : 5–10%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of the Lotus & Osmanthus Scent Flavoring Essence Oil is to act as a high-performance ambient aromatic agent that neutralizes unwanted odors while instilling a tranquil, spa-like atmosphere. Functionally, it is engineered with specialized fixatives and high-flashpoint carriers designed to resist thermal degradation in molten candle wax, ensuring a consistent and robust scent distribution—known as both a strong "cold throw" and "hot throw"—without scorching or altering the delicate floral notes. In liquid-based diffusers, its function is optimized for low viscosity and balanced surface tension, allowing the oil to climb efficiently through rattan or fiber reed sticks via capillary action for steady, uninterrupted evaporation. Chemically, the translucent aquatic lotus notes function as a refreshing, clean opener, while the rich, apricot-peach osmanthus fractions act as a warm core that lingers in the air. Furthermore, it functions as a versatile blending base that imparts a luxurious, upscale hotel-style ambiance to indoor living spaces, bedrooms, or wellness studios without relying on heavy or cloying synthetic fixatives.

Primary Applications:

This specialized essence oil is extensively applied across the home fragrance, artisanal decor, and ambient scenting industries. Its primary application lies in reed diffuser manufacturing, where it is blended into non-toxic base solvents to provide continuous, flameless fragrance dispersion in residential and commercial spaces. It is also widely applied in scented candle production, serving as a premium fragrance additive for soy, paraffin, and coconut wax blends used in container candles, wax melts, and cold-poured decorative pillars. Additionally, the oil is heavily utilized in cold-air scenting systems and ultrasonic aromatherapy diffusers, where its clean aerosolization fills large rooms evenly without leaving oily residues. Beyond ambient diffusion, boutique brands apply this fragrance compound to room and linen sprays, handcrafted potpourri refreshers, and artisanal bath and body formulations—such as artisan melt-and-pour soaps or bath salts—where creators want to infuse a peaceful, exotic botanical aura that immediately captivates consumers seeking relaxation and mindfulness.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
