Product Description

Body Using High Concentrated Perfume Oil Crocodile Challenge Fragrance Oil For Perfume Making / Production With Free Sample IFRA &MSDS

Product Code: LDZ-PL10609

The Crocodile Challenge Fragrance Oil is a premium, highly concentrated raw material expertly crafted for artisan perfume making and custom cosmetic production. Designed to capture an energetic, athletic spirit, this fragrance opens with a sharp, invigorating burst of crisp bergamot, zesty Amalfi lemon, and juicy tangerine. As the initial brightness settles, the heart reveals a clean, aromatic blend of spiced ginger, calming lavender, and vibrant violet leaf, adding dynamic contrast and depth. Finally, the scent grounds itself in a sophisticated, masculine finish anchored by rich teak and warm ebony wood. Because of its high concentration and purity, this versatile oil delivers exceptional longevity and projection, making it an ideal choice for blending into luxury eau de parfums, roll-on body oils, and custom personal care formulations.

Production Date: April 16, 2026

Production Batch No.: 260416568

Shelf Life: 2 years

Specifications: 5kg/drum

Product Standard No.: GB/T22731 Daily Fragrance

Net Weight: 5kg

Application: Daily Fragrance

Usage: Add in appropriate amounts as needed in production

Shake well before use, and use as soon as

possible after opening

Storage conditions: Store in a cool, dry, and wellventilated place, sealed

Crystallization may occur when stored in a low temperature environment. Please dissolve in a 50°C water bath and shake well before use.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	The fragrance opens with a sharp, invigorating splash of zesty Amalfi lemon, juicy tangerine, and crisp bergamot, delivering an immediate burst of bright citrus energy.
Middle Notes (Heart)	As the initial brightness softens, the heart unfolds into a clean, aromatic blend. Spiced ginger adds a lively kick, complemented by calming lavender and vibrant violet leaf for a sophisticated, botanical contrast.
Base Notes (Foundation)	The scent ultimately settles into a grounding, masculine dry-down. Rich teak wood and warm ebony wood provide exceptional depth, ensuring strong longevity, excellent projection, and a lasting impression on the skin.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Crocodile Challenge Fragrance Oil
Appearance	Transparent to amber liquid
Relative Density	0.890–1.050g/cm³ @ 25°C
Refractive Index	1.460–1.525
Flash Point	>80°C
Dosage	Home Fragrance: 6%–10% Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Body Mist: 1%–5%; Body Oils/Lotions: 0.3–1%; Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%;

Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water
IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

The primary function of this high-concentration oil is to serve as the core aromatic engine in cosmetic and artisanal formulations, acting as both a scent-deliverer and fixative enhancer. Chemically balanced for raw production, its high purity allows it to impart a long-lasting, complex citrus-aromatic identity to carrier bases without breaking down prematurely. Functionally, it acts as a masking agent to neutralize base-note odors in unscented cosmetic bases while providing controlled evaporation: the volatile top notes evaporate quickly for an immediate burst, the middle notes maintain character during the heart phase, and dense base notes anchor the blend to skin or fabric. Additionally, its concentrated format gives formulators total control over projection and sillage, allowing them to dilute the oil precisely to Eau de Parfum, Eau de Toilette, or body oil strengths depending on the desired end-use performance, alcohol solubility, and target cost efficiency.

This versatile fragrance oil is engineered for a broad spectrum of commercial and artisanal personal care manufacturing. Its most common application is in fine fragrance production, where it is blended with perfumer's alcohol and distilled water to create custom Eau de Parfums and colognes. Beyond traditional spray perfumes, its oil-soluble nature makes it an exceptional choice for formulating roll-on body oils, solid perfumes, and alcohol-free personal fragrances using carrier mediums like fractionated coconut oil or jojoba oil. In the broader personal care and grooming sector, it is frequently utilized to scent men's grooming products such as aftershaves, beard oils, artisanal soaps, shower gels, and lotions, imparting a clean, energetic scent profile. Furthermore, home-fragrance creators can leverage its robust projection for high-end reed diffusers, room sprays, and scented candles, delivering a consistent, long-lasting aromatic experience across diverse manufacturing bases.

Industrial Applications

Primary applications include:

Attars and Concentrated Perfume Oils (CPO): Ideal for alcohol-free, highly potent luxury oils

Fine Fragrances: Used in "Intense" or "Nuit" perfume versions requiring heavy sillage

Premium Home Fragrancing: Top-tier choice for Bakhoor and luxury incense production

Hospitality Sector: Utilized in high-output nebulizers for hotel lobbies and boutiques

Personal Care: Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.
