Our Product Introduction

Product Description

Concentrated Body Using Fragrance Oil Very Sexy Platinum Edition Men's Perfumes Oil For Perfume Making / Production With Free Sample

Product Code: LDZ-PL10629

Crafted for high-end artisan production, the Very Sexy Platinum Edition fragrance oil delivers a magnetic, modern men's scent profile that balances clean freshness with subtle warmth. At its opening, the fragrance exudes an invigorating energy, quickly transitioning into a distinctive heart featuring smooth violet leaf for a refined green nuance. The dry down anchors the blend with a sophisticated mix of spicy Sichuan pepper and earthy oakmoss, creating a deeply masculine and captivating foundation. Ideal for crafting bespoke colognes, aftershaves, luxury grooming goods, and body sprays, this concentrated oil offers exceptional versatility and a timeless, sophisticated appeal that elevates any custom fragrance line.

Fragrance Profile:

Fragrance Notes	Description
Top Notes (Opening)	Unlike standard citrus openings that fade within minutes, this uses a zesty, electrifying spice. It delivers a modern, tingling freshness with a vibrant, citrus-like kick that instantly grabs attention and creates a dynamic "hot-and-cold" tension from the very first spray.
Middle Notes (Heart)	Moving away from heavy, cloying florals or generic herbs, the violet leaf introduces an unexpected, dew-kissed green elegance. It acts as a smooth bridge, softening the sharp pepper spice with a gentlemanly, crisp botanical texture that feels clean, modern, and uniquely sophisticated.
Base Notes (Foundation)	Eschewing overly sweet vanillas or heavy synthetic ambers, the foundation relies on a rich, earthy, and classic mossy depth. This provides superior fixation and a long-lasting, sophisticated trail reminiscent of classic fougères, giving the scent a grounded, timeless, and deeply masculine signature.

Technical Specifications:

Parameter	Specification
Fragrance Notes	Very Sexy Platinum Edition Men's Perfumes Oil
Appearance	Transparent to amber liquid
Relative Density	0.965–0.990g/cm³ @ 25°C
Refractive Index	1.495–1.525
Flash Point	>93°C (200°F)
Dosage	Home Fragrance: 6%–10% Body Mist: 1%–5%; Soap/wash-off: 1.5-4% Fine Perfume: 15–30%; Body Oils/Lotions: 0.3–1%; Eau de Parfum (EDP): 15–30%; Shower Gel & Shampoo: 0.2–1.0%;
Diffusion Ability	Excellent aroma
Long-lasting Fragrance	8-12 hours (paper strip test)
Solubility	Soluble in ethanol and oils; insoluble in water

IFRA Compliance	Conforms to International Fragrance Association safety standards
Heat Resistance	Stable at 100°C with no noticeable discoloration or odor change
Lightfastness	Good (avoid long-term direct sunlight)
Evaporation Rate	Slow evaporation ensures smoother fragrance evolution

Applications & Functions:

Primary Scent Blueprint & Base	Its main function is acting as the core aromatic architecture for manufactured goods, providing a pre-blended, balanced recipe of top, middle, and base notes that saves creators extensive formulation time.
Olfactive Fixation	Thanks to its heavy oakmoss foundation, it functions as an effective fixative agent, slowing down the evaporation rate of lighter compounds and helping the overall scent linger longer on skin or surfaces.
Odor Masking	In functional bases (such as unscented lotions, surfactants, or waxes), it effectively neutralizes raw chemical base odors, replacing them with a clean, high-end, magnetic masculine identity.
Viscosity and Dilution Compatibility	Engineered to blend seamlessly into various carriers—including perfumer's alcohol, dipropylene glycol (DPG), carrier oils, and melted waxes—without separating or clogging dispensing equipment.
Brand Differentiation	It functions as an affordable alternative for independent labels to replicate a luxury, mass-appealing "department store" scent profile (reminiscent of modern aromatic-fougères) to attract consumers seeking clean sophistication.

