Product Description

Body Wash Fragrance Atelier Cologne Scent Fragrance Oil For Shower gel & Shampoo & Scented Soap Making /Productions with Free Sample

Product Code: LDZ-PL20104

Atelier Cologne-inspired fragrance oils are premium, highly versatile aromatic compounds expertly formulated for crafting luxury personal care products such as body wash, shower gel, shampoo, and scented handmade soaps. Capturing the sophisticated, crisp, and natural aesthetic of the renowned French fragrance house, these oils emphasize bright, uplifting citrus notes seamlessly blended with elegant florals, green botanicals, and warm, subtle wood or amber bases.

Designed specifically for cosmetic production, these high-grade fragrance oils offer exceptional stability and performance across various surfactant and soap bases. They maintain their true character and longevity without rapidly degrading or destabilizing product viscosity during hot-process or cold-process soap making, as well as in liquid cleansers. Whether you are developing an invigorating morning shower gel featuring sparkling bergamot and pomelo or a calming, sophisticated shampoo infused with subtle floral and earthy undertones, these oils provide a luxurious sensory experience that elevates everyday cleansing routines into high-end spa rituals.

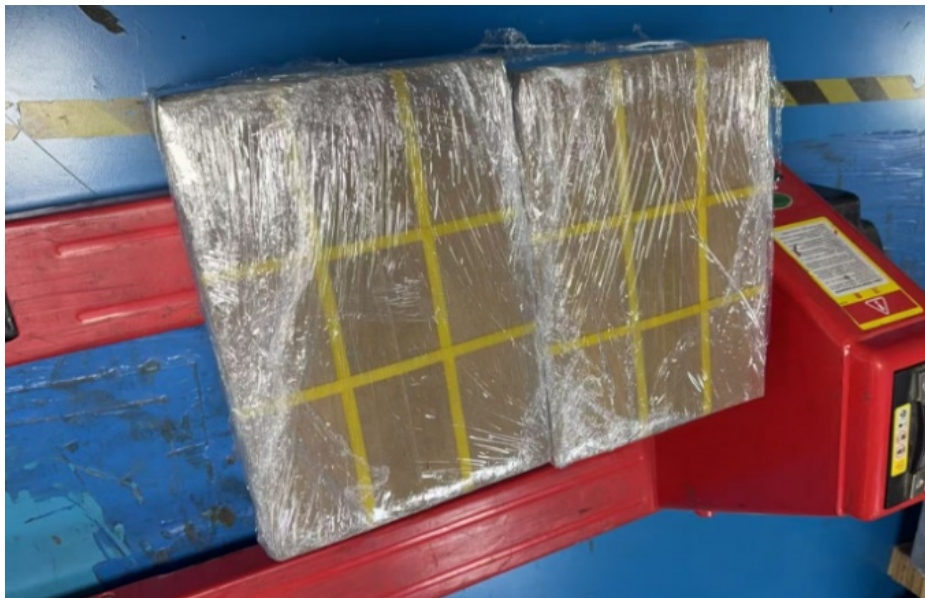

Fragrance Profile & Characteristics:

Top notes	Sparkling bergamot, morning dew, and crisp white pear
Middle notes	Celestial jasmine petals, creamy coconut milk, and soft water lily
Base notes	Warm golden amber, sheer musk, and sacred sandalwood

Technical Specifications:

Product Name	Atelier Cologne Scent Fragrance Oil
Fragrance Profile	Floral-Fruity-Woody aroma
Appearance	Clear, colorless to pale yellow liquid
Relative Density	0.950 to 0.980 g/cm³ @ 25°C
Flash Point	Up to 93°C (200°F)
Refractive Index (RI)	1.450 to 1.512(at 20°C)
Phthalate-Free	Yes
Shelf Life	36 Months (Store away from light)
IFRA Compliance	Adheres to IFRA standards
Solubility	Soluble in surfactant-based systems

Recommended Usage Rates

Application	Usage Rate
Shampoo/Body Washes:	1% - 3%
Shower Gel:	1% - 2%
Liquid Soap:	0.3–0.8%;
Bar Soap (CP/MP):	2% - 3%
Facial Cleanser:	0.1–0.5%

Functions and Applications:

Atelier Cologne-inspired fragrance oils function primarily as sophisticated aromatic agents designed to deliver high-end olfactory profiles across diverse cosmetic formulations. Chemically engineered for stability, these concentrated oils act as robust scent carriers that withstand challenging production environments—such as the high alkalinity of cold-process soap and the complex surfactant matrices of liquid cleansers. They operate by releasing multi-layered fragrance notes sequentially, starting with crisp, volatile top notes like sparkling citrus and green botanicals, followed by stable heart and base structures. Furthermore, they function to mask the natural, unappealing chemical odors of raw soap bases and surfactant blends without destabilizing product viscosity, altering pH balance, or causing premature separation. By locking in longevity, they ensure that the aromatic experience remains consistent from packaging through final rinse-off use.

Applications:

These versatile fragrance oils find extensive application across the commercial and artisanal personal care sector, specifically tailored for luxury bath and body production. In cold-process, hot-process, and melt-and-pour soap making, they are utilized to impart lasting fragrance without causing rapid acceleration or undesirable discoloration. For liquid formulations, they are seamlessly incorporated into shower gels and body washes, providing an invigorating, spa-like sensory experience during use. They are also widely applied in hair care products, including daily shampoos and nourishing hair cleansers, where the scent stays pleasant after rinsing. Beyond liquid cleansers, formulators utilize these oils in artisanal scented hand soaps, bath bombs, and body scrubs. When integrated properly within safe IFRA cosmetic dilution limits, they elevate everyday cleansing items into premium retail goods.

Packaging Options

Pack Type	QTY	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm (5kg*4 bottle per carton)	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Production begins immediately after payment (3-5 days for trial orders, 5-10 days for bulk orders). We provide photos or samples for confirmation before shipping via ship, air, truck, or express according to customer requirements.
