Product Description

Body Using Concentrated Perfume Oils Different #13 Fragrance Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL10595

This "Different #13" is a high-grade, multi-purpose aromatic essence expertly formulated for bespoke perfumery and custom fragrance production. Designed for both individual artisans and commercial manufacturers, it offers an intensely rich, long-lasting scent profile that captures the essence of luxury perfumery without the dilution of traditional alcohol bases.

Crafted with premium cosmetic-grade ingredients, this versatile oil excels in a wide array of applications. When used neat or in custom dilutions, it provides exceptional skin compatibility, melting smoothly into body oils, roll-on applicators, and solid perfumes. Its dense, highly concentrated structure also makes it an excellent choice for crafting artisanal home fragrances, luxury reed diffusers, scented candles, and premium cosmetic bases like lotions and hair pomades.

Featuring superior fixative properties, "Different #13" ensures a balanced, gradual release of its complex top, middle, and base notes over extended periods. It resists rapid oxidation, maintaining its olfactive integrity and depth whether worn directly on pulse points or diffused in an indoor space. This professional-grade oil elevates DIY projects and private-label collections alike, offering an exquisite, sophisticated signature scent experience.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The scent opens with a light, crisp, and refreshing introduction of juicy pear, fresh apple, and bright zesty citruses. This fruity burst feels clean, modern, and deceptively simple before shifting into deeper dimensions.
Middle Notes (Heart)	The heart introduces an intriguing, slightly green, and botanical layer featuring ambrette (musk mallow), amyl salicylate, moss, and delicate jasmine. This transitional phase provides a soft, floral-earthy nuance that hugs the skin.
Base Notes (Foundation)	The signature character shines in the dry-down, anchored by a heavy dose of Iso E Super, cetalex (ambroxan), helvetolide, and ambrettolide. These synthetic amber and musk notes create a warm, sensual, skin-like aura that is woody, animalic, and uniquely addictive.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Different #13 Fragrance Oil For Perfume
Appearance	Transparent to amber liquid
Relative Density	0.950–1.050g/cm³ @ 25°C
Refractive Index	1.450–1.500
Flash Point	>70°C
Dosage	Home Fragrance: 6%–10% Body Mist: 1%–5%; Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Body Oils/Lotions: 0.3–1%; Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of this highly concentrated perfume oil is to deliver a long-lasting, skin-adapting aromatic experience rooted in modern minimalist perfumery. Chemically formulated as a potent neat oil, its core function is to slowly release complex synthetic musks and woody aromatics as it interacts with body warmth and ambient air, providing a subtle yet enduring sillage. It acts as an effective anchor and fixative within custom cosmetic bases, binding smoothly to skin oils, carrier lotions, and alcohol solvents without separating or destabilizing emulsions. Furthermore, it functions as a skin-enhancing enhancer, utilizing unique molecules like Iso E Super and ambroxan to merge seamlessly with personal body chemistry, creating a dynamic, skin-like aura. By utilizing premium, cosmetic-grade ingredients, it maintains its olfactive integrity and oxidation resistance over time, ensuring a reliable, sophisticated scent evolution for both personal wear and bespoke commercial perfume production.

This versatile, professional-grade oil is specifically engineered for a wide array of personal care, fine fragrance, and ambient scenting applications. For personal perfumery, it serves as the ultimate base for formulating bespoke alcohol-free roll-on colognes, solid perfumes, and customized eau de parfum sprays when blended with perfumer's alcohol or carrier oils. Beyond direct skin application, artisans frequently incorporate it into luxurious body lotions, nourishing hair pomades, and artisanal massage oils to impart a clean, magnetic signature scent. In home fragrance production, its robust stability allows it to be utilized in high-end reed diffusers and custom room sprays. Boutique brands and independent creators also leverage its unique minimalist profile for private-label cosmetic lines, travel-friendly solid fragrance compacts, and exclusive gift sets. Its exceptional compatibility with diverse formulation bases makes it an essential tool for crafting modern, high-end aromatic products.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