Fine Fragrance Production	Extensively utilized to manufacture artisan fine colognes, alcohol-free perfume splashes, and concentrated roll-on perfume oils by diluting the raw oil to desired concentrations
Men's Grooming Line Formulation	Perfect for incorporation into premium grooming items such as beard oils, shaving creams, aftershave balms, and facial washes, giving daily routines a cohesive, sharp, and polished signature scent.
Body and Skin Care Products	Ideal for scenting body washes, shower gels, hand lotions, and body smoothies due to its skin-safe performance ratios, allowing the crisp pepper and green violet notes to translate well onto the skin.
Hair Care Manufacturing	Applied in masculine styling pomades, hair clays, and conditioning shampoos, where the warmth of the formulation can project cleanly throughout the day via body heat.
Home Fragrance & Artisan Crafting	Suitable for scaling into niche lifestyle products, including soy wax candles, room sprays, reed diffusers, and luxury artisan soaps, providing a robust, crisp, and inviting ambiance.

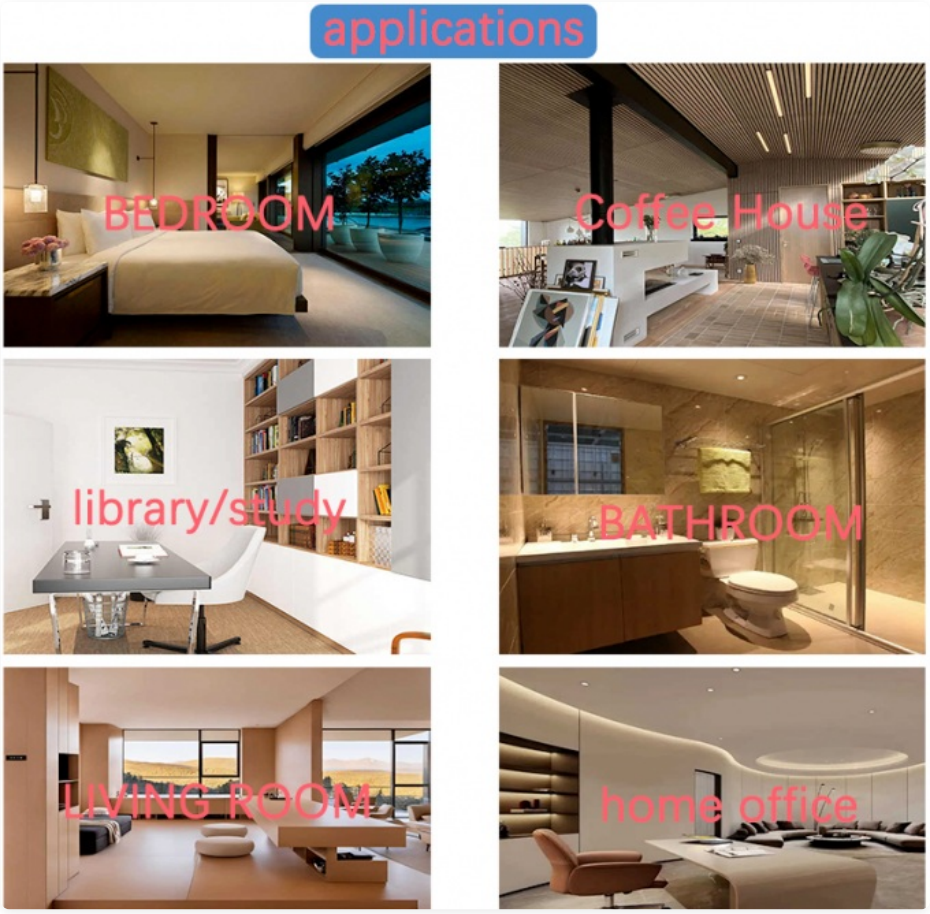

Industrial Applications

Primary applications include:

- **Attars and Concentrated Perfume Oils (CPO):** Ideal for alcohol-free, highly potent luxury oils
- **Fine Fragrances:** Used in "Intense" or "Nuit" perfume versions requiring heavy sillage
- **Premium Home Fragrancing:** Top-tier choice for Bakhoor and luxury incense production
- **Hospitality Sector:** Utilized in high-output nebulizers for hotel lobbies and boutiques
- **Personal Care:** Popular in Beard Oils and Hair Mists for long-lasting sophisticated appeal

Our Advantages

Our R&D team, consisting of PhDs and senior engineers, collaborates with universities to maintain product innovation and quality. We assist customers in improving product aroma, quality structure, and reducing production costs.

Support & Services

- OEM support for custom scents and classical flavors
- Product usage instructions and guidance
- Expert advice on fragrance selection
- Technical support for any issues or concerns
- Product customization services
- Assistance with regulatory compliance
- Training and education on fragrance formulation
