Product Description

Concentrated Perfume Oil Body Using Island Scent Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL11965

The "Island Scent" concentrated perfume oil is an exotic, high-grade aromatic formulation designed specifically for artisanal perfume making and daily body wear. Capturing the vibrant, sun-drenched essence of a tropical paradise, this fragrance oil blends lush exotic florals, sweet tropical fruits, and warm, breezy oceanic undertones. It evokes a refreshing yet deeply sensual getaway, offering a transportive sensory experience that feels both invigorating and effortlessly relaxing.

Engineered for superior performance in concentrated oil formats, this premium fragrance is exceptionally skin-safe when diluted and provides impressive longevity compared to traditional alcohol-based sprays. It binds smoothly with carrier oils like fractionated coconut oil or jojoba oil, ensuring a clean application without stickiness or rapid evaporation. Whether you are crafting a custom summer roll-on perfume, formulating tropical body oils, or designing a signature beachside scent for your boutique line, Island Scent delivers rich, lasting aromatic depth. When producing cosmetics, always adhere to recommended IFRA safety dilution percentages to guarantee optimal skin compatibility.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The top notes open with an energetic, mouthwatering burst of sparkling citrus, juicy pineapple, and crisp green coconut water. This lively introduction delivers an immediate wave of refreshing, beachside brightness.
Middle Notes (Heart)	As the initial zest settles, the middle notes blossom into a lush, intoxicating floral heart featuring sweet tiare flower, night-blooming jasmine, and velvety hibiscus. This rich tropical bouquet infuses the scent with an authentic, sun-kissed warmth and a deeply alluring femininity or exotic charm.
Base Notes (Foundation)	Finally, the base notes anchor the fragrance in a smooth, sensual embrace of warm amber, creamy sandalwood, and a lingering touch of salted vanilla musk. This grounding foundation ensures a long-lasting, skin-hugging trail that feels both warm and effortlessly relaxed.

Applications & Functions:

The Island Scent concentrated perfume oil functions primarily as an advanced, high-potency aromatic agent engineered to deliver a long-lasting, multi-dimensional tropical profile across oil-based and cosmetic formulations. Chemically optimized for superior skin affinity and carrier oil solubility, it acts as an efficient fixative that binds smoothly with natural carrier oils without separation or clouding. It operates by systematically releasing its olfactory pyramid, ensuring that volatile fruit and water notes transition seamlessly into dense floral hearts. Furthermore, it functions effectively to neutralize any raw cosmetic base odors while maintaining high stability against UV degradation and oxidation. By anchoring dense base notes like sandalwood and amber, it guarantees exceptional longevity directly on the skin, allowing the fragrance to project evenly and maintain a consistent, warm tropical aura throughout prolonged daily wear.

This concentrated fragrance oil finds diverse application across artisanal and commercial personal care production, specifically tailored for tropical and summer-themed product lines. In perfumery, it is widely utilized for formulating high-end alcohol-free roll-on perfumes, oil-

based splash colognes, and solid perfume compacts. For body care, it is seamlessly integrated into nourishing body oils, after-sun lotions, and tropical body butters, imparting a lingering, vacation-inspired warmth. It is also popularly applied in artisanal bath and shower products, such as luxury bath salts, beach-inspired shower gels, and exfoliating sugar scrubs, to enhance the overall sensory ritual. Additionally, creators frequently use it in hair mists and solid massage bars (within strict IFRA cosmetic guidelines) to provide users with an immersive, sun-drenched escape during everyday use.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

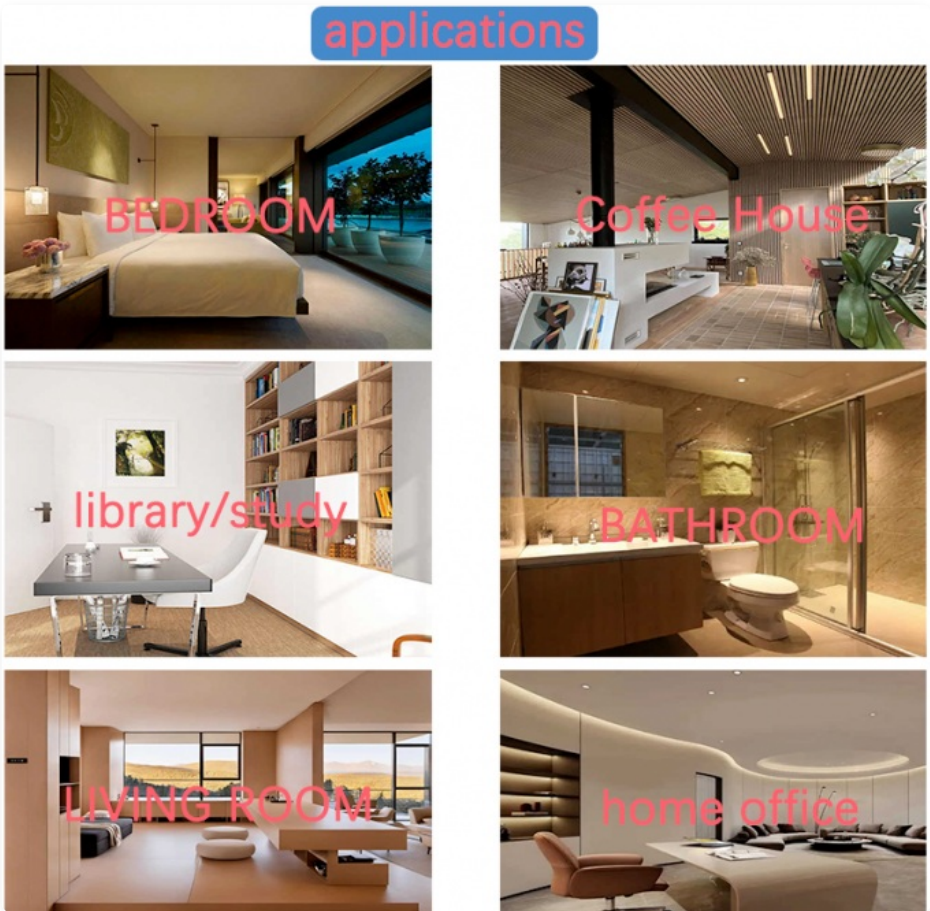

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal
