## Product Description

### Hotel & Home Diffuser Aroma Tobacco Fragrance Scent Flavoring Essence Oil For Reed Stick & Cold Scented Candle & Diffuser Fragrance Making/Production

Product Code: LDZ-PL30068

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

#### Product Overview:

This versatile, high-purity essence oil is expertly formulated for crafting premium home ambiance products, including reed diffusers, cold-scented candles, and custom aroma blends. Delivering a warm, sophisticated, and complex tobacco aroma—often complemented by subtle earthy, woody, or sweet undertones like amber and vanilla—it creates a cozy and luxurious atmosphere. Engineered for slow evaporation rates in reed sticks and excellent cold-throw in candles, the oil blends smoothly with common solvents and waxes without clogging fibers or compromising structural integrity. Whether for small-scale DIY projects or commercial fragrance production, this long-lasting flavoring oil provides a rich and consistent scent experience.

Production Date: April 25,2026

Production Batch No.: 260425529

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

**Fragrance Profile & Characteristics:**

| Fragrance Notes | Description                                                                                                                     |
|-----------------|---------------------------------------------------------------------------------------------------------------------------------|
| Top Notes       | Bergamot, honey, and fresh citrus or green leaves (providing the initial, bright, and slightly sweet opening).                  |
| Middle Notes    | Warm tobacco leaf, clove, cinnamon, and subtle floral or herbal nuances (giving the scent its rich, spicy, and aromatic heart). |
| Base Notes      | Amber, vanilla, patchouli, cedarwood, and musk (delivering a deep, warm, long-lasting, and comforting finish).                  |

| Recommended Dosage  | Cold Process Candles: 6–10%;<br>Room Spray: 2–6%;<br>Scented Candle: 5–10%<br>Hot Process Candles: 5–8%;<br>Reed Diffuser: 15–25%;<br>Home/Hotel diffuser : 5–10%; |
| Volatilization Rate | Maintains continuous fragrance for 20-30 days, covering 15-25 square meters                                                                                        |
| Solubility          | Easily soluble in ethanol and propylene glycol                                                                                                                     |
| Compatibility       | Compatible with most anionic, nonionic, and zwitterionic surfactants                                                                                               |
| Shelf Life          | 12-24 months when stored in cool, dark place in sealed container                                                                                                   |
| Standard Compliance | IFRA compliant with passed skin irritation testing                                                                                                                 |

Functions & Applications:

The primary function of this tobacco fragrance oil is to impart a rich, sophisticated, and enduring scent profile into various home fragrance and personal care mediums. Chemically engineered as a concentrated essence oil, it functions to steadily release aromatic volatile compounds into the surrounding air through evaporation, heat diffusion, or ambient airflow. In reed

diffusers, it acts as the active scent-bearing agent that wicks up porous sticks to disperse aroma continuously without requiring heat or electricity. For cold-scented candles and wax warmers, it functions by binding uniformly with wax matrices, releasing a robust and stable scent throw as the wax melts or gently warms. Additionally, it serves as a masking and deodorizing agent, neutralizing unwanted ambient odors in living spaces while establishing a cozy, warm, and inviting atmosphere. Its balanced lipophilic formulation ensures seamless dispersion across diverse carrier oils, alcohol bases, and wax types without separating, precipitating, or clogging diffuser fibers, thereby guaranteeing consistent olfactory performance throughout the entire lifespan of the finished product.

### Primary Applications:

This versatile tobacco essence oil is utilized extensively across both artisanal crafting and commercial manufacturing for a wide array of scented products. Its primary commercial application is in the production of reed diffusers, where it is blended with specialized base fluids to provide continuous, flameless fragrance for living rooms, offices, and hospitality spaces. It is also a staple in candle making, particularly for soy, paraffin, and coconut wax candles, delivering excellent cold and hot scent throws that fill rooms with a warm, woody aroma. Beyond diffusers and candles, it is frequently employed in the formulation of room sprays, linen mists, and automated aerosol air fresheners to instantly refresh indoor environments. In addition, boutique manufacturers utilize it in potpourri refreshers, plaster aroma stones, car vent clips, and custom oil burner blends. For personal care and cosmetic applications—when formulated within safe IFRA regulatory limits—it can lend its complex, earthy scent to artisanal soaps, solid colognes, and bath salts.

### Our Advantages:

## 100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

### Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

### Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

## Packaging and Shipping

### Product Packaging Options

| Pack Type      | Quantity | Specification                           | Volume   |
|----------------|----------|-----------------------------------------|----------|
| Plastic Bottle | 5kgs     | L41*W28*H33.5cm 5kg*4 bottle per carton | 0.038cbm |
| Metal Barrel   | 25kgs    | D30*H45cm                               | 0.032cbm |
| Jerry Can      | 20-25kgs | L29.5*D29.5*H41cm                       | 0.33cbm  |

### Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
