

Body Wash Fragrance Peach Flavor Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions with Free Sample

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Plan
- Certification: COA,MSDS,IFRA,CE,ISO
- Model Number: LDZ-PL20151
- Minimum Order Quantity: 1KGS/To Be Negotiated
- Price: 1-49 Kilograms \$20.00, To Be Negotiated
- Packaging Details: Carton Drum Packing :5kgs/drum,4 Drum/carton,20kgs/carton(41*28*33.5cm);Iron Drum Packing: 25 Kg/drum (D: 30cm, H: 45cm)(0.032cbm)
- Delivery Time: 3-5 Working Days For Trial Order; 5-10 Working Days For OEM Order
- Payment Terms: L/C,T/T,Western Union
- Supply Ability: 2000 Kilogram/Kilograms Per Day

Product Description

Body Wash Fragrance Peach Flavor Fragrance Oil For Shower gel & Shampoo & Scented Soap Making / Productions with Free Sample

Product Code: LDZ-PL20151

Peach Flavor Fragrance Oil is a vibrant, fruit-forward aromatic compound expertly crafted for formulating invigorating personal care items such as body washes, shampoos, and artisan bar soaps. Capturing the luscious, juicy essence of freshly harvested orchard peaches, it delivers an uplifting and mouth-watering sensory profile that energizes daily cleansing routines.

Designed with high chemical compatibility, this fragrance oil integrates seamlessly into various cosmetic bases. In liquid cleansers like shower gels and shampoos, it preserves formulation clarity and maintains optimal viscosity without destabilizing surfactant matrices. For soap production—including both melt-and-pour and cold-process methods—it provides reliable scent retention, though formulators should monitor for potential color shifts due to natural fruit aldehydes and low-level vanilla content.

Cosmetic-grade and skin-safe when correctly diluted, this peach essence brings exceptional market appeal to youthful, bright, and refreshing bath collections. It is an ideal choice for creators seeking a sweet, universally loved aroma that lingers delightfully on the skin post-rinse.

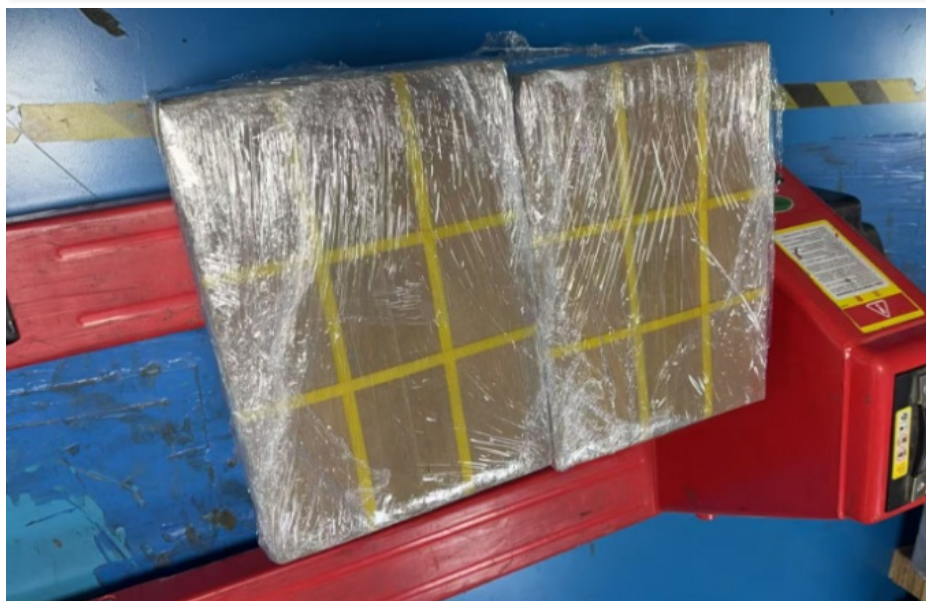

PLAN

Fragrance Profile & Characteristics:

Top notes	It opens with bright, mouth-watering top notes of crisp nectarine, juicy white peach, and a splash of sparkling citrus, delivering an immediate burst of sweet freshness upon application.
Middle notes	As the initial brightness softens, the middle notes unfold into a rich, velvety heart featuring ripe yellow peach pulp, succulent apricot nectar, and delicate hints of tropical guava, creating a deeply realistic and succulent fruit core.
Base notes	Finally, the scent settles into comforting base notes of warm spun sugar, sheer vanilla cream, and soft, clean musk. This harmonious foundation anchors the volatile fruit notes, ensuring a long-lasting, delectable trail that lingers gently on the skin after every shower or shampoo session.

Technical Specifications:

Product Name	Peach Flavor Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.950 to 0.980 g/cm³ @ 25°C
Flash Point	Up to 93°C (200°F)
Refractive Index (RI)	1.450 to 1.512(at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	1% - 3%
Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

Peach Flavor Fragrance Oil performs multiple vital roles in cosmetic formulation, engineered to enhance both the physical stability and the sensory appeal of your cleansing products. Its primary function is aroma retention, utilizing advanced fixatives to anchor volatile fruit notes so the scent survives the harsh surfactant stripping of shampoos and body washes. It also acts as a viscosity stabilizer, designed to integrate smoothly into liquid formulas without causing salt-thickened bases to prematurely thin or separate. Furthermore, it provides excellent pH resilience, standing up to the aggressive alkaline environment of traditional cold-process soap saponification without breaking down or losing its core identity. Finally, it serves as a powerful mood-enhancer, transforming routine hygiene items into an invigorating, spa-like sensory experience that delivers a lingering, mouth-watering scent profile on the skin post-rinse.

Applications:

This versatile fragrance oil is exceptionally well-suited for a wide array of vibrant, fruit-forward personal care manufacturing projects. In hair care, it is widely used to infuse invigorating energy into daily shampoos, clarifying rinses, and nourishing conditioning masks. For body care production, it is a stellar choice for formulating hydrating shower gels, foaming hand washes, and exfoliating sugar or salt body scrubs that leave skin smelling delightfully sweet. In bar soap manufacturing, it performs reliably in both melt-and-pour bases and complex cold-process or hot-process artisan batches, though color stabilization is recommended.

Additionally, it can be seamlessly incorporated into novelty bath products such as fizzing bath bombs, foaming milk bath powders, and luxurious bubble bath elixirs to elevate commercial product lines.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
