Product Description

IFRA Hotel & Home Diffuser Aroma Black Berry&Spice Fragrance Scent Flavoring Essence Oil For Reed Stick &Cold Scented Candle& Diffuser Fragrance Making/Production

Product Code: LDZ-PL31608

Premium fragrance essence for diffusers, reed sticks, scented candles, and home spray productions

Product Overview:

This Blackberry & Spice Fragrance Oil is a premium, multi-purpose aromatic essence expertly formulated for home fragrance production, specifically crafted for reed diffusers, cold-scented candles, and general ambient scenting. Combining the rich, tart-sweet profile of ripe blackberries with a warm, complex undercurrent of aromatic spices, it delivers an inviting, cozy sensory experience that balances fruity vibrancy with comforting depth.

Designed for creators and crafters, the oil features high-performance fixatives that ensure superior scent throw and long-lasting diffusion. When used in reed sticks, it maintains a consistent, steady evaporation rate without clogging. In candles, it offers a stable cold and hot throw, releasing fragrance evenly across various wax types (soy, paraffin, or coconut blends) without scorching or separating.

Whether you are launching a boutique candle line or formulating signature diffuser blends for seasonal collections, this versatile essence provides excellent chemical stability, ensuring compatibility with standard perfumery bases and carrier oils.

PLAN

Fragrance Profile & Characteristics:

Fragrance Notes	Description
Top Notes	The scent opens with an immediate burst of juicy blackberry, tart cassis, and sparkling wild raspberry. This bright, fruity introduction grabs attention instantly, delivering a refreshing and vibrant punch that mimics fresh orchard berries.
Middle Notes	As the initial sweetness settles, the heart reveals a rich, velvety floral-fruit blend featuring damask plum, sweet red apple, and a delicate touch of night-blooming jasmine, adding lush depth and complexity.
Base Notes	The fragrance grounds itself in a cozy, sophisticated finish of crushed cinnamon bark, freshly grated nutmeg, warm clove bud, and a subtle whisper of creamy vanilla bean and cedarwood. These rich, lingering spices provide an enduring, comforting warmth that enhances the ambient throw in both candles and diffusers.

Technical Specifications:

Parameter	Specification
Product Name	Black Berry&Spice Scent Fragrance Oil
Appearance	Colorless to light yellow transparent liquid
Relative Density	0.935–0.975g/cm³ @ 25°C
Refractive Index	1.480–1.515@ 20°C
Flash Point	>93°C
Ingredients	Natural & Synthetic Aromatic Compounds
Recommended Dosage	Cold Process Candles: 6–10%; Room Spray: 2–6%; Reed Diffuser: 15–25%; Home/Hotel diffuser : 5–10%; Scented Candle: 5–10% Hot Process Candles: 5–8%;
Volatilization Rate	Maintains continuous fragrance for 20-30 days, covering 15-25 square meters
Solubility	Easily soluble in ethanol and propylene glycol
Compatibility	Compatible with most anionic, nonionic, and zwitterionic surfactants
Shelf Life	12-24 months when stored in cool, dark place in sealed container
Standard Compliance	IFRA compliant with passed skin irritation testing

Functions & Applications:

The primary function of this fragrance oil is to deliver a stable, multi-layered aromatic experience across diverse home fragrance mediums. Chemically engineered as a high-performance scent delivery system, its core function is to release volatile aromatic compounds at a controlled, consistent rate—whether through passive capillary action in a reed diffuser or thermal evaporation

via a candle flame. It functions as an active odor neutralizer, replacing unwanted ambient smells with a complex profile of tart berries and warm spices. Furthermore, it acts as a binder within wax and carrier oil matrices, integrating smoothly without phase separation, precipitation, or discoloration. By utilizing specialized fixatives, the oil slows down the evaporation of lighter top notes, ensuring that the initial juicy fruit burst and the lingering spicy base notes maintain a harmonious balance throughout the product's entire lifespan, providing dependable olfactory performance for both artisans and commercial manufacturers.

Primary Applications:

This versatile essence is specifically engineered for a wide array of home fragrance and ambient scenting applications. In cold-scented candles, it provides an exceptional cold throw and a stable hot throw across soy, paraffin, and coconut wax blends, releasing its rich spice and berry notes evenly without scorching. For reed diffusers, its optimized viscosity allows seamless capillary wicking up porous sticks, ensuring a steady, long-lasting room scent without clogging. Beyond these core uses, it is widely utilized in room and linen sprays when diluted with proper solubilizers, as well as in potpourri refreshers and wax melts. Boutique producers also incorporate it into seasonal ambient oil burners and custom gift collections. Its robust formulation ensures compatibility with standard crafting bases, making it an ideal choice for DIY hobbyists and professional candlemakers aiming to create sophisticated, high-end home fragrance products.

Our Advantages:

100% STRENGTH BRAND

Our products are strictly approved by a list of certifications, such as ISO22000, COA, MSDS, SGS, ISO9001, ISO22000, HACCP, IFRA, SPEC

Support and Services

Our R&D team includes PhDs and senior engineers, with established laboratories in partnership with universities. We integrate global technology to maintain product advantage through continuous innovation.

Comprehensive Support Services

- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation

Packaging and Shipping

Product Packaging Options

Pack Type	Quantity	Specification	Volume
Plastic Bottle	5kgs	L41*W28*H33.5cm 5kg*4 bottle per carton	0.038cbm
Metal Barrel	25kgs	D30*H45cm	0.032cbm
Jerry Can	20-25kgs	L29.5*D29.5*H41cm	0.33cbm

Shipping Information

Production time: 3-5 days for trial orders, 5-10 days for bulk orders. We provide photos or samples for confirmation before shipping. Shipping options include ship, air, truck, and express delivery.
